Haiti Relief Efforts

The world saw a tremendous outpouring of support in response to the earthquake that rocked Haiti on January 12, 2010. World Connect contributed to these efforts through timely support to partners on the ground launching a range of programs that responded to critical needs through provision of medicines, medical supplies, equipment and logistical support to affected populations. Now, as the needs shift from the immediate emergency response to rebuilding the lives and livelihoods of those in Haiti, World Connect is excited to provide an update on its partnership with the Lafond School in Les Palmes.

Our Programs:

* World Connect Grants program supports changemakers through community–driven maternal and child health projects. Learn more...

* Kids to Kids program funds innovative youth arts, sports, education and environmental projects through a completely youth–led process. Learn more...

* Haiti Relief Efforts, was launched immediately following the devastating January 12, 2010 earthquake in Haiti. Learn more...
