From the InterAction site – 2010 Pakistan Floods

The American Red Cross is helping people affected by flooding in Pakistan through a $100,000 contribution to the International Federation of Red Cross and Crescent Societies. To meet the immediate humanitarian needs from the flooding, the global Red Cross network is providing food, relief items, shelter, water and sanitation services and emergency healthcare. The American Red Cross continues to work with our Red Cross and Red Crescent partners to evaluate additional response options.

From the site – 2010 Pakistan Floods:

Mules Bring Relief to Pakistan's Stranded Flood Survivors

By Patrick Fuller, International Federation of Red Cross and Red Crescent Societies

Friday, August 06, 2010 — Pakistan continues to reel from the historic floods, which the UN now estimates have affected 4.5 million people. As the monsoon rains continue, the flooding is penetrating further south in the country.

The government ordered the evacuation of more than 350,000 people in Sindh province where new areas are expected be engulfed as swollen rivers fail to contain the vast body of water heading south toward the Arabian Sea.

In the northwest part of the country, the Pakistan Red Crescent Society continues to dispatch truckloads of food relief to desperate communities who have been forced from their homes by the floodwaters. For Atta Muhammad with the German Red Cross, reaching some of the worst hit areas is no easy task.

Atta works in the remote districts of Kohistan and Shangla in Pakistan's northern province of Khyber Pakhtunkhwa. These districts remain virtually cut off from the rest of the country since the floods swept down from the mountains six days ago. All the bridges in the area have been destroyed and no other aid groups are delivering relief in the area. Atta's team of volunteers is on their own and they face a tough task, but because they are based in the area they know the communities here well.

"The only way to reach the affected areas is by foot. But trying to get food to 25,000 people scattered in small settlements throughout these valleys isn't simple," said Atta.

The solution is a tried and tested means of traditional transport in Pakistan's mountain ranges: mules.

"Today we sent a week's rations by mule train to Olander village for 120 families. It's a ten–hour return trip and in the coming days we'll be doing the same for other villages."

Finding food for the ration packs hasn't been easy. Stocks of basic commodities such as wheat flour, rice lentils and oil have dried up in Kohistan and reaching the nearest wholesale market has been a major challenge.

"It took our volunteers eight hours to reach the town of Besham yesterday. They went by foot and used tractor trolleys and a manual chair lift to cross rivers where bridges had been washed out," explained Atta.

Tales from survivors recount a wall of water that swept through the valley taking with it many of the small settlements that once stood along the banks of the Khan Khwer River. Mohammed Abdullah and his four brothers could only watch as their homes and the green fields surrounding them were engulfed in the flash floods.

"All that remains is a pile of rocks," recounted Abdullah. "We are a family of 40 and now we are living in the house of a relative in a single room. The women and children are weeping and sobbing; they can't sleep at night and cry at the sound of any loud noise. I don't know what will happen to us. We have lost everything."

Over the next nine months, the collective global Red Cross and Red Crescent network plans to support the Pakistan Red Crescent Society in its plans to aid 35,000 families with relief items, emergency healthcare, access to safe drinking water, sanitation services and psychosocial support. As part of these efforts, 5,000 families are expected to receive basic shelter support in the form of tools and building materials. The American Red Cross is providing an initial $100,000 to support their ongoing relief efforts targeted at the most vulnerable populations, including women and children.

https://www.convoyofhope.org/blog/features/disaster-response/hurricane-sally/
https://www.convoyofhope.org/donate/disasterservices/hurricane-sally-2020/

FROM RELIEF WEB:

Team headed for Japan
Source: Convoy of Hope (COH)
Date: 23 Mar 2011

A Convoy of Hope disaster response team is headed to Tokyo. They will continue the work of an initial team of responders, which was temporarily based in the Philippines and shipped to Japan enough food, water and relief supplies to fill a 40-foot-long container.

While in Japan, the team's primary goals will be to work through port logistics, ensure current channels are in working order and Convoy of Hope's footprint in Japan is expanded.

Help Convoy of Hope help Japan.

"Since the earthquake and tsunami we have been able to provide food and supplies, through our in-country partners, to meet people's needs," says Kary Kingsland, senior vice president of Global Initiatives for Convoy of Hope. "We will continue meeting needs and are dedicated to finding the most efficient ways to help many more survivors now and in the coming weeks and months."

Convoy of Hope's medical advisor, whose knowledge base will be a valuable asset to the team and the treatment of Japanese nationals, will accompany the team headed for Japan.

FROM THE SITE 3/12/11:

If the tsunami causes major devastation on the West Coast, Convoy of Hope will deploy teams and supplies to devastated areas.

Ron Showers, director of Global Outreach, is in Honolulu making preparations for an upcoming community outreach. Last night he left his hotel and moved to higher ground after tsunami sirens started to sound.

