Hurricane Helene [2024] response: https://www.americares.org/crisis–alerts/us–hurricane–helene/

Americares: Americares focuses on medical aid, helping communities recover from disasters with access to medicine and providing personal protective equipment and medical supplies. To help Hurricane Helene victims, Americares has set up a donation page.

source: https://eu.statesman.com/story/weather/hurricane/2024/09/27/hurricane–helene–how–help–victims–relief–organizations–charities/75412916007/

Gaza Response: https://www.americares.org/emergency–program/israel–gaza–war/

FROM THE SITE 10/28/12 (LTEL):

As Hurricane Sandy blasts its way north from the Caribbean, where it claimed more than five dozen lives, AmeriCares stands prepared to rush emergency aid and, if needed, deploy relief workers to areas hardest hit by the oncoming storm.

Our U.S. and ER teams have reached out to 130 response partners in several states to assess potential needs and will be in continued contact as the storm progresses. In the meantime, our stock of targeted medicines and supplies is positioned for immediate shipment, with special focus on chronic care meds, first aid, water, family emergency kits, and other relief supplies.

“This storm is going to affect the densely populated Eastern seaboard, and is likely to cause significant damage to homes and businesses and disrupt transportation systems,” said Garrett Ingoglia, AmeriCares vice president of emergency response. “This is going to be a very serious storm, and we are ready to help in any way we can.”

The monstrous, Category 1 storm is predicted to make landfall on the mid–Atlantic shore on Monday, October 29, merging with a powerful cold front as it pounds its way northward and inland. Damaging 60–80 mph winds, torrential rains, dangerous storm surges, flooding, heavy snow in higher elevations and widespread power failures are expected. Officials estimate that the slow–moving system could affect 50–60 million people from the East Coast to the Great Lakes.

A state of emergency has been declared in 8 states, and mass evacuations ordered in many coastal areas. The New York City mass transit and subway system are closing at 7:00 pm October 28 in anticipation of the storm's wrath.

Hurricane response continues in Haiti
Regardless of the hurricane's track, preparation is essential for people living in the storm’s path.

In Haiti, where the storm caused severe flooding this week, AmeriCares responded swiftly with deliveries of cholera treatment and prevention supplies. The Haiti team also prepared hundreds of family emergency kits with disinfectants, cleaning products and first aid supplies, and replenished a dwindling stock of emergency medicines at a major hospital in Port–au–Prince.

Support AmeriCares relief efforts as we prepare for and continue to respond to Hurricane Sandy.

From the NYVOAD Member Directory:

Organizational Structure

Save the Children is an international not–for–profit organization whose mission is to create lasting, positive change in the lives of children in need. We provide a wide range of programs, including:
• Training new mothers with prenatal care
• Supplying life–saving immunizations for young children
• Building schools in developing countries
• Improving literacy and nutrition for children living in rural poverty in the U.S.

Disaster Program

When major disasters strike the U.S., Save the Children responds to the needs of children and families. In each emergency response, Save the Children's Domestic Emergency Unit structures its programs to respond to community needs. However, there are several areas on which we often focus our work:
Creating Child–Friendly Spaces– safe, designated areas where children can play socialize and begin to recover– in shelters and other gathering places, like disaster assistance centers.
Helping children and their caregivers reestablish a sense of safety and normalcy through our menu of disaster recovery and resilience–building programs. These programs also help children and caregivers build the skills to cope with their experiences.
Supporting organizations that children and families depend on, like child care and after–school programs, through small grants for recovery purposes.
Working with families living in temporary housing sites to create protective environments for children and improve access to services.

Services offered: Advocacy, Child Advocacy; Demographic Served: Children; Demographic Served: Survivors, Natural Disaster Impacted Communities; Demographic Served: Vulnerable & Marginalized Populations; Donations, Disaster Fund; International Disaster Response; Medical, Education, Prenatal Care; Services, Disaster Preparedness; Support for "All" Disasters; Training * (ANY/ALL Types of Instruction)

9–30–24

Global relief organization World Central Kitchen will distribute free meals for the public beginning at Noon on Sept. 30 at Bear's Smokehouse, 135 Coxe Ave. downtown, in the South Slope district, according to a local food outreach organization, Food Connection.

(snip)

Hearts with Hands will continue relief efforts by distributing food boxes and water from 10 a.m.–6 p.m. Sept. 30 at the outreach ministry's outreach's warehouse, 850 Warren Wilson Road in Swannanoa. The organization intends to add hot meal food distribution later.

