Anaheim Disaster Recovery Center Transitions to SBA Disaster Loan Outreach Center

Release Date: December 8, 2008
Release Number: 1810–022

PASADENA, Calif. –– Adalberto Quijada, district director of the U.S. Small Business Administration (SBA) Santa Ana, Calif., announced the federal–state Disaster Recovery Center (DRC) in Anaheim will transition to an SBA Disaster Loan Outreach Center (DLOC) at 9 a.m. on Saturday, December 13, 2008.

The Anaheim DRC at East Anaheim Community Center, 8201 East Santa Ana Canyon Road ceases operations on Friday, December 12, at 6 p.m. The SBA DLOC opens Saturday in the same location with operations Monday through Friday, 9 a.m. to 6 p.m., and Saturdays, 9 a.m. to 1 p.m., until further notice.

The California Office of Emergency Services (OES) and the Federal Emergency Management Agency (FEMA), along with SBA, opened the DRC to provide personal assistance and disaster information to individuals and businesses that suffered damage in the California wildfires of November 13 through November 28.

"At this stage of the recovery, the assistance emphasis is on the long–term needs of survivors. We believe the transition of the Anaheim DRC to an SBA DLOC will meet those needs," said Quijada.

SBA customer service representatives will continue to be available at the DRC until it closes and at the DLOC to issue loan applications, answer questions about SBA's disaster loan program, explain the application process, help each individual complete his or her application, and close his or her approved disaster loan. FEMA will have an Individual Assistance program specialist at the DLOC, too.

Low–interest SBA disaster loans are offered to homeowners, renters, businesses of all sizes and private nonprofit organizations to repair or replace property damaged or destroyed by the disaster. So far, SBA has approved more than $5.3 million in low–interest disaster loans to residents and businesses hurt by the November wildfires.

SBA disaster loans up to $200,000 are available to homeowners to repair or replace damaged or destroyed real estate. Homeowners and renters are eligible for up to $40,000 to repair or replace damaged or destroyed personal property.

Businesses of any size and private nonprofit organizations may borrow up to $2 million to repair or replace damaged or destroyed real estate, machinery and equipment, inventory, and other business assets. SBA also can lend additional funds to help with the cost of making improvements that protect, prevent or minimize the same type of damage from future like–disasters.

For small businesses, small agricultural cooperatives and most private nonprofit organizations of all sizes, SBA offers Economic Injury Disaster Loans (EIDLs) to help meet working capital needs caused by the disaster. EIDL assistance is available regardless of whether the business suffered any property damage.

To be considered for all forms of disaster assistance, survivors should first call the FEMA registration number 1–800–621–3362 (FEMA) (TTY 1–800–462–7585) or go online at www.fema.gov.

For additional SBA disaster assistance information, call SBA's Customer Service Center at (800) 659–2955, or visit SBA's website at www.sba.gov/services/disasterassistance.

The SBA filing deadline to return applications for property damage is January 21, 2009. The EIDL deadline is August 18, 2009.

Meet SurCATS
A great team of local residents, organizations and county and state agencies are working together to mitigate and prevent life and property–threatening events in Big Sur as a result of the summer fires. SurCATS is the largely volunteer, community group facilitating the communication of this information to the public through this website and if needed, a hotline or other system. SurCATS was created in Big Sur 10 years ago to serve the community during times of disaster.

SurCATS was founded in 1998 in response to the El Nino disaster situation in Big Sur. As a result of the Basin Complex Fire this year, the organization has re–invented itself and is focused upon providing clear and accurate information about the dynamic situations Big Sur will face this winter. The mission of the organization is to provide the community with a trusted information source for current, accurate information on disaster related topics. SurCATS committee leaders include: Barbara Ray Daughters, Nadine Clark, and Lisa Goettel, who are coordinating closely with CERT Team leaders Dick Ravich and Mary Trotter. Frank Pinney of the Big Sur Fire Brigade and representatives from involved agencies and local organizations.

Thank you
Thank you to many hundreds of people who aided Big Sur through the third largest fire in California history this summer, and to the many individuals and agencies who are assisting with prepring and repairing our community this winter. You are truly making a difference.

Support Big Sur
You can help Big Sur re–build and prepare for the winter rains by donating to the fire relief fund.

Notes & Thank You's
In the midst of this wild year in Big Sur, every day brings more acts of kindness and compassion. We wanted to provide a place for you to share your gratitude and stories.

OLD NOTES FROM THE 2007 BIG SUR WILDFIRE:

There is a growing need for volunteers, housing and accurate information as Big Sur faces the Basin Complex fire.

This site is like a community bulletin board matching those in need with those who want to help. We are running this on the honor system and counting on the basic good nature of everyone to post only information that is known to be true.

Need Help, Offer Help
Have a need for either Housing or Volunteers? Have a place to stay or want to give your time? Your posting will be available for those looking for ways to help and those in need.

Notices & Resources
We have also compiled a Notices section, where announcements can be made pertaining to homes lost, local business operations, lost and found, local events happening or not happening, and more. The Resources & Links page has a comprehensive and up–to–date list of useful links and phone numbers.

Thank You's
In the midst of this fire, every day brings more acts of kindness and compassion. We wanted to provide a place for you to share your gratitude and stories through a new Thank You section.

