CBF field personnel in Haiti ask for prayer amid cholera epidemic
October 25, 2010 by The Fellowship

The following post comes from Steve and Nancy James, who serve in Haiti as field personnel co–appointed by the Cooperative Baptist Fellowship and American Baptist Churches USA.

This is just a quick update on the cholera epidemic as we are now experiencing it in Haiti. Since we returned to Haiti on 10/19 from a two–week visit to family in North Carolina to meet and welcome our newest grandson, we have been working to help in any way we can with this newest challenge to God's people in Haiti. Although, as of this moment, we hear reports of hope that the epidemic may have been contained, the threat of spread to the earthquake devastated communities in the south and ultimately to the whole country is still very large. Daily we hear of more cholera cases arriving in the communities of the north. So far, all the cases have originated from the Artibonite valley, 60 miles from us, where the epidemic started.

We have been involved as a health team in the work of community education and prevention of infection at this point. We have not yet been treating any cholera cases. We have been serving alongside our teams of health care providers and partners, in cholera education and prevention of the vulnerable communities around us, addressing safe water and sanitation issues, and preparation of community clinics to receive and treat large numbers of affected people in hopes of being able to contain the spread of cholera to the local communities. Steve worked in the Ebenezer Community Health Center, Haut Limbé, on 10/22, where no cholera cases presented that day. Nancy has been preparing and helping to distribute educational materials to providers and educators in the local communities. We have been working with Rev. Joel Dorsainville, Coordinator of Disaster Relief Services for the Haitian Baptist Convention, updating and coordinating efforts within the churches of Haiti. In the next few days, we plan to help two community health centers set up cholera treatment protocols and treatment centers.

Yesterday we participated in a conference on solar generated water purification for the poorest communities called SODIS (www.sodis.ch). Since the earthquake in January, this program of teaching communities to produce their own clean drinking water has been operating in Haiti through the work of one of our partners, the Medical Ambassadors of Haiti (Community Health Evangelists) and their village health workers.

Yesterday, ministry funds from the Cooperative Baptist Fellowship and the American Baptist Churches were given to help purchase and transport medical supplies (IV solutions, oral rehydration salts, bleach and soap), procured by Christian partners in the Dominican Republic. These funds will also be used to help set up treatment centers to care for the very sickest, as well as to contain the spread of the infection to the communities through health education, prevention and primary health care to partner community health centers.

We have been in communication with our CBF Field Personnel nurse, Jenny Jenkins, in the south in Grand Goave and Port–au–Prince. She, and ABC Missionary, Deliris Carrion, are working together to prepare the local communities for the possible arrival of cholera cases in their area. To date, she has reported one cholera case hospitalized in Grand Goave having arrived from the Artibonite. The Haitian Public Health Department is planning to set up cholera treatment centers. We are in the process of trying to help provide cots for these centers through the help of our partner, Missionary Flights International.

If a large number of cholera cases develop here in the north, there is currently a concern that there will be a shortage of IV fluids, oral rehydration salts, and antibiotics. The World Health Organization and the international communities are involved and may be able to supply the needs for Haiti in time. At this time, there are questions and concerns that remain.

We ask for your prayers for protection for all at risk in Haiti, for the necessary education and prevention measures to be implemented, for the necessary medical supplies to reach the sick, and for strength and wisdom for those working in Haiti at this time that we all might serve in Christ–like love.

The men's shelter at 1130 Oretha Castle Haley Blvd is a 30,000–square–foot building that has a capacity for 50 men nightly. The Mission also provides an intense one–year discipleship program for men with substance abuse issues that begins after a 30–day evaluation.

The women's shelter is located within the main office at 1129 Baronne Street. This facility is 4,000 square feet and has capacity for 24 single women. As a transitional living shelter, our staff help the women find full–time employment and affordable housing and teach them basic life skills.

The Family Center located at 1819 Clio Street is a transitional living facility for single women, single men or married couples with up to three children. With occupancy of 34 beds, this 4,400 square foot facility offers a stable, clean environment for families as they work to get back on their feet. Run by Janice Jackson, this shelter aids parents in finding jobs while giving them the tools to find affordable housing. As a transitional facility, parents must work full–time and participate in the daily chores and activities in the home.

Solidarity

We would like to take a moment to acknowledge that while the COVID–19 pandemic is consuming a lot of our attention, it has not stopped the violence and injustice that exists in the world, and this is very much true for the deep injustices that the black community is facing in the United States.