World Central Kitchen was founded by celebrity chef José Andrés in 2010 to provide fresh food on the frontlines of humanitarian disasters in the United States and around the world. The organization lost seven workers in a drone attack in Gaza earlier this year, causing it to temporarily pause its operations in the war–torn enclave.

The organization has teams in four states assessing needs and serving meals in the wake of Hurricane Helene, including Florida, Tennessee and Georgia.

2010 Haiti Earthquake Response:

Florida Baptist Relief Haiti Blog: http://fldrnu.wordpress.com/

2010 HAITI Update FROM THE BLOG:

Florida Baptist Assessment Team Arrives in Haiti
January 18, 2010 by DR Assoc Dir

Article by Dr. John Sullivan

A two-person Florida Baptist Convention assessment team arrived in Port-au-Prince, Sunday, Jan. 17, and is in the process of determining how Florida Baptists can meet needs and provide assistance to the residents of the earthquake-damaged city.

The team consists of Dennis Wilbanks, associate, Partnership Missions Department, and Joseph Gaston, director of the Language Haitian Church Development Department. While in the Haiti airport, Gaston, a native of Port-au-Prince, led a Haitian woman to faith in Christ.

Wilbanks directed the Convention's disaster response in Haiti after five previous hurricanes. In preparation for the response, the Convention has purchased 21 tons of rice to be transported to Miami and readied for shipment to Haiti.

Wilbanks reported that the Convention-owned mission house is severely damaged but may be useable.

"This will be among our first rebuild priority because it will allow us to facilitate construction teams and clean up crews much more quickly," said John Sullivan, executive director-treasurer of the Florida Baptist Convention.

The house, located in Port-au-Prince between the airport and city, will be the base of operations for the Convention's relief efforts. The mission house sleeps nearly 50 volunteers at a time and provides food and safety for mission teams traveling into Haiti.

"We anticipate having a word this week about our churches in Port-au-Prince, as well as our pastors' homes," he added. "These are our brothers and sisters serving Christ in this difficult nation."

Wilbanks will be working with seven national missionaries serving in Haiti as employees of the Florida Baptist Convention who have been reported to have survived the earthquake. They are believed to be assessing damage within their churches and communities.

"These men have been trained in disaster relief by the Florida Baptist Convention," said John Sullivan, executive director-treasurer. "They know their country, their people and have experience responding in the aftermath of hurricanes. We are grateful to God that they are safe and are there to minister to the Haitian people."

Craig Culbreth, director of the Convention's Partnership Missions Department, who has traveled to Haiti 60 times in the past 11 years, and Fritz Wilson, director of the Disaster Relief and Recovery Department are scheduled to travel to Haiti on Tuesday, Jan. 19.

Florida Baptists' 15-year partnership with Haiti Baptists has resulted in the starting of 892 congregations across the nation.

Financial contributions are being received to secure food and humanitarian assistance. Florida Baptists and their churches can contribute directly to the Florida Baptist Convention. Every dollar donated will be used to purchase food and to provide humanitarian resources. All administrative costs are being underwritten by the Cooperative Program and Maguire State Mission Offering.

Gifts can be sent to the Florida Baptist Convention at 1230 Hendricks Ave., Jacksonville, Fl 32207, designated "disaster relief." Contributions by credit card can be made through the Convention's website: www.flbaptist.org.

Updates on the Convention's response efforts in Haiti will be posted on the website: www.flbaptistdisaster.org.

Florida Baptist Disaster Relief –
The Florida Baptist Convention conducts regular work in Haiti and is identifying ways to provide relief to survivors.
Maintains a mission house that is located about 17 miles from the epicenter and in past disasters provided food (rice & beans), clothing, and other supplies distributed through partner churches.
Works in partnership with Baptist Global Response (Southern Baptist International Disaster Organization) and North American Mission Board.

Full range of disaster recovery crews

From the website:

9/29/2024: Baptists on Mission is responding in the aftermath of Hurricane Helene in the mountains of western North Carolina. We've set up feeding units at First Baptist Boone and Biltmore Baptist in Arden. In addition, we're setting up recovery sites in Boone, Spruce Pine, Hendersonville and Marion. Heavy rains from the storm caused massive flooding that washed out roads, destroyed homes and businesses, and knocked out power and phone service in much of the region.