West Valley has just come through a major expansion project, more than doubling the size of the facilities to 50,000 square feet. With a large cat population in the West Valley, the new Care Center features multiple cat rooms and special cat play areas, in addition to increasing the number of cages by 68. The dog kennels have an outdoor feel, but dogs will have access to enclosed air–conditioned spaces because of the extreme heat of the West Valley in summer. The number of dog kennels has increased from 56 to 152

We are one of the oldest charitable non–profit agencies in Butte County, California, working since 1911 to bring humanitarian care to dogs, cats and other animals entering our shelter. Our success comes from pairing the right pet with the right owner. This helps us meet our goal of finding loving homes for all the lost, abandoned and otherwise unwanted animals that come through our door, and to provide education to the public concerning animal care and the importance of spaying and neutering. We are an Open Admissions Shelter for the City of Chico. This means we accept every animal that is brought to our facility, from within the city of Chico, regardless of age, health, behavior or special needs.

Last Saturday, North Valley Animal Disaster Group held a volunteer drill involving the mock evacuation and relocation of 50+ animals from BHS. Fire season is here and we all need to be prepared – check out NVADG's website for more information and a guide to preparing all members of your family (fur–faced and otherwise) in case disaster strikes

From the website:

July 8, 2008: The Concow Fire has taken a turn for the worse causing the Butte County Sheriff's Office to issue an evacuation advisory for Concow and Yankee Hill area residents.

All evacuating residents may take their companion animals to:

Las Plumas High School at 2380 Las Plumas Ave. in Oroville.

Large animals may be taken to the Chico State University Farm at 311 Nicholas C. Schouten Lane directly off Hegan Lane.

Evacuees from Paradise may take their companion animals to the Neighborhood Church in Chico at 2801 Notre Dame Blvd.

Our focus is assisting in the evacuation and sheltering of animals during a large disaster. If you are forced to evacuate and need a place to shelter your animals, we can help. If you are not home when a disaster strikes and you need someone to enter an area that has been evacuated, we can help get your animals out. Contact us now at (530) 895–0000.

The North Valley Animal Disaster Group is not a government funded agency. There are no paid employees. We do not have a permanent Animal Shelter. Apart from our public education department, we only provide sheltering and evacuation services during a large disaster. Los Angeles Regional Foodbank is a nonprofit charitable organization that has been serving the disadvantaged of our community for 35 years. We are at the heart of a charitable food distribution network that includes nearly 900 charitable agency sites in Los Angeles County. A voluntary board of directors provides guidance and oversight for Foodbank activities.

The Los Angeles Regional Foodbank is a partner with Feeding America (formerly America's Second Harvest) Feeding America is the nation's largest non–governmental, domestic hunger relief organization. As a partner, we follow the guidelines put forth by the network and are subject to monitoring. Los Angeles Regional Foodbank upholds the highest standards of charitable food distribution. We are also connected to and cooperate with food banks throughout the country.

Los Angeles Regional Foodbank is the only Feeding America affliated food bank in Los Angeles County.

From Warehouse to Table
Food is donated to Los Angeles Regional Foodbank from local and national food manufacturers, wholesalers, supermarkets, restaurant suppliers, packers, processors and brokers. Once a shipment of food is received at our warehouse, it is sorted, inspected, and if necessary, repacked for distribution to participating charities in Los Angeles County.

We sort, inspect, repackage and distribute thousands of pounds of food each day with the help of dedicated volunteers. Last year, 13,000 volunteers contributed over 60,000 hours of service.

Charities order and pick up the products they need from the Foodbank on a weekly basis. They then serve the food to needy families, children and individuals free of charge. Through these charities, over 674,000 people receive healthy meals each year.

Volunteer:

Without volunteers, the Foodbank would not be able to provide food for thousands of hungry people every week. Get together with a social, church or work group and spend a day with us.

To learn more about becoming a Foodbank volunteer, contact our volunteer coordinator at (323) 234–3030, extension 144 or amartinez@lafoodbank.org.

WELCOME to CARe! Providing free disaster recovery help, information and guidance for over ten years. Groups are currently forming in Poway, Rancho Bernardino, Lakeside and East County. We are looking for volunteers in other effected areas. We also have ongoing work in Lake Tahoe.

Be aware that any successful recovery process takes time, and requires complete awareness of your actual damages and knowledge of ALL the benefits of your insurance policy(ies).

We have three ways we can assist you. Handouts and educational materials, meetings and lectures and one on one appointments.

Purpose
Community Assisting Recovery, CARe, is a grass roots non–profit, tax–exempt 501c3 corporation working to restore and strengthen damaged buildings following a disaster (or single event) by educating residents, property owners and construction professionals in the disaster recovery process.

CARe's volunteers are SURVIVORS of natural disasters, and are dedicated to making your path to a normal life after a disaster shorter and easier because of their caring and expertise. Our pages are filled with helpful tips and web links. Have a look around.

History
CARe, with a grant from Fannie Mae, originated in Los Angeles in response to the Northridge Earthquake. Since April 1994, CARe has assisted thousands of homeowners, at no cost to them, to obtain information and resources to rebuild their earthquake, and more recently, wind, fire and flood damaged properties.

CARe has brought to the communities it has served in excess of 3 billion dollars in insurance funds and other resources. For more than eleven years, often through questions raised by property owners at these workshops, CARe has developed a unique understanding of damage detection in, and repair options for, residential and commercial structures.

CARe has provided:

* Damage and loss documentation for mediation and litigation.
* Consultant in disaster victim tax relief legislation
* Testimony at public insurance and disaster hearings
* Participation in successful suite against 20th Century Insurance Company petitioned to the US Supreme Court.

Tzu Chi volunteers ease the evacuees' minds and discuss relief plans
As of 9 AM on November 17, the 28,889-acre Triangle Fire was 40% contained with a total of 155 residences destroyed and another 104 damaged. The Tea Fire, which destroyed 111 houses, was 95% contained and the Sayre Fire was 40% contained with 615 homes destroyed.

