FROM THE SITE (LTEL 9/17/12)

Convoy of Hope continues its disaster response efforts in Louisiana in the wake of Hurricane Isaac.

“We’ve worked with federal, state and local officials and responded to more than 12,000 families affected by the storm,” says Karen Benson, global disaster response director for Convoy of Hope. “We’ll have a presence in the area as long as we’re needed.”

The Global Disaster Response (GDR) teams worked closely with the Louisiana National Guard at a mobile distribution point in Slidell, La. “The troops said our operation in Slidell was one of the best they had seen from an operational standpoint,” says Nick Weirsma, one of Convoy of Hope’s first responders.

The GDR teams facilitated the entire distribution operation in Slidell, while the National Guard provided security and manpower.

Convoy of Hope is also working with other organizations to distribute loads of product to food banks from Baton Rouge to New Orleans.

LAPLACE, La.–– Travis Johnson remembers in detail what he saw when he and his family first returned to their LaPlace home after Hurricane Isaac.

"They still had water on the streets," Johnson said. "When we got to the house, the whole front ceiling, not the whole thing, but it caved in from the roof damage."

Their home of two and half years was heavily damaged by both wind and floodwater.

"It's just been day by day –– a little bit at a time," Johnson said. "There's a lot"
Mark Bradford is a volunteer from the Church of Jesus Christ of Latter–Day Saints.

"Water came in from both above and from below in this house," Bradford said.
He drove more than 500 miles, from his home in Sugar Hill, Ga., to help gut homes here.

"This is where the storm was and we want to go where the need is," Bradford said.

He is one of 1,000 Mormons, from all over the southeast, who traveled to southeast Louisiana in the past two weeks to help homeowners deal with Isaac's aftermath.

"It's just something you feel," said Richard Jacobs with Mormon Helping Hands. "I can't explain it. I knew I had to come here."

With hundreds of volunteers on hand, through "Mormon Helping Hands," self–sufficiency is in order –– including figuring out how to provide your own housing. Volunteers brought their own tents with them. It is a message of self–sufficiency, imparted to the volunteers before they head this way.

"Come with all the food and water that you'll need, all of your equipment that you'll need to do this kind of work and be completely self–sustaining," said Rulon McKay of Mormon Helping Hands.

So far, those efforts have led Mormon Helping Hands to gut 400 homes. Another 300 homes are expected to be done by the end of this weekend, including Travis Johnson's house.

"I just want to thank everybody," he said. "Every little bit counts."
Depending on how many work orders they receive, Mormon Helping Hands said they will be working in several parishes through at least next weekend.

For information on how to sign up for their assistance, call their Hurricane Isaac Disaster Relief Command Center at (504) 885–3936 .

The state gives away almost four million dollars to Oklahoma's rural fire departments.

The grants are targeted at Oklahoma's smallest communities and fire departments in the most desperate need of money.

If divided equally, each rural fire department would get less than $4,500 dollars.

While that money will help, it may not be enough for some of the rural departments that say they've already burned through their budget for the year.

These grants are annual grants given out about this time and while they are much needed and appreciated they will not cover the operating expenses of the last couple of months for most departments. Brush trucks because of their nature are some of the most abused apparatus in the fire service not because we try to abuse them but because they operate off the road.

Consider Making a Financial Donation To Your Local Volunteer FD.

Re–posted from the Silver City Volunteer Fire Department 8/16/12 (LTel:

To correct a rumor that's going around, Silver City Fire Department is NOT dissolving due to financial problems, lack of volunteers, or any other reason. We're still here, still responding, still making plans for the future, still paying our bills on time, and we have added six people to our roster during the past 30 days. Money gets tight from time to time, but we've always managed to squeak through.