Volunteers are needed in all areas, which include: feeding; shower and laundry; chain saw teams; tarping roofs; mudding and tearing out homes; and more. You don't need to be trained to serve with some of these opportunities.

You can sign up to volunteer as well as give financially to support the relief efforts by clicking the buttons on this page. All financial gifts go directly to assist those impacted by the storm.

Thank you for helping us offer hope to families affected by this massive storm. Please continue to pray for everyone impacted by Hurricane Helene, including first responders and our volunteers.

9/26/24: Hurricane Helene is expected to come ashore in the Tallahassee, Florida area as a category 3 or 4 on Thursday, September 26. North Carolina is already experiencing heavy rain in the mountains and will experience tropical storm force winds in the next few hours. North Carolina Disaster Response volunteers are putting teams together to serve in our NC mountains as soon as conditions allow. If you are interested in serving in flood recovery, chainsaw and temporary roof repair, please complete the volunteer now tab to the right. If you are interested in serving in other Disaster Response ministries, please communicate your availability to your ministry leader. We are going to need DR trained and untrained individuals to serve as we are anticipating major flooding.

WLOS) — These Western North Carolina Helene updates are for Sunday, Sept. 29, 2024.

(7 PM) – Two deputies among storm-related deaths in North Carolina, according to NC Sheriff's Association

The North Carolina Sheriffs' Association said it was notified that two Western North Carolina deputies were killed as a result of the flooding and hazardous conditions caused by Helene.

The post shared on the association's Facebook page said a deputy from Macon County and a deputy from the Madison County Sheriff's Office were killed in flood waters.

"We ask that you keep the families, friends, and colleagues of these deputies as well as the entirety of Western North Carolina in your thoughts and prayers during this unfathomable and difficult time," the post read.

(6:07 PM) – Rutherford County donation center

Buncombe County officials say anyone wanting to donate to the Helene efforts should email helenedonations@buncombecounty.org. Anyone seeking ways to volunteer should emailhelenevolunteers@buncombecounty.org.

––

(3:30 PM) –Henderson County officials confirm five storm-related deaths in the county.

––

(2 PM) – Henderson County and the City of Hendersonville host post-Helene update meeting.

Henderson County and the City of Hendersonville host a joint Zoom call press conference to update residents about the continuing efforts following Hurricane Helene.

1:30 PM) – Duke Energy sends text update to customers.

Duke Energy sent the following message via text to customers:

Our crews are working tirelessly to restore power to your area following the devastating damage caused by Helene. We expect to have power restored to the majority of customers no later than Friday evening, with the exception of areas that are inaccessible or unable to receive service. As our crews assess the situation for your specific outage, we will provide updated estimated times of restoration, which you can view at duk.us/05. Customers signed up to receive outage alerts will be notified of any updates. Learn more about how our alerts work at duk.us/08. We recognize how challenging this situation is and appreciate your patience as we work to safely restore your service. Thank you for your continued understanding.

––

(12:45 PM) – The Fresh Market will distribute free bottled water at Asheville locations.

Following the impact of Hurricane Helene, the Fresh Market will be distributing free bottled water in the parking lot of their Asheville locations to those in need.

LIST: RESOURCES, DONATIONS, FOOD FOR ASHEVILLE COMMUNITY POST–HELENE
https://wlos.com/news/local/helene–resources–donations–food–help–assistance–asheville–community–helene–flooding–water–shelter–communication–loved–ones
Rutherford County officials say a central donation center has been established at the Rutherford County Health Department at 221 Callahan Koon Rd, Spindale.

"We have received many requests from the community and local churches wanting to make donations, and we greatly appreciate your support," an alert from county officials read. "Donations can be dropped off at the center for distribution to the community."

Suggested donation items:

Bottled water
Prepackaged snacks
Toiletries
Hand sanitizer

Please Note: No home–cooked meals or fresh food. All food items must be pre–packaged.
(5:26 PM) – Water tanker in Canton

Haywood County officials say a water tanker is now stationed at the Canton Plaza (off New Clyde Highway) for those in need of water. Individuals are asked to bring their own containers.

The tanker is available now until 7 pm.

Limit: 1 gallon per person per day.
––
(5:20 PM) – Supplies being airlifted to WNC

Governor Roy Cooper says the NC National Guard is airlifting supplies to counties across the impacted areas to include food, water and other essential items. Multiple crews and providers are continuing to make progress in restoring power, service to cell phones and fixing roadways.