On November 16, 13 Tzu Chi volunteers from the Northwest Los Angeles region visited the shelter in Sylmar High. The volunteers performed sign language songs for a deaf couple. The wife pointed at a picture on Los Angeles Times showing the ruins of the mobile home park. Their home was totally destroyed, and they are staying with a friend for now. Tears began to well up in her eyes. The volunteers patted on her shoulder and comforted her.

On the same day, Tzu Chi volunteers from Orange County visited the shelter in Katella High where the evacuees from the Sayre Fire stayed. While providing assistance at Katella High, the American Red Cross asked Tzu Chi to support the other three shelters in the area as well. Tzu Chi immediately mobilized its volunteers and arranged for resources to provide the additional support needed.

At the shelter in Valencia High, an old lady patted her chest and continued to ask for a doctor even after she had just been checked by a doctor and no problem was detected. A Tzu Chi volunteer quickly went over to her, took her by the hand, offered her a drink of water, and chatted with her. The old lady gradually calmed down after the volunteer chatted with her. For this, her husband was very grateful.

On the same day, local Tzu Chi volunteers encountered city council member Wen P. Chang when they visited the shelter in Diamond Bar High. Mr. Chang was very familiar with Tzu Chi and immediately helped the volunteers to set up a service station. Diamond Bar Mayor Jack Tanaka went over to Tzu Chi's service station, shook hands with the volunteers and thanked them for their support. The volunteers provided a total of 156 blankets to the evacuees in Diamond Bar High on the 16th and 17th, as well as served a Chinese-style lunch to 100-plus evacuees and staff on November 17.

On the 18th, ten volunteers distributed cash cards and/or blankets to the fire survivors in Brea Community Center. Starting on the 19th, the city of Sylmar will open a One Stop Help Center to provide various services to the fire survivors. Tzu Chi will set up a station there to provide assistance.

William Keh, CEO of Tzu Chi Foundation U.S.A., once again urges the public to conserve water and power. He asks everyone to pray sincerely for full containment of the wildfires as soon as possible. Public donations to Tzu Chi will go a long way to assist the fire victims. The donation hotline is 1-888-989-8244.

Now finding the help you need is as easy as dialing 2–1–1

2–1–1 is an easy to remember phone number for non–emergency information and referral, crisis intervention, and suicide prevention. 2–1–1 is to health and human services what 911 is to emergency services.

How does 2–1–1 work?

2–1–1 HelpLine calls are answered by trained, multilingual staff 24 hours a day, 7 days a week, and are confidential. Staff help identify what program or programs will best meet the caller?s needs, provide information, connect, and/or refer callers directly to the programs that will assist them. Staff also provide immediate crisis intervention and suicide prevention. As with all 2–1–1 calls, these calls are strictly confidential.

2–1–1 HelpLine is the first point–of–access to all community services, including shelter and housing, food, drug and alcohol abuse prevention and treatment, health facilities, counseling, mental health services, senior issues, financial assistance, legal assistance, child care, child and elder abuse services, recreation, disaster relief, crisis intervention and suicide prevention, and much more. 2–1–1 is also the number to call when you are looking for ways to give back to the community, find volunteer opportunities, and other ways to support local organizations.

Disaster Relief

In the event of an emergency or disaster in or affecting Santa Barbara County, 2–1–1 HelpLine is now the public resource for immediate information on response, relief and recovery efforts. For example, road closures, evacuation areas, emergency

shelters, animal housing, school closures, donation locations and volunteer opportunities, where to go to speak with Federal Emergency Management representatives, insurance adjusters, and more.

What Types of Resources are Available Through 2–1–1?

Health insurance programs, medical information lines, crisis services, support groups, counseling, drug and alcohol intervention

Financial assistance, job training, transportation assistance programs

Support for Older Americans and Persons with Disabilities:
Transportation, Adult day care, community meals, Meals on Wheels, respite care, home health care, and homemaker services

2–1–1 Online; www.211sbcounty.org

The online 2–1–1 HelpLine Directory, located at www.211sbcounty.org, allows each nonprofit organization to update their programs and services information daily. For example, updates may include number of spaces available, waiting list information, blood drive locations, seasonal changes and any important change or addition. This updated information is available both to 2–1–1 HelpLine staff and to the public through the website.

Examples of calls to the 2–1–1 HelpLine include:

A senior citizen wanting home care support in order to live independently
A homeless person seeking shelter, a place to get out of the cold or to have a hot meal
A family facing eviction and needing housing options
A recent immigrant needing language and employment training
A pregnant woman seeking information about prenatal care
A laid–off worker wanting to find out about employment insurance
A family searching for child–care services in their community or close to work

A family trying to find services for their son with a newly–diagnosed illness a person feeling stressed and suicidal
A person experiencing or reporting child or elder abuse

Where does 2–1–1 exist?

2–1–1 is currently available to over 225 million people across the United States. As of August 2007, 240 2–1–1 systems are active in 45 states (21 with 100% coverage), plus Washington, DC and Pureto Rico, reaching more than 75% of the U.S. population (www.211.org). In California 19 counties have 2–1–1 services available, currently serving approximately 84% of the population.

History of 2–1–1

Since 1998, a 2–1–1 collaborative has been working towards a nationwide 2–1–1 system, resulting in the Federal Communications Commission?s (FCC) July 2000 ruling that set aside 2–1–1 as the universal, easy to remember number for community information across the country.

The United Way of Metropolitan Atlanta was the first to use the 2–1–1–abbreviated dialing code as an information and referral hotline in 1997. United Way of Connecticut followed in 1998, turning their InfoLine into a centralized, statewide helpline using 2–1–1 in 1999 and experienced a 40 percent increase in calls seeking assistance. The need for a 2–1–1 service was highlighted in New York, where no such service existed, after September 11 when 400 hotline ?800? numbers had to be activated. During that same period in Connecticut, which had a 2–1–1 service, 95% of calls for non–emergency information were handled by 2–1–1.

