1/18/10: children are safe but all houses around are destroyed, a lot of died people in the streets, children and people of Croix des Missions quarter need food water, médicaments , survivors haven't nothing , children of the orphanage will die without food and water SEND URGENT RESCUE PLEASE

(NOT VERIFIED)

SOURCE: http://haitiearthquakesurvivors.blogspot.com/

Kay Tout Timoun – all children are safe (sleeping outside need tents), director and people too, the house is safe too, but all around in the streets in croix des missions is collapsed

SOURCE: http://www.mwts.org/missionhaiti/Home/Home.html

Movin' With The Spirit, Inc.: Founded by youth minister, recording artist and Connecticut native Sean Forrest, MWTS supports a Mission Haiti ministry that serves the poor in the villages of Duverger and Dandann, Haiti. The group opened an orphanage, "Kay Mari Manman Tout Timoun" in December, and had planned to build a school, health clinic and special needs home.

With the orphanage expected to be full due to the extent of the disaster, the organization needs $150,000 to run the facility for a year and vehicles to transport its residents. Tax deductible donations may be mailed to MWTS, P.O. Box 238, Columbia, CT 06237, or click here to make a donation online.

4/19/11: Cholera has struck the Foyer d' Orelph Orphanage – A total of about 8 children have confirmed cases, several in the hospital and several with suspect signs and symptoms. Many organizations such as Do Your Part, MMRC–Haiti, EDV, C4H, Heart to Heart, AmeriCares have been very supportive and instrumental in coordinating supply response, clearing out trash and sanitizing the site to help eradicate the outbreak.

The most current URGENT need is FOOD. A large quantity is needed to stabilize this situation.

NEEDS ARE:

BEANS
COOKING OIL
CHARCOAL
FLOUR
SUGAR
BOTTLED WATER
JUICE
POWDERED MILK
FRUITS
VEGETABLES
CANNED MEAT
SPAGHETTI
OATMEAL

FOOD SUPPLY LIST (1–2 weeks worth):

1 – 50 lb. bag of RICE – OR – 2–3 25 lb. bags of RICE
1 – 25 lb. bag of BEANS – OR – 1 50 lb. bags of BEANS lasts 2 weeks
1 – Bucket of COOKING OIL lasts 1 week
10 – Charcoals (2 sacks used per week – cost is $150 USD for 5 week supply)
1 – 25 lb. bag of CORNMEAL lasts 1 week – 1 50 lb. bag lasts 2 weeks
1 – Lg. Sack of FLOUR lasts 2 weeks
1 – Lg. Sack of SUGAR lasts 2 weeks
10–15 – Boxes of POWDERED MILK lasts 1 week
VEGETABLES (GREENS)
FRUIT

Services offered: Drive, Fundraising Drives, Backpacks; Facility, Childrens Home (For Orphaned Children); Food Distribution, Emergency/Disaster Food Distribution; School, School For Orphaned Children; Water, Supplies, Water Tank

LTEL 2/11/10: Notified by email from Laura Katz–Parentau that Direct Relief International is taking someone from the hospital to their warehouse to pick up needed medical supplies on 2/12/10.

(Will not change urgency level until this has been confirmed)

2/10/10 Email from Michelle Crombie at ACTS World Relief: Needs list received and will "go see in a couple days".

Paula Thybulle
Founder/Director
011–509–3–454–4829

Najlah Thybulle (Stateside/W. Palm Beach, FL)
305–735–3553

2/8/10: Spoke to Najlah Thybulle stateside. The 4 pallets with medical supplies that are in FL still have not been shipped and the shipper has not provided a new invoice/price to get it to Haiti.

"The neighborhood is becoming more and more unsafe for the children. We were able to purchase some food/water on the black market but we cannot afford to continue doing that at this point".

Food/water/shelter has NOT arrived to serve this facility for 275 people (including 67 orphaned girls) from any NGO's on the ground.

CAT has not been able to secure any short term medical supplies solutions that will tide them over till these stateside supplies can reach them.