GOV. COOPER: NC NATIONAL GUARD AIRLIFTING SUPPLIES TO AREAS HIT HARD BY HELENE

––
(4:41 PM) – BUNCOMBE COUNTY DEATH TOLL RISES TO 30

Thirty people have died in Buncombe County due to the effects of Helene,Buncombe County Sheriff Quentin Miller said Sunday.

Search and rescue efforts are ongoing, but Miller alluded that the death toll may continue to rise.

"We know that that may include recovery operations," Miller said.

––
(4 PM) – TEMPORARY CELLULAR TOWER IN ASHEVILLE

City of Asheville officials say it's partnering withVerizon to deliver a temporary cellular satellite trailer to the Family Justice Center at 35 Woodfin Street.

"This tower will offer an opportunity for limited cellular reception within several city blocks of where it is parked," a statement from the city said. "The tower will be operational late Sunday afternoon, Sept. 29."

––
(4 PM) –Buncombe County officials give an update on Helene relief efforts across the county.

The Fresh Market parking lot at 944 Merrimon Ave, Asheville, N.C. The Fresh Market parking lot at 1378 Hendersonville, Rd, Ashville, N.C.

––

(12:30 PM) – Gov. Cooper and Emergency Management officials share updates on Hurricane Helene.

(12 PM) – Buncombe County, Henderson County, Transylvania County Schools to close.

Buncombe County Schools has announced that it will be closed for the entire next week: Monday, Sept. 30 through Friday, Oct. 4. These will be annual leave days for faculty and staff.

Henderson County Public Schools also announced that it will be closed until further notice for the safety and well–being of students, faculty and staff.

Transylvania County Schools and non–emergency county offices will be closed Monday, Sept. 30.

––

(11 AM) – The City of Asheville provides a recovery update as staff in all City departments continue to work.

The City of Asheville stated the following:

Please conserve fuel and stay off roads. This will allow emergency response vehicles the quickest access to do their jobs.

Water and food have been ordered and will be coming into the area. Distribution sites will be identified when supplies are on site.

Tropical Storm [Hurricane] Helene severely damaged the production and distribution system of the City of Asheville's water system. Extensive repairs are required to treatment facilities, underground and aboveground water pipes, and to roads that have washed away which are preventing water personnel from accessing parts of the system. Although providing a precise timeline is impossible, it is important to note that restoring service to the full system could potentially take weeks.

A curfew is still in effect from 7:30 p.m. to 7:30 a.m. within the Asheville City Limits.

––

(10:30 AM) – 10 killed, at least 1,000 unaccounted for in Buncombe County.

Sheriff Quentin Miller announces that 10 people have been killed in Buncombe County and around 1,000 are currently unaccounted for. Miller says that the names of the deceased will not be released until county officials are certain that next of kin are contacted first.

Also in Buncombe County, distribution sites for food and water are not up yet, but the estimation for water is today, Sept. 29. Officials with Buncombe County says they will share information on these distribution sites to the public once they know the estimated times of arrival and official locations. Officials say that transportation issues from closed and impassable roads have caused these delays.

In Weaverville, officials say that most roads are now passable but many of them are still impacted. Therefore, people are urged to stay off of the roads if possible. Officials say that there is currently no water service, and electricians are currently en route to assess the water plant and hopefully make solutions.

Weaverville officials also say that there have been 15 water rescues and several neighborhoods have been evacuated. There is no power throughout the town. Officials say that the drive–thru for Prescription Pad Pharmacy in Weaverville is open for people with immediate medical needs until 5 p.m. today.

Chief Anthony Penland of Swannanoa said there has been mass devastation throughout the area, and that a portion of Old US Hwy 70 is no longer there. There is a task force team helping to get to more people in the area, and there are currently two private helicopters dropping food at two locations: Harley–Davidson and First Baptist Church Swannanoa.

––

(10 AM) – Buncombe County, Black Mountain, Swannanoa and Weaverville officials hold a media briefing to provide updates the aftermath of Helene.

(9:30 AM) – Asheville Regional Airport (AVL) spokesperson says most flights on Sunday, Sept. 29 have been canceled.

Delta canceled all flights before noon, and no other airlines have been operating. Officials with AVL say that a slow recovery of cellular and internet service is currently occurring at the airport. This potentially means that some airlines could operate later today. Despite this, officials urge flyers to confirm their flight's status before coming to the airport.