In 2003, The California Public Utilities Commission (CPUC) unanimously approved an order to implement 2–1–1 dialing in California. In 2004, Family Service Agency of Santa Barbara County was selected to be the provider of the 2–1–1 service for Santa Barbara County. Local Red Cross to Begin Distribution of Tea Fire Response Funds
By Marjorie Wass | Posted on 01/13/2009

More than $400,000 has been donated to help residents affected by the November blaze.

The Santa Barbara Tea Fire Response Fund, a collaborative community partnership formed in the days after the Tea Fire that began Nov. 13, 2008, is ready to begin reviewing and disbursing donated funds, which total about $405,000.

Residents affected by the fire who seek assistance must apply at the American Red Cross–Santa Barbara County Chapter, 2707 State St. in Santa Barbara, from 9 a.m. to 5 p.m. Monday through Friday.

Applicants should bring proof that their house was burned down or damaged, or that they have been adversely affected by the fire. Examples include a driver's license with the destroyed home's address, or utility correspondence sent to the address. All applications are confidential.

The Red Cross has offered to provide the case management service. Residents who already have applied to Red Cross do not need to apply again. A case manager will meet with residents to discuss unmet needs. To set an appointment, call Pamela Voge at 805.687.1331.

Tea Fire Response Funds will be distributed based on a two–tiered system where a public–private partnership of agencies and officials will provide screening at the social worker/case manager level and an oversight committee of local leaders will provide direction and assurance that all monies are used appropriately. United Way of Santa Barbara County is acting as the fiscal agent, handling the monies for the fund. United Way is not charging for this service, and 100 percent of the donations will go for services to Tea Fire survivors.

The Tea Fire Response Fund is committed to the long–term recovery of the community.

Disbursements will be made throughout the year as needs of survivors continue to be identified.

Disbursements will be made on a quarterly basis until all funds are disbursed, no later than Dec. 31.

The first checks will be distributed in March and every three months thereafter. It's a tentative schedule and may be adjusted based on what the screening subcommittee and oversight committee determines are the most pressing short–term, midterm and long–range needs of the community.

“Tea Fire Victims Need Specific Items”, says the
Long–Term Recovery Committee
Santa Barbara ‘Voluntary Organizations Active in Disaster’

(VOAD) Seeks Support for Tea Fire Victims from the
Business Community
Thursday, Februay 5th, 2009

The families and individuals impacted by the Tea Fire are currently experiencing different needs than immediately after the disaster. A change of clothes, a toothbrush and some shampoo was all some could think about as they tried to process what had happened to their lives.

Now the need is becoming more specific: a computer to help communicate with piano students; replacement tools so a general contractor with no insurance can get back to work; a catering company that lost everything; etc., etc.
The Long Term Recovery Committee of the VOAD has a limited amount of funds to meet the many needs. The desire is to help make the money stretch so everyone can be helped.

If you operate a business that could donate or discount useful items
of any kind to qualified victims of the Tea Fire, please contact Pam
Voge at the Red Cross ….687–1331 ext. 107.

Welcome! This website is intended to coordinate aid to the many families who are victims of the Tea Fire. We are here to connect people in need with people who want to help. The Mountain Drive Community Association is committed to helping the fire survivors rebuild their homes and their community.

MOUNTAIN DRIVE COMMUNITY ASSOCIATION UPDATE
Greetings to you all,

March 25, 2009

Private Road Update: Great news! The working groups from the four "private roads" in the Mountain Drive community have reached an equitable agreement with the Fire Department regarding road upgrades. This is a very positive turn of events and we salute the road committee chairs and Montecito Fire as well. This process was an excellent example of community members working together to overcome obstacles to rebuilding after the fire.

Group Slab Recycling Is on hold! It now appears that the vast majority of homes can leave their slabs in place and either build around them or, in some cases, even reuse undamaged portions of their foundation. Many thanks to Coast Valley Testing, Mike Gones, Civil Engineer and Jeff Shelton for all of their work in determining the best approach to dealing with the old foundations!

Group Purchase of Building Materials
The MDCA is looking into helping to reduce the cost of reconstruction by putting together group purchases on building materials. If you are interested please contact us at mdcaarchitecture@gmail.com

Architecture Committee and Rebuild Committee
This committee is your staring point. Jeff Shelton has been working with local engineers and other architects. We are working on getting group rates for testing of foundations and septic systems. Please check with the Architectural Committee before moving forward. There is the potential for significant obstacles to rebuilding and they can offer assistance. We have a better chance of rebuilding the community if we do it as a community. The Committee is looking for photos of all Mountain Drive houses – pre–burn! – To establish a context for our newly completed architectural guidelines. Contact mdcaarchitecture @gmail.com.

Fundraising
As we move forward with our Tea Fire Assistance efforts we desperately need to raise funds to help provide survivors with the support they need to rebuild their lives. Please consider making a donation to the MDCA to help us facilitate the rebuilding process in the coming months.

Other Community Info
If anyone has any photographs from Mountain Drive community events, please contact our historical committee at mdcahistorical@gmail.com. They are trying to reconstruct a photographic history.

And don't forget to keep checking the website: www.teafireregistry.org for community updates, resources, free and discount stuff and other good information!

We hope this information is helpful. Please be in communication, we want to hear from you, we want to be of assistance and we are committed to seeing our community rebuilt.

