Mexicali

Serves Mexicali
Service Temporary

4/5/10: Local Los Angeles media reports there are 1.5 million people currently living in Mexicali.

FROM WIKIPEDIA:

The city itself had a 2005 census population of 653,046, whereas the municipality's population was 895,962. It is the 13th largest municipality in Mexico as of the Census 2005 with population estimates exceeding one million alone. The population is constantly growing due to the number of Maquiladoras in the area,lack of urban planing, and migrational aspects, like seasonal labor and the constant in-and-out flow of immigrants to the U.S. or into Mexico.

Mexicali is the capital of the Mexican state of Baja California. Mexicali is also the seat of the Municipality of Mexicali. Founded on March 14, 1903, Mexicali is situated on the U.S.-Mexico border adjacent to Calexico, California and is the northernmost city in Latin America, located at 32°40′0″N 115°28′0″W / 32.666667°N 115.466667°W / 32.666667; -115.466667.

Powerful earthquake shakes California
http://www.timesonline.co.uk/tol/news/world/us_and_americas/article7087816.ece

http://www.chron.com/disp/story.mpl/ap/top/all/6944096.html

TIJUANA, Mexico — A civil protection officials says the earthquake that jolted Mexico's Baja California peninsula killed one man whose home collapsed.

Baja California state Civil Protection Director Alfredo Escobedo says the man's home collapsed just outside of Mexicali, close to the epicenter of the 7.2-magnitude quake.

Esobedo says there were reports of more people trapped in homes in Mexicali and rescue teams with dogs and digging equipment are rushing to the city from nearby Tijuana.

Front of La Cronica newspaper has collapsed –

The Mexican Red Cross, it's different (History of)
http://www.mexconnect.com/articles/667-the-mexican-red-cross-it-s-different

The Cruz Roja Mexicana functions 24 hours a day, 365 days a year. Like the American and Canadian Red Cross, it assists at disasters, but additionally acts as an Emergency Medical Service. By Mexican law, it is the only organization, outside of big cities, authorized to render first aid to anyone injured in an auto accident or in the commission of a crime.

Services offered: Medical, Volunteer, First Response, Volunteer Services * (ANY/ALL Types); Services, Disaster Relief

The document:

http://www.humanitarianreform.org/humanitarianreform/Portals/1/cluster%20approach%20page/clusters%20pages/WASH/Manual%20HRTWS%20in%20emergency_july2009.pdf

One Response:

http://oneresponse.info/Coordination/ClusterApproach/Pages/Cluster%20Approach.aspx

OneResponse is a collaborative inter–agency website designed to enhance humanitarian coordination within the cluster approach, and support the predictable exchange of information in emergencies at the country level. The website will support Clusters and OCHA fulfill their information management responsibilities as per existing IASC guidance. Key characteristics of the site include:

* A global entry page, where all global cluster guidance materials located on www.humanitarianreform.org is currently being migrated.
* Country or emergency specific content will be hosted on the field level site.
* A specific disaster site will be created within 24 hours, during the onset of a new emergency.
* A low–bandwidth version of the site is available, to enable access and exchange of information in poor connectivity environments.
* Information can be categorized as either public or private. This allows sensitive information to be made accessible only to cluster specific working groups.
* Clusters will directly manage their own content on the site.
* OCHA owns the website and is responsible for its management.

2. Who is the target audience for the website?

The primary audience for the website are humanitarian workers at the country level, including Cluster Leads, cluster members, OCHA, UN Common services etc. The secondary audience is global, including the global cluster staff at HQ, cluster members, donors, and OCHA.

3. What is the background to OneResponse?

In order to avoid the multitude of one–off ad hoc websites developed in each new emergency, there was inter–agency consensus in early 2008 that a single website was needed to support the predictable exchange of information in emergencies at the country level.

The inter–agency web platform was first field tested in May 2008 in response to Cyclone Nargis in Myanmar. Since then, OCHA has continued to develop the website based on the requirements and functionalities identified in partnership with the Cluster/Sector Information Management focal points and Microsoft, as well as lessons learned from both the Myanmar website and www.humanitarianreform.org. OneResponse is the successor to three different OCHA sites: www.humanitarianreform.org, www.humanitarianinfo.org, and ochaonline.un.org/fieldoffice, plus numerous ad–hoc non–OCHA sites.

In December 2008, the IASC Working Group requested the IASC Task Force on Information Management develop “an improved inter–agency web–platform to support and manage the exchange of operational information in emergencies, taking into account relevant existing web platforms and avoid duplication of existing agency web based resources”.

4. What is the role of Microsoft?

Microsoft’s collaboration with OCHA on OneResponse is based on a public private partnership initiated in early 2006, to work together on information management and information technology issues in humanitarian response. Building on this partnership, Microsoft committed to developing, hosting and supporting the Inter Agency Website, based on the functional requirements defined by the Clusters and OCHA

5. What is the role of the Clusters/Sectors in the website?

The role of the clusters/sectors is to manage their own content at the global and field level, as well as provide feedback to OCHA on changes they would like made to the website.

6. What is OCHA’s role?

OCHA’s role is to manage the website and ensure that sufficient guidance material and support is provided to the clusters so they can manage their content effectively. The IASC endorsed ‘Operational Guidance on Responsibilities of Cluster/Sector Leads & OCHA in Information Management’ requires OCHA, in collaboration with the clusters, to provide a country–specific or disaster specific humanitarian web–site.

7. How can I learn more about OneResponse?