"The AVL team on–site have been working around the clock. They have been sleeping at the airport, haven't seen their families, and are working to keep the airfield operational for flights that can operate. We are so proud of each and every one of them. Relief flights, including the National Guard, are arriving and our team is helping to coordinate these efforts," said Tina Kinsey, spokesperson for AVL.

Kinsey said that there are passengers and community members who are currently sheltering at the airport and have been since Thursday.

––

(9 AM) – Rep. Chuck Edwards provides further information.

Rep. Chuck Edwards announces that Madison County is the worst affected with cell service, with under 8% capacity available through Verizon.

Service providers have deployed 'Compact Rapid Deployables' throughout Western North Carolina, including to Hendersonville, Lake Junaluska, and Waynesville. More are also currently en route. Compact Rapid Deployables are a transportable cell tower and internet access point, that can generate wired internet and wi–fi coverage anytime and anywhere.

Service providers have deployed 'SatCOLTs' throughout Western North Carolina, including to Asheville and Hendersonville, More are currently en route. SatCOLT stands for "Satellite Cells on Light Trucks," which are vehicles with mobile cell sites that connect via satellite and do not rely on commercial power supply.

8–29–2024
ANDERSON, S.C. (WSPA) – Anderson County remains under a state of emergency Sunday.

It's one of several Upstate counties that are feeling the impact of Hurricane Helene.

Officials said crews have been working around–the–clock on recovery and restoration. As of Sunday, 75% of the county remains without power.

Power crews are diligently working to turn the lights back on for more than 80,000 homes, according to Anderson County officials.

The cities of Belton and Honea Path remain under a boil water advisory.

Emergency management officials have requested two 18–wheelers of bottled water be brought directly to the impacted community. Water is now available at Leeda Poore Park in Belton, as well as at 204 South Main Street in Honea Path. Residents are permitted to pick up one case per household.

Anderson School District 4 will be accessible for those in need of resources on Monday. The facilities will be open from 10 a.m. until 3 p.m., and complimentary food will be provided from 12 p.m. until 1 p.m.

The district said the following facilities will be available for those who need a secure environment and access to charging stations:

Mount Lebanon Elementary, 2850 Lebanon Road in Pendleton
Pendleton High, 7324 SC–187 in Anderson
LaFrance Elementary, 550 Williams Street in Pendleton
Townville Elementary, 105 State Road S–4–565 in Townville

County officials said the National Guard arrived this weekend and brought in a number of resources for cleanup including more additional crews, equipment and medical personnel.

A large–scale medical shelter is open and any patients needing assistance must call the SCPH Care–line at 1–855–472–3432.

The destruction of Helene shut down 560 county roads, according to Anderson County. Crews have made significant progress with 160 roads remaining closed as of 3 p.m. Sunday.

Anderson County officials said more assistance is on it's way, as the cleanup is expected to last several days.

HURRICANE SANDY: OPERATION BLESSING PREPARES DOMESTIC DISASTER RELIEF TEAM IN VIRGINIA

Group Will Pre-Stage In Virginia Beach In Case Local Effort Needed, With Eye To The North

VIRGINIA BEACH, VA (October 26, 2012) - The domestic disaster relief team of Operation

Blessing International (OBI) is preparing for relief efforts as Hurricane Sandy sets its course on the East Coast.

The team is pre-staging equipment, staff and supplies at its Virginia Beach headquarters in case relief efforts are needed in the Hampton Roads area, with the possibility of a deployment in the north should that be needed. The equipment includes:

--Mobile Kitchen – Capacity to feed approx. 2,000 meals per day with enough provisions on board for 6,000 meals before new supplies are needed
--Mobile Command Center with communication technology such as VHF radio, satellite,
satellite news feed, and a base of operations for the team
--2 Construction Trailers with tools and safety equipment to equip our construction foremen and volunteers with the tools needed for debris removal, tarping roofs, flood clean-up and gutting homes
--Box Truck with 100 cots, tarps and firing strips for 50 homes, water, MREs, and kerosene
heaters
--CAT 924 Loader for debris removal
--100 heaters in the event that cold weather comes in during power outages
--OBI's fleet of Semi-Trailer Trucks (75 trailers and 18 power units) from its Hunger Strike force are also standing by and will be utilized as needed
--Shower Trailer for volunteers

The team, under the direction of Jody Herrington-Gettys, director of U.S. disaster relief, will monitor the storm over the weekend and decide on Sunday where to deploy based on the projected

track of the storm. “Our first priority is to serve the Hampton Roads community,” said Herrington–Gettys.