LTel 2/4/10: Spoke at length with Najlah Thybulle. Status/needs assessment is as follows:

STATUS:

–25 bed hospital on site – Currently treating/doing surgeries for 200 patients
–Orphanage/Hospital is not completely destroyed – Lots of cracks – No structural engineer assessment – Not safe to sleep in buildings
–Children are sleeping outside in the open
–Hospital patients being treated outdoors
–Help with water pump/filtration system is critically needed
–They have armed guarded security on site

ORPHANAGE:

–Orphan populace is all girls ages 2–22 yrs. old
–70+ children/orphans
–10–12 workers on site

CRITICAL CURRENT NEEDS:

RICE
BEANS
COOKING OIL
NON–PERISHABLE FOODS/MRE'S, ETC.
WATER
JUICE
CANNED MEAT
SNACKS
12 – 10 MAN TENTS
BABY FORMULA (for the hospital)
DIAPERS (TODDLER SIZES – AGES 2–3)

MEDICAL SUPPLIES INCLUDING:

ANTBIOTICS
ANESTHESIA
NOVACAINE
PAIN KILLERS
BANDAGES
WOUND CARE BANDAGES

This site has received no aid/supplies. They currently have 9 pallets of Medical Supplies at a warehouse in Miami and need approximately $3–$4000 to get it shipped for the hospital. Currently, the shipper is modifying the invoice to see what the cost of getting at least 3 pallets over would cost so they can at least keep the hospital running for 1 month. The goal is to get all 9 pallets over so they can distribute aid to other medical facilities in critical need. This may take weeks, so on the ground aid is URGENTLY needed for their current immediate needs.

You can donate URGENTLY NEEDED funds through their supporting sponsor (Holy Name of Mary Food Fund at:

(Provides assistance on a recurring basis – Sow A Seed)

3/15/10 LTel:

Sow A Seed visited this site on Sat. 3/13/10 and delivered crackers (they had plenty of food), a water filtration system and provided a medic that sutured one childs head wound and determined one child needed medical attention for a scalp condition.

On Sun. 3/14/10 a team from COOPI visited this site and this is the email update:

Hi Leslie
We went to visit the orphanage yesterday and we think you have a good facility and staff but we had the impression that the staff could benefit from some training in contingency planning for the children and also some external help like regular medical checks, ensuring a balanced diet for each age group and some structured play–learning activity .
Please let me know because the general agreement here is that thing could get much worse once the rain start and so many people still in camps without proper shelter all over PaP.
We are already doing similar activities in Lima Peru were I am usually based.

3/15/10 Email update from OXFAM:

My team visited this location today. The situation did not appear as dire as suggested in the email. While the building has not sustained any structural damage (not even superficial cracks) the director has insisted on the children sleeping outside at night, resulting in water damage to mattresses.

Oxfam Quebec will:
–Provide 20 mattresses for the childeren, on the condition that they are used inside
–Provide Aquatabs (or equivalent) to allow the cistern water to be used for drinking. We will advise staff on correct use.
–Arrange for a Haitian social worker to speak with the director, staff and children to identify other needs
–Provide some food, in the form of a limited quantity of household food kits

We will also try to arrange for a structural engineer to assure the director that the building is safe, and that the childeren do not have to sleep outside.

3/12/10 LTel: Urgent message from Lucie Jaboin – No aid has come to the orphanage yet from Sow A Seed. 5 children taken to the hospital due to illness (likely a result of no clean water) and it's costing $2000 Haitian currency. This is money this facility does not have and they still have BASIC URGENT CRITICAL SUPPLY NEEDS. In addition to the below list of needs, they now need:

FOOD
EMERGENCY HEALTH CARE
MEDICINES

LTEL 3/10/10: Spoke to Lucie Jaboin, Dir. of the Orphanage. An org promised two large tents three weeks ago and hasn't come back since. They measured the area even. They just received food recently.

CURRENT URGENT NEEDS:

WATER FILTRATION SYSTEM
GENERATOR
2 LARGE TENTS (Still sleeping outdoors exposed)
STRUCTURAL ENGINEER TO EVALUATE SAFETY OF BUILDING
ANTIOBIOTICS (kids)
VITAMINS
OTC MEDS (kids)

Provided needs/addr to Sow A Seed for assessment by email 3/10/10. Lucie is going to follow up when she finds the name of the org that promised the tents so there is not duplication. They may still show up with them.

(LTEL) UPDATED 2/11/10 - Spoke to Stateside Director/Charlucie Jaboin:

NOTE: UNICEF came by and delivered Clothing/Water approximately 2 weeks ago. No one has provided food or shelter for these children (sleeping outdoors) to date since the quake and no one from UNICEF said they'd be back with their urgent needs. Money has been wired to the Director but food on the black market is very expensive and this small orphanage doesn't have a lot of monetary support. The age range of children (all girls) is 3–10 yrs. old.

