Service Temporary

4/9/12: Posted to HEAS by Fr. Joseph Francis Duvillage
The health center of Saint Elizabeth Caracol is located in the parish St Elizabeth community. She works from 8 am to 2 pm AM PM Monday through Friday. On Saturdays she works jsuqu'au noon. In addition, Monday to Saturday, there is the emergency service any time of night.

The health center has a doctor has a full–time and part–time mededin. We have two full time nurses. a laboratory, a housewife, a clerk at the pharmacy.

We very often the mobile clinic and informieres make home visits. Because the elderly are unable to move, we are forced to join them in their home.

1/6/11: Posted on HEAS by Fr. Joseph Francis Duvillage
I wish to inform you that for over a month, the health center
St. Elizabeth of Caracol has no doctor. Other cases of cholera,
there are other pathology. Please help us to have a doctor and a
lab. We only have one nurse for a population of 16
000. To make an analysis, patients are forced to go
Cape Haitien and Milot or Jacquesyl. Health Centre St.
Elizabeth is ready to give his participation.

12/17/10: CHHN Update
CHHN delivered chlorox and aquabtabs 12/15/10
CHHN delivered ORS supplies 12/17/10

12/12/10 Email from Fr. DuVillage
At Caracol, there is the St. Elizabeth Health Center and the clinic
led by the Haitian State. In the clinic, there a Cuban doctor and
Cuban nurse. We take care of people suffering from
cholera in the clinic.
Before we send to northern–hole, now they heal over
place at the clinic.
There is no death, they are given serum Oral and that.
But we lack soaps, chlorine and others.

People use water from wells that unfortunately is not treated.
We would like to make it portable water that people use.

At St. Elizabeth Health Center, there is a nurse and other staff.

12/12/10 Email from Fr. DuVillage
So far I have received nothing. ...I do not financial means to hire another doctor and other nurses. The doctor had left as planned on November 30
last. For now, the clinic needs a doctor and a nurse to improve the health of the population. I await your help in this sense ....

12/6/20 Update from Hannah CHHN
On Dec. 2, reported went through supplies given by MSPP.

11/29/10 Email from Fr. Joseph Francis Duvillage

Caracol is a small city of 15,000 inhabitants, situated north–east of Haiti, about 300 km from Port–au–Prince, the capital). Caracol commune covers an area of 76.7 km2. It is bounded to the north by the Atlantic Ocean to the east by Terrier Rouge, Lemonade South and West by Trou du Nord. Caracol displays extreme poverty as is the case in most remote, rural and marginalized of the country.

There is a hospital–Trou–du–Nord, MSPP has set up a tent to receive people with the cholera epidemic, unfortunately, Caracol we found 4 cases in a week of cholera. We would have resources needed to care for sufferers. We continue to do outreach in schools and churches.

11/28/10 Email from Fr. Joseph Francis Duvillage
Started seeing cholera patients at the beginning of Nov. but they can not afford to keep them so they send them on to Trou du Nord. Had 1 death (a 4year old)Was able to stabalize one patient.

The Health Center has one physician and a social service nursing services. The social service ends Nov. 30, 2010. Clinic treats 15–20 non cholera patients a day.

Would like to get food for pregnant women and malnourished children.

Priority list of needs:
Large tent to care for cholera
chlorine
Soap
Hand Sanitizer
face masks
gloves
Medicines for children

NOTE: Caracol is an area at risk, people do not practice standard hygiene, they defecate on the sea's population. Caracol needs assistance at all levels!!!
The doctor and nurse will leave on the 30th of Nov., we do not know what to do to replace them.

The St. Elizabeth Health Center Caracol serves a town with over 16,000 inhabitants.

The Health Center is looking for a permanent resident Doctor.

Services offered: Medical, Facility, Birthing Center; Medical, Facility, Capacity, Hospital Beds; Medical, Services, Family Planning, Diagnostic, Pregnancy Tests; Medical, Services, Laboratory / Lab Services; Medical, Services, Obstetrics; Medical, Services, Pharmacy; Medical, Services, Prenatal Care

Clinic normally see 600 non–cholera pts per month.
Pts are mostly from town or traveling only a few miles.
Staff– 1 doc, 2 nurses, 2 health educators
There is a large soccor field for helicopter LZ
Needs: Another auxillary nurse, 1 doc, aqua tabs, clorox, iv tubing, ringers
Primary need: aqua tabs

2/1/11 CHHN – Hannah
Non–cholera supplies delivered recently including gen. meds, toothpaste, ivsets, soap and scrubbing brushes

1/1/11 Email from Mary Lou Larkin
Plan International has provided a tent.