Should deployment be needed further north, however, OBI has already planned with partner organizations in NY, NJ and Rhode Island.

Operation Blessing’s Haiti office is currently responding to massive flooding in that country after then–Tropical Storm Sandy dumped upwards of 12 inches of rain. Today, OBI will deliver food, water filtration units, chlorine, and toiletries to 55 families that lost their homes due to severe flooding along the river Grise near Croix de Mission, Haiti.

Hurricane Helene response:

Direct Relief: Direct Relief brings long–term medical aid specifically needed by local officials and agencies. The organization has just made more than $74 million in medicines and medical supplies available for healthcare providers in the path of Hurricane Helene, according to an email. You can donate to their general fund or choose Hurricane Helene Response in the dropdown at their donation page.

source: https://eu.statesman.com/story/weather/hurricane/2024/09/27/hurricane–helene–how–help–victims–relief–organizations–charities/75412916007/

5/23/2013: From DRI Blog
Relief’s Emergency Management Team landed in Oklahoma last night to assess the needs of healthcare partners responding to the deadly tornadoes. The team is reporting that severe thunderstorms soaking the town of Moore are inhibiting the response to the needs of people affected by the tornadoes.

Direct Relief has sent seven emergency medical deliveries valued at over $211,000 (wholesale) to three health center sites serving people affected. Direct Relief is in contact with more than 300 clinic and health centers in storm–affected areas and more priority shipments are planned over the next several days.

Lighthouse Medical Ministries, located just five miles outside of Moore, Oklahoma, have opened their clinic to assist with the response. In the absence of typical transportation options, vans are being sent out to collect people with medical needs and bringing them to the clinic. To reduce the risk of tetanus in the aftermath of the disaster, Lighthouse Medical Ministries requested Tdap (Tetanus, Diphtheria, Pertussis) Vaccine. Donated by GlaxoSmithKline, 210 doses of Tdap vaccine were shipped immediately and delivered yesterday.

SEMO Health Network also requested and received Tdap vaccine. Direct Relief is sending today an additional shipment of personal care items, anti–inflammatory drugs, diabetes supplies, wound care, gloves, and eye care products. These items will support the deployment of a mobile medical unit to Oklahoma on Friday. The mobile medical unit was donated by Direct Relief after the tornadoes that devastated Joplin, Missouri in 2011.

Community Health Center, Inc in Spencer, Oklahoma was not damaged in the tornadoes and is providing care to people who are displaced or injured. Direct Relief has delivered Similac, Family Dental Kits, pelican cases, blankets and infant hats, and prescription medications and supplies to Community Health Center to help with their response.

Additional medical aid to five clinics are planned this week, including medications, medical supplies, personal care items, and 170 vials of Lantus insulin shipped directly from Sanofi US.

11/8/2012: From Website
International, announced today that they have joined together and established a special fund to support the patients and nonprofit health centers and clinics in areas affected by Hurricane Sandy.

All contributions to the Sandy Safety–Net Fund will be used exclusively to support nonprofit healthcare safety–net facilities and related activities in affected communities.

DRI is currently working with partners in Brooklyn, Queens, Manhattan, Staten Island, Red Hook, Rockaway and throughout New Jersey.

Jesusita Fire: Direct Relief Delivers Protective Masks to First Responders
May 6, 2009

5:50 p.m. In response to the rapidly expanding Jesusita fire, Direct Relief has furnished N95 particulate respirators at the request of local emergency response for use by responders to the Jesusita Fire in Santa Barbara County. Watch a video about our response.

The request for protective masks was made to Direct Relief Emergency Response Coordinator Brett Williams, who was meeting at the Santa Barbara County Emergency Operations Center as sundowner winds fanned the flames, forcing more evacuations. See a map of the evacuation area.

Direct Relief has a formal agreement with the County of Santa Barbara to assist in public emergencies, and Williams participates in meetings and drills routinely to ensure smooth coordination in the event of an emergency. The current situation is being described as an “extreme fire emergency.”

Direct Relief Provides $12,000 in Grants to Tea Fire Victims
100% of all Tea Fire contributions going directly to residents
January 29, 2009

Direct Relief International has approved cash grants totaling $12,000 to residents affected by the devastating November 2008 Tea Fire, which destroyed 210 homes in the foothills of Santa Barbara and Montecito. The grants are being paid with designated contributions Direct Relief received to support Tea Fire victims.