Urgent Needs:

FOOD (Beans/Rice/Pasta/Cooking Oil/Spaghetti Sauce/Canned Meat)
POWDERED MILK
JUICE
WATER
WATER PURIFICATION SUPPLIES/EQUIPMENT (so they can be self sufficient)
TENTS (For 20 girls & their caregivers - sleeping outside - not sure if structure is safe

MEDICAL NEEDS:

Some children have Malnutrition/Sickle Cell/A disease worse than Wig Worm on scalps that requires treatment of antibiotics. The children have not been examined by a physician since the quake.

ANTIBIOTICS
OTC Medicines (cough syrup/anti–diarreal/Motrin, etc.)
Chewable Childrens Multi–Vitamins

OTHER:

A Structural Engineer is needed to evaluate whether the house is safe

"Jan. 25th, 2010 Michael visited and stated. 20 kids, no aid– no support– UN came by 2 days after quake, no other contact since

http://www.rmof.org/earthquake.html

January 15, 2pm

We have just received word from the staff members of the orphanage, the children and staff members are safe. The staff members of the orphanage urge for food, water and medical attention for the children. Though they are safe the air is polluted with the stench of three day old decaying bodies laying in the street. Dust is building up making the air harder to breathe and harder for respiration. The kids are surrounded by all kinds of dangerous elements we need your help to give the kids a better chance to survive this disasterous time.

We are working on ways to make the site more interactive for those who are following our posts. There will soon be a platform to leave comments; we ask if you can spread word of the orphanage by posting a link on other websites that would be a great help to our cause. We have a cause page on facebook and we're accepting all friend request, we encourage vistors to leave comments with ideas on how to make a better impact. Continue to use the contact form on our website to find out information on adopting or sponsoring a child. Please continue to send your prayers and gifts of love, care and hope. Haiti has faith!

January 14, 7pm

After countless attempts to find information about the condition of the orphanage we finally made some progress. We managed to get in contact with the owner of the house next door. She stated that her house was still intact and the orphanage still stands. We also spoke to the owner of the orphanage house and she also confirmed that the house is in good condition. No word yet from any of the staff members within, nor have we heard any news about the children. We are trying our best to get as much information about the condition and the where abouts of the staff and children.

Our search for aid in this matter is extremely urgent and we ask for any and every hand that can help. Please continue to donate, we appreciate all the efforts so far to help us in the tragic time. We urge all people to help with food, clothes and monetary goods; all these and prayers can not be done in excess. The orphanage officials are working diligently to find more direct information about the children.

January 13, 12pm

The orphanage is located in the Port–au–Prince area in Delmas not far from the earthquake. We are trying our best to get in contact with our directors at the orphanage. We can only pray that all the kids, teachers and directors are safe, but please aid in praying and in monetary aid through relief organizations. On the site we have ways to donate to the orphanage and we are shifting the donations that we receive to help in all areas of the earthquake relief. Please find a way to reach out and help us save lives of our families, friends, love ones and those we do not know. You can help in may ways please lend a hand, a voice and your heart.

3/10 UPDATE FROM THE SITE:

When the earthquake rocked Haiti on January 12, 2010, we worried about all of our children and staff in Haiti. We were glad to hear that our sites were just far enough north to avoid damage. And, as we communicated with our staff there, we learned that immediately following the earth–quake, they went to Port–au–Prince to help dig people out of the rubble and distributed food, water, and medicine. Some of the young people on our Haitian staff who speak English volunteered to translate for medical personnel who came from around the world to help treat the wounded.

Even though the initial crisis is over, the work in Haiti is just beginning. In order to have a lasting impact, we must be committed to help Haiti —for the long haul.‖ The House of Hope can do that by caring for as many orphans as we can, providing education to help the people of Haiti become economically self–sufficient, and sharing the hope that comes from knowing Jesus.

Our ministry is currently caring for 22 new children who were orphaned by the earthquake. We are housing them temporarily at the school site in Wiliamson, while a new orphanage is being constructed. The congregation there has mobilized to provide a family atmos–phere for the children. Several church members have been staying with them, caring for their physical needs, playing with them, singing songs and having devotions, and going on outings.
AFTER THE EARTHQUAKE:

OUR RESPONSE

If you have been following along with us on our website or Facebook page, you may wonder why the number of children that we have taken in from the earthquake has changed from time to time. Initially, the children who were orphaned or separated from their families were taken to —tent cities‖ in Port–au–Prince. Our staff in Haiti went there to bring children to our care, and they were registered with our ministry. In some of those cases, the parents of the children were located, and the children were returned to their families. In other cases, unfortu–nately, parents brought their children to be taken to an orphanage —for a better life,‖ and have sometimes lied about them being orphaned. When it was discovered that these children had parents, they were also returned to their families. The tragedy of this situation really dem–onstrates that there is much work to be done yet in Haiti.