Best wishes in the New Year,

The MDCA Board

Want to help?
There are many things that the community can to to assist those in need. Many of the victims of the Tea Fire are now homeless. Many have lost all of their worldly belongings. You can help. If you can donate money, services, or goods, please click here for more information. We will constantly update resources, so chack back often

Volunteers Coming to Aid Animal Shelters

At the request of the Santa Barbara Humane Society, the Sacramento–based United Animal Nation (UAN) has begun to deploy Emergency Animal Rescue Service (EARS) volunteers from all over California to Santa Barbara today to assist with the emergency sheltering operation for the hundreds of pets displaced by the Jesusita Fire. “We hope to provide some relief to the amazing Santa Barbara Humane Society staff and volunteers, who have been working non–stop to care for the animals since this crisis began.” said Janell Matthies, UAN Emergency Service Manager and leader of the EARS team in Santa Barbara, in a written statement.

UAN will send 10 specially trained EARS volunteers per day to Santa Barbara to help care for the evacuated animals at the temporary emergency animal shelter for the duration of the Jesusita Fire crisis.

Since 1987, UAN has provided aid to communities overwhelmed by a large number of displaced animals during crises. The organization has provided relief in more than 90 natural disasters and crises, including fires in Butte County, California in 2008; flooding in Cedar Rapids, Iowa in 2008; and Hurricanes Katrina and Rita in 2005.

Those needing assistance with their animals should still call the Santa Barbara Humane Society at (805) 681–4332.

05/07/09 –– At approximately noon today, a PetSmart Charities® Emergency Relief Waggin'® trailer, stocked with at least 16 tons of much–needed pet food and supplies, was deployed from the PetSmart® Distribution Center in Phoenix, Ariz. to the Santa Barbara Humane Society, 5399 Overpass Road in Santa Barbara, Calif. to assist pets who have been displaced or injured by the Jesusita Fire in Santa Barbara County. "We received a request May 6th for assistance from officials with Santa Barbara County Animal Services and began readying a vehicle for deployment to the scene," said Susana Della Maddalena, executive director of PetSmart Charities. Initial reports from Susan Klein–Rothschild, acting animal services operations chief in the emergency operations center, indicate that mandatory evacuations of people and animals have resulted in the shelter receiving more than 150 dogs, 140 cats and at least 50 horses, goats and llamas for emergency shelter and care, with many more expected.

Each PetSmart Charities Emergency Relief Waggin' vehicle is stocked with emergency pet supplies and field and support equipment valued at $60,000. Supplies include pet food, crates, beds, bowls, litter and litter pans, and other necessary animal–care items, as well as a generator, fans, tents, a battery charger, lights and other supplies to assist the agency who is caring for displaced companion animals.

"The sole purpose of our Emergency Relief Waggin' program is to ensure that necessary assistance is readily available for animals in need as a result of natural or man–made disasters," Della Maddalena added. "We want to do our part so these helpless pets receive the care and comfort they need and deserve."

How It Works
For people in need of housing:

When you register as a person needing housing, your information is stored our database. This information is confidential and will only be shared when a match is found (the closest match to your needs).

When a person offering housing sees your profile, they will contact you directly to talk one–to–one about what they can offer. Please respect their hospitality and provide any details they may request to confirm your information.

Any supporting documents (for your identity or status) are strictly between you and the person offering housing. These are people just like you, so be respectful. Honest communication is key. Please provide truthful information for people offering housing and respect their home rules.

Once you find housing, please come back to the site and remove your name from the database so it will not be forwarded to anyone else.

For people offering housing:
When you register and indicate your housing availability our system will work to locate a match to your requirements and will send you information on people in need of housing who meet your criteria.

PLEASE NOTE: THIS IS A ONE–WAY EXCHANGE – as a volunteer your information is NOT provided to anyone else. It is up to YOU to contact someone who needs housing directly, person–to–person. It's also up to you to determine if you want to offer housing to anyone – you are under no obligation to house anyone! This is a citizen–to–citizen exchange, so use your own good judgment if you want to offer your home to share with someone else.

Thank you for your help and together we'll overcome this disaster!

Re: Volunteer emergency housing for victims of San Diego Wildfires

What: Launch of new web site (www.homematching.org) to match California volunteers providing housing with victims of S. Cal. Wildfires

Contact: Larry Goldberg (707–845–7272; larry@northcoast.com) or Mary Crumley, President Rotary Club of Southwest Rotary (707–442–3333; maryjpgr@suddenlink.net)

A group of Rotarians and concerned citizens of Humboldt Co. (North Coast California) have developed a web site offering temporary emergency housing for people suffering from loss of their homes and apartments in San Diego County.

“This exemplifies the spirit of Rotary. We see a need and fill it in the spirit of ‘service above self’,” said Mary Crumley, President of the Rotary Club of Southwest Eureka.

“I just saw a need to help individuals and families who have suffered through this terrible disaster and we want to provide citizen–to–citizen help” said Larry Goldberg, a private IT and business consultant. As a member of the Rotary Club of Southwest Eureka and a member of the Redwood Technology Consortium, he networked his business contacts to create a rapid response to this crisis.

The concept behind this website was based on community efforts in Texas which came out of Hurricane Katrina, but no similar website was found for this situation, so a new site was developed and launched within 24 hours from it’s conception on October 25th.

This service is open to all concerned citizens so anyone can log onto http://www.homematching.org and provide housing or request temporary housing if they’ve been displaced by the wildfires of San Diego. This is a citizen–to–citizen effort matching people offering temporary housing with people who are victims of the wildfires of San Diego. All information is kept confidential and only people providing housing are provided match information, assuring privacy to all volunteers providing temporary housing.

The authors of this website are Josh Koenig (of Chapter Three websites, www.chapterthreellc.com) and site design and graphics provided by Matt Koglin (of Antinomia, www.antinomia.com), Michael Welch (Redwood Alliance and Climate Action Project, www.redwoodalliance.org) For more information, contact Larry Goldberg (707–845–7272, larry@northcoast.com) or Mary Crumley (707–442–3333; maryjpgr@suddenlink.net), President of the Rotary Club of Southwest Eureka (www.swrotary.org).

