Haiti

Cholera Treatment Center – CTC, Trou du Nord (supported by MERLIN)

Medical Facility · Open

Trou du Nord

Service Temporary

12/30/10 CHHN Update
Merlin CTU/C which opened up 2 days ago on the west side of Trou–du–Nord. This facility is run purely from tents, with a maximum capacity of 50 beds. They currently have 13 patients and have had no deaths. It appeared to be a very well–run, organised structure working to the cholera guidelines of plan a,b and c.

Services offered: Medical, Facility, Capacity, Hospital Beds; Medical, Facility, Cholera, Cholera Treatment Center (CTC); Medical, Services, Cholera, Isolation Unit; Medical, Services, Cholera Treatment
Campaigns: 2010 /2011 Haiti Cholera Epidemic; Merlin (Medical Emergency Relief International)

Trou–du–Nord Hospital (supported by Cuban Brugade) "CHOLERA TREATMENT CENTER– CTC" – (OPS–MSPP)

Medical Facility · Open

Trou–du–Nord

Service Temporary

12/29/10 CHHN Update
Cuban Brigade reports that they have treated a total of 1662 cholera patients at that hospital. They currently however only have 2 patients.

The Cuban Corporation and Merlin are now in agreement that Merlin will be the main treatment centre in Trou–du–Nord from now on. They are working on promotion of the Merlin CTC so patients come straight to them. However the Cubans said that they will continue to fully treat those patients that come to them, rather than redirecting them.

12/3/10 Email from Dr. Novelo, OPS Field Team
the only functioning facility at this moment is the CTU in Tru du Nord
Hospital, managed by the Cuban Brugade, point of contact is Julio
Brinones (contact no. is above)
MERLIN UK is currently in the process of establishing a CTC in this
area, point of contact at the moment is DR Christoph Garo (contact no. is above)

11/30/10 Posted on HEAS
Today the 30th a OPS–MSPP team is in Trou–du–nord to asses and support the implement of a CTC. For the time being this will be the referal place for this cholera patients in Caracol. The need is on distribution of ORS + social mobilisation for information on how to seek prompt treatment while taking ORS on arriving to the CTC.
Campaigns: 2010 /2011 Haiti Cholera Epidemic; Cuban Medical Brigade (BMC); MSPP (Haiti – Department of Public Health & Population; United Nations – PAHO ~ Pan American Health Organization (OPS–OMS)