If you have agreed to sponsor a child, and that child was returned to his or her family, we will find another child for you to sponsor. We have already taken in more children, and many more will come when we are sure that we can properly care for them. A team of nine people will visit Haiti this month and will work with our Haitian partners to decide when and how to take in more or–phans. The new orphanage that we are constructing will have space for between 50 and 60 children. Once that facility is full, we'll pray about what God wants us to do to help more children.

Eleven of the 26 people who went with us to Haiti in January are from the Valley County, Nebraska, area. After the earthquake, they challenged their community to raise $25,000 to help build another orphanage for the House of Hope Haiti. So far they have raised about $21,000! Impressively, the chil–dren from the community primary and country schools raised about $6,000 of this money! These funds have been a real blessing and will allow us to take in more children than we would have. Construction on the Valley House of Hope begins this month!

Following the devastating earthquake in Haiti on January 12, 2010, thousands more children were left orphaned, without adequate shelter or care. We believe that God is calling us to provide a home for as many of these children as we can. In the weeks after the earthquake, we took in an additional twenty–three children. They are being housed and cared for temporarily in the El Shammah school at Williamson. This school building has four large rooms and a bathroom, and is located on 1.4 acres that we purchased last year. We hired additional staff to care for the children, and purchased beds and other supplies to care for them.

We are now making plans to build a new orphanage on the Williamson site, to house these new children, and up to 37 more (60 beds total). Our friends in Ord, Nebraska, have taken up the challenge to raise $25,000 toward this project (please see Living Water Haiti to see what this community is doing) We have decided to name the orphanage the "Valley House of Hope," since Ord is located in Valley County, Nebraska, and the location of the orphanage is in a valley in Haiti, with the mountains as a backdrop.

We have also received generous donations from many other churches and individuals to construct this orphanage and care for the children there, and we are planning to continue to expand our facilities as funds allow. We hope to not only care for these children now, but to provide them an education and vocational skills as they grow. First and foremost, we want to teach them to know their Creator and His infinite love for them, and to live a life that is pleasing to Him.

We hope to break ground to build the orphanage by late February, early March, 2010. We will be continuing to look for sponsors to care for these children in the coming months and years.

FROM THE SITE:

Haiti is the poorest country in the Western Hemisphere. Unlike America, Haiti has no social security, life insurance, or Medicaid. People tend to have large families, which they have difficulty supporting. When a woman is widowed, it is likely that she will not be able to provide for her children. Consequently, in Haiti there are many children on the streets. Some are complete orphans, while others choose to roam the streets since there is no food at home.

We started the House of Hope Orphanage in September of 2005. Sixteen children were interviewed to see that they would be a good fit for the orphanage. The children live and attend school at the House of Hope, and receive a Christian education both from the school teachers and from a pastor who comes to the House of Hope each week.

It costs $40 a month to sponsor an orphan at the House of Hope. In the future, we would like to add on to the orphanage and take in more orphans. We need people who will either give one–time donations or who will sponsor an orphan on a monthly basis.

Reports via –

Canadian Feed The Children

Thankfully, we have confirmed that our staff and the children in our Haiti programs have survived. Our community partners are viable and ready to provide urgent aid. The situation is chaotic and life–threatening for children, with critical food and water

shortages, and other urgent needs. Help us bring vital support im...mediately. https://secure.csfm.com/canadianfeedthechildren/index_haiti.php

SOURCE OF NEWS ARTICLE: http://www.prnewswire.com/news-releases/national-hospice-foundation-sends-funds-to-hospice-organizations-in-haiti-82156767.html

National Hospice Foundation Sends Funds to Hospice Organizations in Haiti

ALEXANDRIA, Va., Jan. 20 /PRNewswire-USNewswire/ -- Using funds from its Disaster Relief Fund, the National Hospice Foundation has donated an initial $15,000 to Haitian earthquake relief. Three organizations doing on-the-ground work in Haiti have each received $5,000: Holy Angels Hospice, Partners in Health, and the Hopital Albert Schweitzer (Albert Schweitzer Hospital).

