OPERATION USA RESPONDS TO
SOUTHERN CALIFORNIA FIRES

Operation USA's initial and immediate response to the California wildfires included donations of 10,000 N–95 Masks (disposable particulate respirators) to the Los Angeles Sheriff's Department and 10,000 N–95 Masks, 960 pairs of heavy leather work gloves and 1000 pairs of safety goggles to be distributed to migrant farm workers throughout the heavily affected San Diego county. Operation USA is continuing to assess additional needs in rural areas where the basic infrastructure of electricity, water and farmland has been heavily damaged and where recovery will take a substantial amount of time. We work through local nonprofit organizations in the affected counties.

Your contributions are still needed. Donations can be made by credit card by calling (800) 678–7255 or by going online at www.opusa.org and specifying that your donation is for the victims of the California wildfires.

If companies would like to donate bulk quantities of appropriate relief supplies, contact Neil Frame at 800–678–7255 or by e–mail at nframe@opusa.org.

For the past 27 years we?ve prided ourselves in strictly adhering to several operating principles which, taken together and despite our small size, have gained Operation USA international recognition as one of the world?s most cutting edge relief and development organizations.

Foremost among these principles and despite our organizational name, Operation USA accepts no US Government funding of any kind. We have avoided becoming a US Government contractor unlike many of the major international relief agencies whose growth is largely dependent on such funding. Underpinning this is our belief that ?Private Means Private?, and so we rely instead on the generosity of the American people and on their private institutions to support our work.

Domestic & International Emergency Relief

Operation USA has experienced that, instantaneously, a family, community and entire nation can be devastated and be faced with unprecedented challenges. To mitigate the immediate effects of such tragedies, Operation USA rapidly and expertly provides on–the–ground aid by sending vital life–saving supplies and cash grants to assist communities in rebuilding. Partnering with grassroots organizations, Operation USA specializes in reaching vulnerable populations who are in the greatest need, yet who are often ignored by governments and larger aid organizations.

Rapid Relief – When an emergency strikes, Operation USA is often one of the first professional responders, on the ground with medical supplies, water, purification equipment, shelter materials and trauma teams.

Recovery & Rebuilding – As the emergency phase slowly lessens, Operation USA makes grants to local organizations to help them build their capacity to meet their communities' basic needs.

Long–Term Development – Years after a disaster has abated, communities are still frequently in need of assistance. Responding to a continuing need, Operation USA makes grants to partner organizations for sustainable community–based projects.

When an emergency strikes, Operation USA is often one of the first professional responders, on the ground with medical supplies, water, purification equipment, shelter materials and trauma teams.

Operation USA?s main shipping center is a 25,000 square foot warehouse donated by the Port of Los Angeles, with an auxiliary warehouse in the Port of San Francisco. During a disaster, these warehouses function as the receiving centers, making it easier and faster for shipments to be approved before heading out. During non–emergency times, the warehouse remains stocked with supplies Operation USA donates to California?s 200 community clinics.

FROM THE SITE 10/28/12 (LTEL):

As Hurricane Sandy blasts its way north from the Caribbean, where it claimed more than five dozen lives, AmeriCares stands prepared to rush emergency aid and, if needed, deploy relief workers to areas hardest hit by the oncoming storm.

Our U.S. and ER teams have reached out to 130 response partners in several states to assess potential needs and will be in continued contact as the storm progresses. In the meantime, our stock of targeted medicines and supplies is positioned for immediate shipment, with special focus on chronic care meds, first aid, water, family emergency kits, and other relief supplies.

“This storm is going to affect the densely populated Eastern seaboard, and is likely to cause significant damage to homes and businesses and disrupt transportation systems,” said Garrett Ingoglia, AmeriCares vice president of emergency response. “This is going to be a very serious storm, and we are ready to help in any way we can.”

The monstrous, Category 1 storm is predicted to make landfall on the mid–Atlantic shore on Monday, October 29, merging with a powerful cold front as it pounds its way northward and inland. Damaging 60–80 mph winds, torrential rains, dangerous storm surges, flooding, heavy snow in higher elevations and widespread power failures are expected. Officials estimate that the slow–moving system could affect 50–60 million people from the East Coast to the Great Lakes.

A state of emergency has been declared in 8 states, and mass evacuations ordered in many coastal areas. The New York City mass transit and subway system are closing at 7:00 pm October 28 in anticipation of the storm's wrath.

Hurricane response continues in Haiti
Regardless of the hurricane's track, preparation is essential for people living in the storm’s path.

In Haiti, where the storm caused severe flooding this week, AmeriCares responded swiftly with deliveries of cholera treatment and prevention supplies. The Haiti team also prepared hundreds of family emergency kits with disinfectants, cleaning products and first aid supplies, and replenished a dwindling stock of emergency medicines at a major hospital in Port–au–Prince.

Support AmeriCares relief efforts as we prepare for and continue to respond to Hurricane Sandy.

FROM RELIEF WEB – 2010 Pakistan Flood Response:

Medical Teams International Responds To Crisis In Pakistan
Source: Medical Teams International
Date: 04 Aug 2010

Medical Teams International is responding to the recent disastrous flooding in Pakistan. They have shipped three containers of medical supplies to partners on the ground in the flood–affected area of the country. The medicines and supplies are enough to help hundreds of thousands of people and are valued at nearly $2 million.

The essential medicines and supplies have arrived in the Northwest region of Pakistan where heavy rain has caused rivers to overflow their banks. More than 1,500 people are known to have died in the floods. The supplies have been received by in–country partners, Hope International and Poverty Eradication Initiative, and are being used to respond to the urgent health needs of those affected by the flooding.

Medical Teams International will air–lift more supplies to their partner in Pakistan early next week. This unit is approximately one metric ton and will serve 10,000 people for 3 months. Valued at $421,000, it will provide urgently needed medicines and supplies to the partner's hospitals and clinics in Pakistan.

In addition, Medical Teams International will determine if teams of emergency medical professionals can be deployed to address emergency health care needs at a partner hospital. Medical Teams International is accepting donations for their response to the Pakistan floods. Please visit www.medicalteams.org for more information.

Development
Our volunteer teams and staff work to establish long–term solutions for international communities plagued by chronic poverty, lack of medical care and minimal educational opportunities.

Distribution
We partner with organizations in more than 70 countries to distribute medical supplies to people in need, passing the $1 billion mark in supplies shipped in January 2007. In the USA, we annually distribute more than $1.7 million in hygiene products and over–the–counter medications to social service
agencies.