We stand in solidarity with our colleagues who are feeling the pain of violence and injustice in our state and in our country. We welcome any input as to how we can ensure that ORVOAD acknowledges, listens and acts to make meaningful change around systemic racism.

Transitions

The time between June and July will mark a transition of leadership for ORVOAD. Michelle and Susan are so happy to welcome Rashad Bauman as the new President of ORVOAD.

ORVOAD – Working Cooperatively in a Crisis

Following a disaster, ORVOAD convenes its members and other agencies to discuss how they will work together cooperatively in the crisis. ORVOAD does not itself deliver services. Instead, its members independently meet relief and recovery needs within the cooperative framework the organization makes possible.

ORVOAD coordinates planning by the many voluntary agencies responding to a disaster so they provide more effective service with less duplication when a disaster strikes.

MEMBERS:
Oregon Voluntary Organizations Active in Disaster is not intended to be a competing agency but an umbrella organization of existing agencies. Each member organization maintains its own identity and independence yet works closely with other agencies to improve services and eliminate unnecessary duplication.

ORVOAD consists of voluntary and state government organizations with disaster relief roles. VOAD functions include animal control, building repair, child care, clean up, clothing, communication, counseling, damage assessment, disaster welfare inquiry, financial assistance, food, human relations, mass care, sheltering, transportation, volunteer staffing, and warehousing and bulk distribution.

Long Term Recovery Groups (LTRGs)

Tennessee Baptist Disaster Relief Feeding Units Activated; Assessors and Chaplains to Begin Work Next Week
May 5, 2010

Tomorrow at 10:00 a.m. the Tennessee Baptist Disaster Relief (TBDR) State Feeding Unit will arrive at Judson Baptist Church, Nashville, Tennessee, to begin preparing meals in partnership with the American Red Cross. More than 10,000 meals will be distributed to different shelters from Franklin to Gallatin to victims of the torrential rainfall and flooding last weekend.

Hardeman County TBDR Feeding Unit has been deployed to Pocahontas, Tennessee, and has already begun preparing meals. Another West Tennessee group of TBDR volunteers, who is being recruited to set up their kitchen in Jackson, Tennessee, is expected to prepare more than 7,000 meals each day.

In addition, TBDR is recruiting chaplains and assessors to begin work in mud out and flood recovery next Monday. “This was a no respecter of persons, no respecter of homes type of flood. Assessments can begin once the water begins to recede,” states David Acres, TBDR State Director.

TBDR has 14 specially trained flood recovery units (commonly called mud–out units) in the state. These units have the trained volunteers and equipment to assist homeowners in cleaning and removing damaged walls, carpets and furnishings from houses flooded with contaminated water.

A special fund has been created to assist with Disaster Relief efforts in response to this past weekend’s events. Individuals may give online or by sending a check made payable to TBC, P.O. Box 728, Brentwood, TN 37024. Be sure to include the designation “TN Floods 2010” on your check. All funds so designated will be used for victim’s assistance as described in the TBDR Designated Gift policy.

Because recovery from flooding and other disasters often takes months, if not years, WV VOAD, created regional Long–Term Recovery Committees (LTRCs) to help with disaster–related needs not completely covered by insurance or by federal and state disaster assistance programs. In the event of flooding, applications will be accepted for persons who sustained damage to their homes. All approved applicants will be visited by a long–term recovery case manager or a volunteer case worker who will work with them to assess damage, formulate a recovery plan, and procure cost estimates. Regional long–term recovery committees, broadly representative of the flooded communities, will review and make decisions on expenditures and use of volunteer resources on a case–by–case basis.

To apply for assistance and/or to receive additional information, call toll–free 1–877–330–9105. Survivors should always apply to FEMA first. Monetary donations to immediate disaster relief should be made directly to disaster agencies. However, contributions to help with long–term recovery should be sent payable to the West Virginia Council of Churches, (WV VOAD's fiscal agent). Please designate checks "for disaster recovery" and mail to:

Disaster Response

The West Virginia Council of Churches has a long history of assisting in response to disasters and various human and community crises. The Council addresses the spiritual and material needs of those in crisis, such as citizens of West Virginia currently recovering from devastating floods.

The Council was the initial convening agency and continues as an active member and fiscal agent of "Voluntary Organizations Active in Disaster" (VOAD).