"Just like everybody who has been watching the heartbreaking images from Haiti, NHF's board and staff have reacted with horror and sadness to the tragedy unfolding in that nation," said J. Donald Schumacher, President & CEO. "We were so grateful that past donations to the NHF Disaster Relief Fund allowed us to respond quickly with cash to these three fine organizations. It feels good to know we are doing something tangible to help in the wake of such devastation."

Holy Angels Hospice & Orphanage is located in Port-au-Prince. The facility is still standing, yet Holy Angels is in dire need of financial resources to ramp up service provision. Prior to the earthquake, they focused exclusively on caring for children. With current needs, Holy Angels plans to expand services.

Partners in Health is a Boston-based international health agency that has been working in Haiti for more than 20 years. PIH works to bring modern medical care to poor communities in nine countries around the world. One of PIH's main goals in Haiti is to help with pain relief. PIH has deep roots and a major presence in Haiti, particularly in the Central Plateau region northeast of Port-au-Prince.

The Hopital Albert Schweitzer is located 42 miles outside of Port-au-Prince and escaped damage. According to the hospital director, the 120-bed hospital went over capacity within minutes following the earthquake and the staff of 200 immediately shifted into a mass casualty protocol. They report that x-ray machines and operating rooms are in constant use.

"Knowing that the need for assistance is both immediate and long-term, NHF will monitor the situation in Haiti and make additional donations during the long period of rebuilding," added Schumacher.

NHF invites individuals to make donations directly to these three organizations or to NHF's Disaster Relief Fund:

•Holy Angels Hospice & Orphanage (www.holyangelshospice.org)
•Partners in Health (www.pih.org)
•Hopital Albert Schweitzer (www.hashaiti.org)
•NHF's Disaster Relief Fund

1/12/10 Blog Update:

Earthquake Devastates Haiti!

Here is the latest from Haiti:

At about 5:00 PM as I was almost ready to send this e-letter, the house began to sway and I could hear the sound of breaking glass and of walls falling.
Haiti had just been hit by a major 7.0 earthquake. All the Heartline people are fine but the houses.especially the walls have sustained major damage. The wall at the boys' house is 75% gone as well as a major portion of the girls' house. In my house a good portion of the front wall is gone and a portion of the back wall.

We are running off of batteries power and have no running water due to the pipes breaking.

The people filled the streets running to somewhere. We do not really know the damage sustained throughout the rest of the city. All the children at the homes and the nannies and the Tlucek kids and visitors are sleeping outside tonight in the Buxman's yard due to several after shocks.
There are people sitting in the streets as they are afraid to go in their homes due to aftershocks. Even s I typed that sentence we just had a strong aftershock.

I am able to send this bu using the internet at a friends house that lives nearby. Our service has been knocked out.

FROM THE SITE:

Yahve-Jire Children's Foundation (Yahve-Jire CF) is a non-profit organization founded in 2006 in Croix-Des-Bouquets, Haiti. Yahve-Jire Children's Foundation began as a children's home resulting from the efforts of the founding board which includes; Chedlin Justinvil (Director), Daniel Auguste, and Michael J. and Victoria Stewart. Yahve-Jire is translated as Jehovah Jireh, which means "The Lord who provides". Funding for the orphanage is currently provided by Western Boulevard Presbyterian Church (WBPC) in North Carolina. WBPC sends $1000 per month and this is what the Yahve-Jire Orphanage is currently surviving on. Recently, Yahve-Jire Children Foundation has teamed with Worship 24:7 a non-profit (501C3) in the US to begin fundraising efforts, so that eventually the Orphanage, School and entire facility will be self-sustaining.

God has called us to establish Yahve-Jire Children's Foundation to aid in the healthy development of at-risk children. Yahev-Jire achieves this by addressing the direct development of the children as we provide them with shelter, families, health care and education that is providing for their spiritual, physical emotional, and academic development.

Yahve-Jire CF is working with the community in helping find ways to address their economic needs. Yahve-Jire CF does this by providing agricultural intervention, job and business training, and by helping entrepreneurs find investment capital to finance their businesses as a way to create jobs in their community.

Yahve-Jire CF works alongside the communities in building advocacy groups that enable the poor to influence government policies affecting their community and their lives.

Croix-Des-Bouquets, Haiti is a city in the Ouest Department of Haiti. Yahve-Jire CF began its work in Croix-Des-Bouquets in 2006. Croix-Des-Bouquets is located 12.9 kilometers (8 miles) to the northeast of Port-Au-Prince, the capitol of Haiti. It is one of the poorest suburbs in the metropolitan area. Croix-Des-Bouquets inhabitants live on subsistence farming and small scale cattle and pig production as a source of income. Croix-Des-Bouquets lacks basic health care, schools, infrastructure, financial services and capital necessary for business investment.