Aid recipients were identified through the Tea Fire Long Term Recovery Committee, an interagency working group coordinating assistance among local nonprofit organizations including the American Red Cross and the United Way. A caseworker hired by the committee has assisted the residents with their aid requests and confirmed the extent of their loss.

Among the grant recipients are Lance and Carla Hoffman. The couple escaped through the flames but suffered serious burn injuries that have required specialized care in Orange County since the fire. The cash grant will help them cover medical expenses, which surpass $95,000. Other grants have been approved for uninsured residents identified as being in extreme financial hardship directly caused by losses in the fire.

These cash grants were made possible by generous donors who contributed to Direct Relief’s response and recovery efforts, including the leading software company QAD, based in Santa Barbara.

During the incident, Direct Relief tapped internal funds from its general emergency account to purchase and distribute thousands of protective N95 particulate masks to residents and emergency personnel. Tea Fire contributions were not used for those expenses or internal personnel costs related to the response because the organization determined the actions were the type of activities for which it raises general funds.

As a result, Direct Relief is using 100% of all contributions specifically designated for the Tea Fire for direct financial assistance to fire victims. “In all emergencies that generate restricted contributions, we believe it important to articulate very clearly how such contributions are used, including explaining our internal accounting practices,” said President and CEO Thomas Tighe. “We

are very fortunate to have supporters who understand that emergencies are difficult to predict and allow us the discretion to use funds as needed.

“Because of that general support to Direct Relief," he continued, "we were able to respond fast and, in this case, use every designated dollar we received to support local residents only and precisely for that purpose.”

Remaining Tea Fire funds will be allocated to affected residents identified and approved through the interagency process. People affected by the Tea Fire may contact Pamela Voge, Long Term Recovery Coordinator, at the Santa Barbara Chapter of the American Red Cross to apply for assistance: (805) 687–1331 ext. 107.

QAD Makes Computer Workstations Available for Tea Fire Residents
In–kind donation supports those who lost home offices

January 5, 2009
For Santa Barbara and Montecito residents who lost their home offices in the Tea Fire, QAD has made a generous in–kind donation through Direct Relief International of temporary computer workstations at QAD’s headquarters in Summerland.

Between 20 and 30 temporary workstations outfitted with Internet–accessible laptop computers will be available to applicants on a first come, first served basis. The work stations are available starting January 5, 2009, from 8 a.m. to 5 p.m. Monday through Friday. Users are asked to respect a 30–day limit per person, with laptops available for in–office use only.

To apply for a QAD temporary workstation, contact Damon Taugher at Direct Relief: (805) 964–4767, or dtaugher @directrelief.org.

Please Note: Direct Relief sends medical aid to areas affected by emergencies. We cannot send volunteers to assist with emergencies

Hurricane Helene Response:

All Hands and Hearts: This volunteer–based organization works alongside local residents to help by rebuilding schools, homes and other community infrastructure. It has a Helene fund started.

September 28, 2024 – 19:00 (EDT) – Update 16
Just two days after Hurricane Helene’s landfall, All Hands and Hearts has mobilized several teams across Florida to assess and address the widespread impacts. Initial field assessments are already underway, with teams preparing to start mucking and gutting homes affected by the storm’s heavy rains. The effects of Hurricane Helene are still being felt across much of the southeastern United States with many areas inundated with heavy rainfall and flash flooding. Reports are still coming in that many residents are still without power.

Go to the link above to find RED CROSS sponsored shelters. (there are usually MANY MORE shelters other than "Red Cross sponsored" shelters...run by local gov't, run by private groups)

[Editor's NOTE: we've noticed lately that the link DOES NOT WORK for people who don't allow cookies and other surveillance apps on their devices. The Red Cross is a great org, providing badly needed first response. However, we do not like that the link doesn't work on ANY device, and fear that this is a trend that's related to the "need" for large non-profits to gather a ton of personal info before they will help you. If that's the case, shame on you Red Cross. If it's not the case, please excuse our ignorance]

See the map at the link for open shelters. Below that is a list of openshelters.

You can also search by state/address.

Open Shelters are flagged. Put your mouse over a flag to get more info, click on it, and give it a moment and you'll see the address of the shelter and a capacity (number of people), if the information is available.

Here's the old address, that doesn't work as well, but for reference purposes: http://app.redcross.org/nss-app/
