Minnesota Responds to Red River Valley Flooding

By Stacy Hilde, 4/15/09

In response to the major flooding in the Red River Valley of Minnesota and North Dakota, the MN Community Services Federation and Moorhead Seventh–day Adventist Church have been operating a Distribution Depot in Moorhead, MN. The facility has been generously donated by D&M Industries. The team of volunteers has been working hard to provide clean–up equipment, protective gear, and cleaning solutions to survivors. Bob Hilde, the MN ACS/DR Coordinator, and Les Morrison, Assistant Coordinator, take turns running the depot with faithful volunteers Joyce Meyer and Vicki Turner. Les Morrison was able to deliver 13 pallets of supplies to a particularly devastated area in Oakport Township on Sabbath, April 11. Les thanks God for the opportunity to serve 157 people that day, and knows he couldn't do it without the local volunteers. During the period of April 3 through April 13, 339 families representing 687 people were served in the name of Christ!

United Church of Christ disaster response coordinators in the Northern Plains and Minnesota Conferences, Lindy Holt and Bob Broeder are meeting daily with the states' Voluntary Organizations Active in Disaster (VOAD). The VOADs in both North Dakota and Minnesota have been organizing volunteers locally to sandbag; to prepare communities where flooding will occur; and, to begin to look at immediate and long term response. Both coordinators are working with the wider community on behalf of the United Church of Christ.

The UCC church in Moorhead, MN is now being used as a shelter as people are evacuated from their homes. There have been no reports of damages to UCC church facilities at this time.

The United Church of Christ is seeking $50,000 to respond to needs in both North Dakota and Minnesota. Funds will be used in the immediate response to assist communities as they begin to clean out homes:

Did you know? –– $7.98 will purchase one each: Tyvek coverall with hood and boot, chemical splash goggle, nitrile glove, and N95 respirator. This equipment will help to protect home owners and volunteers during clean up.

Did you know? –– the average recovery time for communities impacted by major flooding is 2 to 3 years?

As long term recovery committees are able to address needs of person with no insurance or those who are underinsured, we will be seeking volunteer work groups to assist with repairing and rebuilding homes.