You just have to show up with work clothes and gloves!

CAN YOU PROVIDE HELP?

As we seek to come around the victims of this weekend's fires, we as a church, are banding together to provide support to those in need. If you are able to assist in any of the following ways, please contact Tanya Modica at tanyam@ylfc.org immediately:
Provide housing for displaced families

Providing supplies such as new clothing, food (only accepting gift cards) or financial assistance. You can make checks payable to "Friends Church" and put in the memo section: "Community Impact: Disaster Relief" and send those "Attention Tanya Modica."

-Provide Legal, Insurance, Counseling assistance
-Volunteer your time
-Provide us with information on families who have lost their homes

Gift Cards: Many victims need clothing, food, etc. We are accepting any type of gift card to help those in need. You can mail or drop gift cards off at the Church Office and send them "Attention: Tanya Modica."

Thanksgiving Dinner at the Summit House: We have had an overwhelming response of those of you who have offered to help with this dinner. THANK YOU! We are no longer in need of additional helpers in this area.

Putting Yard Signs around the city and at actual homes that have been lost. Here are the different ways you can be involved:

Groups: We would like to have people go out in groups with those who are able to help assess needs and console family members if they are on site, those who can put up the yard signs, and if possible, those who can take photos.

Individuals: We need people who can go out and place yard signs on corners and along streets to help get the word out to the community. **Those signs can be picked up at the church office (you will need a hammer and a staple gun). Please let us know by emailing us back the days/times you are available, your name, and contact information.

Flyers: We would like people to take a hand full of flyers and go to some of the surrounding Hotels/Motels and see if if they can hand them out to those families that might be staying there. The biggest part to emphasize would be the Thanksgiving Dinner we will be hosting next Wednesday, November 26th from 4:00–6:00pm on our church campus.

IMMEDIATE NEED: We are assembling Care Packages with the following stuff to be taken to homes:

Shovels
Gloves
Water
Box sifters
Masks
Snack bars

If you are aware of any individuals or families in need of counseling, please have them contact Ken Schemmer at kens@ylfc.org.

These are difficult times for everyone, with some devastated by the effects. It is in these times that it is so important for us to turn to our Father for the comfort, direction and peace so many are desperately seeking. We will all continue to lift this situation up in prayer and trust in the sovereignty of our Lord!

Meals on Wheels is the most recognized name brand of senior nutrition programs. But other senior meal programs by various names are in many communities of the U.S. and around the world and often go by names other than Meals on Wheels (a generic term generally reserved for home delivered meal programs). While Meals on Wheels programs are delivered to the home, seniors may also find congregate meal programs at local senior centers, churches, or community centers. Many communities have both Meals on Wheels and congregate senior meal programs through senior centers available to local residents. California extends tax relief to Southern California wildfire victims

The California Franchise Tax Board (FTB) has announced special corporation franchise and income and personal income tax relief available to California taxpayers affected by the recent wildfires in Southern California. Taxpayers that have lost homes or suffered property damages as a result of the fires can quickly get some financial relief by immediately claiming their disaster losses on their tax returns. Also, the FTB can help replace tax records and other important paperwork lost in the fires.

The wildfires were declared a federal disaster, and affected taxpayers may claim their disaster losses in the current or prior tax year. Claiming the losses on a 2007 tax return will allow the FTB to issue refunds as quickly as possible. Counties included in the disaster area are: Los Angeles, Orange, Riverside, and Santa Barbara. Fires specifically included in the disaster declaration are the Tea Fire in Santa Barbara County, the Sayre fire in Los Angeles County, and the Triangle Complex (formerly named Freeway Complex) fire in Orange and Riverside Counties.

Taxpayers claiming the disaster losses should write "Southern California Wildfires 2008" in red ink at the top of their tax returns to alert the FTB to expedite tax refunds. Taxpayers filing electronically should follow their software instructions to enter the disaster information. Original and amended return forms are available on the FTB's Web site at http://www.ftb.ca.gov/.

Taxpayers needing copies of lost or damaged state returns should complete Form FTB 3516, Request for Copy of Tax Return, and print "Southern California Wildfires 2008" in red ink at the top of the request. Disaster victims can receive copies of their tax returns for free.

Additional information about disaster losses can be found in publications FTB 1034, Disaster Loss, and IRS 547, Casualties, Disasters, and Thefts. Taxpayers who have questions about their accounts can call the FTB toll–free at 1–800–852–5711, Monday through Friday from 7 a.m. to 6 p.m. (Press Release, California Franchise Tax Board, November 19, 2008.)

CWS Situation report: Spring storms 2011
Thursday, April 14, 2011

A series of disasters in recent weeks have marked the end of winter and beginning of spring in the continental United States.
Situation:

A series of disasters in recent weeks have marked the end of winter and beginning of spring in the continental United States.

Among the disasters CWS has been tracking:

* Flooding in several New Jersey counties, with major damage to some 400 homes.
* A tornado in Greensburg, PA, south of Pittsburgh; some 60 homes affected, half of them destroyed. As well, a tornado in Rayne, LA, damaged about 100 homes.
* Wildfires in Colorado; New Mexico; Oklahoma; Texas; Washington.
* Preparations underway for spring flooding in the Upper Midwest, including the Red River Valley, particularly Fargo and Grand Forks, ND, as well as Devil's Lake, ND. The lake at Devil's Lake is close to overflowing and has no outlet; it has quadrupled in size in the last 20 years.
* Preparations are also under way for possible spring floods in Iowa where the Mississippi River may exceed 1993 record levels at Davenport and elsewhere. The citizens of Iowa were also impacted by severe storms and tornadoes on April 9th and 10th.