The first activity of the foundation is Yahve-Jire Orphanage. Yhave-Jire Orphanage is a program that provides a home and a family for 14 orphans and abandoned children. They are under the love, affection and care of three godly mothers and two godly men.

In April of 2008, Yahve-Jire Orphanage moved to Tabarre, Haiti. Tabarre is in the same condition as Croix-Des-Bouquets but they do not rely on farming as the area is mostly a suburb with housing. People living in Tabarre are there because it is a bedroom community. The orphanage moved because they needed more room and better living conditions for the children. The new rental house is cheaper than the original and is much larger, which allows the orphanage to also operate a school.

The orphanage is currently under a 5 year contract to rent the house in Tabarre, and has plans to build a permanent facility within that time frame. To find out more about the vision and plans of the orphanage, visit the projects page.

Hope For Little Angels Of Haiti Creche was founded in 2004 by Nadia Bernadin. Nadia has a firm belief that circumstances in Haiti can improve and she and her staff work hard to make a difference in the lives of the 50 children in their care. The Creche provides a stable home for the children living there as well as employment for her staff.

Nadia has been doing French adoptions for the last 3 years and just recently began doing adoptions in the United States. Nadia is fully vested financially, emotionally, and spiritually in this endeavor.

What We Do

Nadia and the Hope for Little Angels of Haiti organization aim to supply the children of the Creche with nutritious meals, preventative medical care, a basic education and a loving, stable home for the time they are with the orphanage.

A full–time nurse is on staff and a local doctor visits monthly to ensure the children are well. The Creche would like to be able to provide basic immunizations for the children in their care, but have not yet been able to fund this activity. It will cost approximately $450 per child for immunizations.

The Creche strives to feed the children three nutritious meals per day but this has become increasingly difficult. The cost of feeding the children just three simple meals of rice and beans with a bit of dried chicken or fish exceeds $3500.00 USD per month.

Many people assume that things should be cheaper in Haiti. However, the reality is that there is little agriculture in the country so a large percentage of the food supply is imported. Shipping costs combined with a limited availability increases food prices significantly. A few examples of the food costs are:

RICE $775
Infant Formula $800
Beans/Corn $650
Cooking Oil $400
Chicken $250

Just recently, the Creche has found sponsors for an on–site teacher for the children. The children will be taught basic reading and writing skills, along with English.

What You Can Do....

Get involved!

100% of all donations are used directly to supply the Creche with food, water, shelter, and medical supplies. But most importantly, your donations give the children and those who work with them HOPE. Hope that these children will be placed with loving, caring families and a Hope that the staff of the Creche can make the long term difference in their community and their nation that they desire.

FROM THE SITE:

RYAN EPPS CHILDREN'S HOME offers hope for abandoned children in Haiti, the poorest country of the western hemisphere—a place where the average lifespan is only 50. Children often suffer from starvation and disease and are frequently abandoned.

Started in 2007, this orphanage offers hope by giving these children a safe haven and a strong Christian foundation. It will give a hand up–– not a hand out, and it will provide the children with the opportunity to take charge of their lives. The Ryan Epps Home for Children was named in memory of Ryan Epps, a much–loved member of our youth group.

To help consider educational sponsorship of a child by providing a child with tuition, school uniform, and books. Or you may even consider whole sponsorship of a child, which includes room, board, and clothing as well. Call Helen Little at 919–553–7631 for more information.

World Cares Center Update from Les Anglais
Wednesday, January 12, 2011 5:31 PM
From: "Lisa Orloff"
To: "'"haiti–epidemic–advisory–system@googlegroups.com"' <haiti–epidemic–advisory–system@googlegroups.com>, "Lorey Campese", "Communications (World Cares Center)"

Thank you to all those that responded to my request for information today (they were looking for Albuterol for a little girl).

Our team provided 140 medical check ups today working to support the hospital in Les Anglais.

As we were treating the general population, MSF supported by UNICEF treated the cases of Cholera in a tent outside the hospital.

We were able to provide MSF with Cholera medications in support of their efforts.

Today they had two Cholera deaths.

We are making our way back to continue our mobile clinics in Leogane, Ti Goave, St Marcs, Delmas and Petionville.

Anyone in need of extra supplies and can meet us in any of those locations please let me know.

Also if you have a Cholera Clinic in the area please advise.

Thank you again for your help today,
Lisa