12/17/10 CHHN Update
CHHN delivered 4 boxes IV Ringers and other cholera supplies 12/17/10

12/13/10 Email from Mary Lou Larkin
Dr.Valval who only is able to use the internet on the weekend, reports 13 cases of Cholera in Jakzi. He has had to treat them in Jakzi I presume because it is too far to go to Tru du Nord. He has identified the area where most of the cases have come from. The clinic in Jakzi has no place to treat or keep in patients. Dr.Valval was promised a tent from MSPP and Plan Haiti one week ago, but it has never been delivered. He is nearly out of ringers solution.

12/11/10 Email from Dr. Vaval via Mary Lou Larkin
Hi Mari lou i'am still waiting for the tent from the Plan Haiti.Until now we have received 13 patients with cholera at the clinic.A lot of them live in the same area close to the new field's soccer,they don't have the latrines at home.tThis morning i received from Dr Macklin 7 boxes of clorox and 2500 pills of aquatab.Sooner we will be out of ringer lactate

12/8/10 Email from Mary Lou Larkin
Need ORS and aquatabs.

12/7/10 CHHN Report
Could not reach anyone for update.
1 full time doc. , 2 nurses
Accomodations can be made at Center of Formation owned by the Diocese of Ft Liberte $30 US/night

12/5/10 Email from Mary Lou Larkin
Thanks Laura, Dr.Valval said that MSPP is suppose to deliver a tent on Monday. Also PIH called me and they were sending a helicopter on Saturday to several spots in the north including Jakzi. However due to the weather they couldn't land, but will try again on Monday

12/3/10 Email from Dr. Valval
I absolutely need a tent in which i could put at least 4 patients we also need more ors and aquatab.

12/1/10
Dr.Valval, our full time doctor in Jacquesyl, has reported 6 cases of cholera and expects more. Mary Lou Larkin Haiti Marycare

11/27/10 Two unofficial cases reported From Mary Larkin
Haiti Marycare in conjunction with MSPP has a primarycare clinic with a full time doctor and 2 fulltime nurses. Ms Elirose Joseph is the RN there. The report was NOT official and I have not heard from her or Dr.Valval or Dr.Eugene Maklin so it was an unofficial report from a priest that was there. We have supplied aquatabs, clorox, soap and creole teaching sheets. Programs are incorporated into the school day and all clinic visits about symtoms, treatment and prevention. I am the medical director of Haiti Marycare, and a member of the Cap Haitien health Network.

11/23/10 Email from Mary Larkin
I sent money for clorox, soap and enough for dr. maklin to make copies about the prevention and treatment.Sent more money for aquatabs. Just got more soap from Clean the World. So far i have heard of no cases in Jacquesyl or Pilette. Thanks for thinking of us. Mary Lou larkin.

No operating rooms, Building in good shape. They have water if the generator is on, otherwise clean water is nearby. Volunteers can stay at the nearby Center of Formation owned by the Diocese of Ft. Liberte for $30.00 night

VOLUNTEERING DETAILS FROM THE SITE:

We believe that every person has gifts and talents that can be useful to help others. Some may want to join us on a service trip to Haiti, but you do not need to travel there or be a health professional, engineer or agriculturalist to help. Whatever your back–ground, there are many creative ways to help out. Our volunteers have helped using writing skills, computer skills, accounting backgrounds, board experience, cooking and nu–merous other experiences to assist Haiti Marycare. Our featured volunteer, Kris Beckman, has not only gone to Haiti as the first dental hygienist in Jacquesyl, but in addition to her many other skills is designing, painting and sewing an original quilt for auction to benefit Haiti Marycare. If you are interested in volunteering or would like further information about ways to help, please contact Joan DeFrances at jdefrances@haitimarycare.org or (203) 248–0244 or Tom Larkin at tlarkin @ haitimarycare.org or (203) 797–1893.

Meds listed as needed (but not yet on database list)
Chloroquine
Scabicide
Uroxatral (Alfuzosin)
Terazosin (Hytrin)
Tamsulosin (Flomax)
Finasteride (Proscar)
Avodart

Rapid Tests HIV, Malaria, Pregnancy
Clindamycin
Bactroban
Bacitracin
Would like Multi–Vitimins with iron