CWS response:

Partners in Fargo, including the American Red Cross, Lutheran Disaster Response and UMCOR, have asked CWS for CWS Blankets as a pre–positioning move. In addition, CWS plans to allocate $2,000 for spiritual care and other community–based efforts in Devil's Lake. CWS staff are expected to assist efforts in Devil's Lake later this year.

CWS is monitoring the impact of spring storms in Iowa and elsewhere to determine if we can assist with immediate material support (CWS Emergency Clean–up Buckets, Hygiene Kits, or Blankets) as well as with Long Term Recovery training and support.

HOW TO HELP: Contributions to support CWS emergency response efforts may be made online, sent to your denomination, or to Church World Service, P.O. Box 968, Elkhart, IN 46515.

Japan Earthquake and Tsunami: CWS Situation Report #2; 03–13–11

Source: Church World Service (CWS)
Date: 13 Mar 2011

CHURCH WORLD SERVICE
DEVELOPMENT AND HUMANITARIAN ASSISTANCE PROGRAM

SITUATION: Rescue efforts continue in Japan following the March 11 tsunami and earthquake that in recent days has taken another potentially deadly turn as the country tries to deal with a growing nuclear crisis.

Japan's prime minister, Naoto Kan, is describing the situation as the worst in the country since World War II, with several nuclear plants in danger of melting down.

As for the direct tsunami and earthquake responses, authorities said the official number of those confirmed dead is nearly 1,600 but is expected to rise substantially; the death toll alone in the Miyagi region could exceed 10,000.

Some 310,000 people have been evacuated to emergency shelters, the BBC reported.

The two immediate needs for affected families include rescue for those who are trapped and the mobilization of relief goods to evacuation sites. Rescue interventions are primarily being carried out by the Self–Defense Force of Japan and other specialized agencies including the Japan Rescue Association. The Japanese government has requested international assistance in response to this massive disaster.

"Although Japan is considered among the most advanced countries in terms of disaster risk reduction measures, the damage caused by the unprecedented scale of this disaster is beyond imagination," said Takeshi Komino, the head of emergencies for CWS Asia Pacific.

"The government is currently focusing on the search and rescue operations as well preventing a catastrophic nuclear crisis from two severely damaged nuclear power plants," he said. "Increasing humanitarian needs are being reported from evacuation sites including a lack of ready–to–eat food, water, health and sanitation kits and blankets."

RESPONSE: CWS has been in contact with the Japan Platform, a coalition of 32 non–governmental organizations, government service agencies and media outlets. CWS may provide support and channel contributions to individual members of the Japan Platform. The Platform has historically been a vital partner to CWS in previous lobbying efforts towards the Japanese government for disaster risk reduction activities in Afghanistan.

Eight member non–governmental organizations of the Japan Platform have already started assessing needs and initiated emergency response activities. These members include Association for Aid and Relief Japan, Adventist Development and Relief Agency, Civic Force, Institute of Cultural Affairs, JEN, Japan Rescue Association, Nippon International Cooperation for Community Development and Peace Winds Japan. CWS is also coordinating with other ACT Alliance members in the Asia–Pacific region as the international response to this disaster scales up.

"Building upon accumulated CWS and ACT Alliance experience in the region, CWS hopes to mobilize support to Japanese NGOs that are on the ground," Komino said. "Contributions from partners and supporters will be used to fill critical gaps in meeting the basic needs of victims in and around the evacuation sites."

Church World Service is also prepared to support, if needed, efforts of faith–based partners in Japan, including the National Christian Council of Japan and the United Church of Christ of Japan.

CWS anticipates issuing an appeal for this disaster once more specifics are known about precise partnerships and response efforts.

HOW TO HELP: Contributions to support CWS emergency response efforts may be sent to your denomination or to Church World Service, P.O. Box 968, Elkhart, IN 46515.

Church World Service is a member of the ACT Alliance, a global coalition of churches and agencies engaged in development, humanitarian assistance and advocacy.

World Vision is a Christian relief and development organization dedicated to helping children and their communities worldwide reach their full potential by tackling the causes of poverty.

Serving the Poor in Nearly 100 Countries

Where We Work Around the World

World Vision is present where human needs are greatest ? and where hearts can be moved to help the poor. Each year we build on our effective work from the past, with the vision of helping every child experience life in all its fullness.

In nearly 100 countries around the globe, World Vision joins with local people to find lasting ways to improve the lives of children and families in poverty.

Africa, Europe & The Middle East, Asia & The Pacific, The Americas & Caribbean

The number of natural disasters occurring world–wide has increased rapidly in recent decades. In 1984 there were 35 recorded natural disasters – that number more than tripled by 2002, with just over 100 being recorded by the United Nations.

World Vision has enhanced its disaster mitigation and response efforts accordingly, working alongside many other agencies and NGO's committed to addressing human needs resulting from suffering caused by war and internal conflict, food insecurity, displacement, volcanic eruptions, sever drought, fires, earthquakes and floods.

In 2006, World Vision implemented major emergency responses in 63 countries. Dozens of smaller responses were also carried out.

In the past few years, World Vision has launched large–scale relief operations in the southern Africa region, Ethiopia, Liberia, Sudan, Iran and for the Asia Tsunami.

5/23/2013: From DRI Blog
Relief's Emergency Management Team landed in Oklahoma last night to assess the needs of healthcare partners responding to the deadly tornadoes. The team is reporting that severe thunderstorms soaking the town of Moore are inhibiting the response to the needs of people affected by the tornadoes.

Direct Relief has sent seven emergency medical deliveries valued at over $211,000 (wholesale) to three health center sites serving people affected. Direct Relief is in contact with more than 300 clinic and health centers in storm–affected areas and more priority shipments are planned over the next several days.

Lighthouse Medical Ministries, located just five miles outside of Moore, Oklahoma, have opened their clinic to assist with the response. In the absence of typical transportation options, vans are being sent out to collect people with medical needs and bringing them to the clinic. To reduce the risk of tetanus in the aftermath of the disaster, Lighthouse Medical Ministries requested Tdap (Tetanus, Diphtheria, Pertussis) Vaccine. Donated by GlaxoSmithKline, 210 doses of Tdap vaccine were shipped immediately and delivered yesterday.

SEMO Health Network also requested and received Tdap vaccine. Direct Relief is sending today an additional shipment of personal care items, anti–inflammatory drugs, diabetes supplies, wound care, gloves, and eye care products. These items will

support the deployment of a mobile medical unit to Oklahoma on Friday. The mobile medical unit was donated by Direct Relief after the tornadoes that devastated Joplin, Missouri in 2011.

Community Health Center, Inc in Spencer, Oklahoma was not damaged in the tornadoes and is providing care to people who are displaced or injured. Direct Relief has delivered Similac, Family Dental Kits, pelican cases, blankets and infant hats, and prescription medications and supplies to Community Health Center to help with their response.

Additional medical aid to five clinics are planned this week, including medications, medical supplies, personal care items, and 170 vials of Lantus insulin shipped directly from Sanofi US.

11/8/2012: From Website
International, announced today that they have joined together and established a special fund to support the patients and nonprofit health centers and clinics in areas affected by Hurricane Sandy.

All contributions to the Sandy Safety–Net Fund will be used exclusively to support nonprofit healthcare safety–net facilities and related activities in affected communities.

DRI is currently working with partners in Brooklyn, Queens, Manhattan, Staten Island, Red Hook, Rockaway and throughout New Jersey.

Jesusita Fire: Direct Relief Delivers Protective Masks to First Responders
May 6, 2009

5:50 p.m. In response to the rapidly expanding Jesusita fire, Direct Relief has furnished N95 particulate respirators at the request of local emergency response for use by responders to the Jesusita Fire in Santa Barbara County. Watch a video about our response.

The request for protective masks was made to Direct Relief Emergency Response Coordinator Brett Williams, who was meeting at the Santa Barbara County Emergency Operations Center as sundowner winds fanned the flames, forcing more evacuations. See a map of the evacuation area.

Direct Relief has a formal agreement with the County of Santa Barbara to assist in public emergencies, and Williams participates in meetings and drills routinely to ensure smooth coordination in the event of an emergency. The current situation is being described as an “extreme fire emergency.”

Direct Relief Provides $12,000 in Grants to Tea Fire Victims
100% of all Tea Fire contributions going directly to residents
January 29, 2009

Direct Relief International has approved cash grants totaling $12,000 to residents affected by the devastating November 2008 Tea Fire, which destroyed 210 homes in the foothills of Santa Barbara and Montecito. The grants are being paid with designated contributions Direct Relief received to support Tea Fire victims.

Aid recipients were identified through the Tea Fire Long Term Recovery Committee, an interagency working group coordinating assistance among local nonprofit organizations including the American Red Cross and the United Way. A caseworker hired by the committee has assisted the residents with their aid requests and confirmed the extent of their loss.

Among the grant recipients are Lance and Carla Hoffman. The couple escaped through the flames but suffered serious burn injuries that have required specialized care in Orange County since the fire. The cash grant will help them cover medical expenses, which surpass $95,000. Other grants have been approved for uninsured residents identified as being in extreme financial hardship directly caused by losses in the fire.

These cash grants were made possible by generous donors who contributed to Direct Relief’s response and recovery efforts, including the leading software company QAD, based in Santa Barbara.

During the incident, Direct Relief tapped internal funds from its general emergency account to purchase and distribute thousands of protective N95 particulate masks to residents and emergency personnel. Tea Fire contributions were not used for those expenses or internal personnel costs related to the response because the organization determined the actions were the type of activities for which it raises general funds.

As a result, Direct Relief is using 100% of all contributions specifically designated for the Tea Fire for direct financial assistance to fire victims. “In all emergencies that generate restricted contributions, we believe it important to articulate very clearly how such contributions are used, including explaining our internal accounting practices,” said President and CEO Thomas Tighe. “We are very fortunate to have supporters who understand that emergencies are difficult to predict and allow us the discretion to use funds as needed.

“Because of that general support to Direct Relief," he continued, "we were able to respond fast and, in this case, use every designated dollar we received to support local residents only and precisely for that purpose.”

Remaining Tea Fire funds will be allocated to affected residents identified and approved through the interagency process. People affected by the Tea Fire may contact Pamela Voge, Long Term Recovery Coordinator, at the Santa Barbara Chapter of the American Red Cross to apply for assistance: (805) 687–1331 ext. 107.

QAD Makes Computer Workstations Available for Tea Fire Residents
In–kind donation supports those who lost home offices

January 5, 2009
For Santa Barbara and Montecito residents who lost their home offices in the Tea Fire, QAD has made a generous in–kind donation through Direct Relief International of temporary computer workstations at QAD’s headquarters in Summerland.

Between 20 and 30 temporary workstations outfitted with Internet–accessible laptop computers will be available to applicants on a first come, first served basis. The work stations are available starting January 5, 2009, from 8 a.m. to 5 p.m. Monday through Friday. Users are asked to respect a 30–day limit per person, with laptops available for in–office use only.

To apply for a QAD temporary workstation, contact Damon Taugher at Direct Relief: (805) 964–4767, or dtaugher @directrelief.org.