“Thousands of people fled the low-lying areas,” he says. “Gas stations were packed with people trying to get fuel, many locals and tourists fled to high ground and sought shelter in hospitals and high school gyms.”

Showers will monitor the situation in Hawaii after the tsunami hits.

According to Kingsland, the Disaster Response team will closely monitor further developments and move forward with plans to help the victims of the disasters.

Convoy of Hope is not seeking volunteers at this time.

Want to help people specifically affected by the California, Oregon or Washington wildfires? Write “California Wildfires,” “Oregon Wildfires” or “Washington Wildfires” in the memo line of a check and mail it to your local Red Cross chapter with the completed donation form. For California Wildfires you can also text the word CAWILDFIRES to 90999 to make a $10 donation.

If you have the time, you can make a significant impact as a Red Cross volunteer. Review our most urgently needed volunteer positions at redcross.org/volunteertoday. More information is available here.

MANY OPPORTUNITIES listed at site: redcross.org/volunteertoday
Volunteer from Home (Virtual Positions)
In times of disaster or social isolation it can be difficult for people to leave their homes to volunteer in the community. Even while staying home, there is opportunity to support the Red Cross mission virtually. We have a wide range of volunteer opportunities in which volunteers can engage remotely

Click "Apply Now," then search for “NHQ” or “virtual” in the search bar to find virtual/volunteer from home positions.
*Note: Positions will vary based on location.

Service Temporary

When fire season goes into effect, some activities in the great outdoors are prone to start fires. In an effort to prevent these fires from starting, various federal, state, and local government agencies can impose fire restrictions. The Oregon Department of Forestry and the Washington Department of Natural Resources impose restrictions pertaining to public and work related activities in their respective states. Additionally, counties may impose bans on private lands within their county jurisdictions.

Information on closures and restrictions for the Bureau of Land Management Oregon and Washington are listed below. Contact the local district office for site specific restrictions or additional information.

PLEASE realize this project was initially started when Hurricane Katrina hit our eastern gulf .....
only a few, very few volunteers joined on this project but we cared and needed to help in anyway we could.
Many of the entries were extremely difficult to update, as in emergencies things change by the minute, hour or day.

Many of the links are no longer working but with a bit of diligence it is easy to correct. ESPECIALLY if you are the one creating a record!!!

However, there is only one of me, keeping an eagles eye over a large landscape filled with compassion! PRAYERS!!

HISTORY –

DECEMBER 2007 – OREGON & WASHINGTON were effected
Severe Storms, Flooding, Landslides, and Mudslides
<winds up to 129mph at peak is estimated.... sustained with heavy rains
Many river & streams at flood warnings>
Washington also had one levee break!!

Currently, project involvement have included the following:

– keeping the database updated (More assistance would be beneficial)
– assigning/managing volunteers (Contact Terra)
– reporting on status of the update (needs assigned)
– keeping the database organized (Ongoing development)
– cleaning out the new/unassigned items (Terra)
– neatening up the categories (Terra)
– updating/coordinating dbase policies (keeping us all on the same page!)
– developing training materials (Terra & Leslie)

Also, like all of the other core volunteers:
– help train new volunteers
– help train users
– update new facilities
– help find/recruit new volunteers
– help direct users how to find things

And all kindsa other useful stuff!

***

Since Oct. 05
As a CitizenActionTeam.org volunteer, I search for facilities that are unknown and register them adding their current needs/ availability in the CAT Database. Then I click on the option for "match" and give the possibilities available.

Another example: I watch for posts and respond using the proper links. For example: Volunteers that have posted the fact that they are free to go to the gulf, in a specific area and during a specific time frame. Their post asks if anyone knows where or who to contact. I look at the database, sort for that area, which displays all the possible contacts that have been identified, then copy the address link and post it in the reply. Viola... they have many options for contacts that NEED them!!

Another example: Volunteers that have items to donate but have no idea where to send them. I go to the CAT database, click on items or categories at the top, go down the list, click on "show" and viola!! I now have a list of contacts and they can choose. IT IS VERY IMPORTANT NOT to send things without finding out FIRST that those items are needed. Everything changes rapidly and without coordination there is more often MORE problems! PLEASE CALL FIRST!!

I am also available to help others with the database (CAT DBase). I can help with an entry or demonstrate with a tour. BEST IS: CONTACT Terra !!

OR –– Just check "Database Help Desk" into your needs and contact Terra. You could add to the notes: Best Time & Number as well!!

2007
The NEEDS at the Gulf are for SKILLED labor volunteers.. it helps if they have leadership skills but you won't get turned away. The other needs are mostly BUILDING materials for repairs/rebuilds! It will take YEARS to recuperate!

THIS DATABASE NOW serves the nation and has become international as well!
PREPAREDNESS is critical to any disaster!!

2020 Wildfire

Whitman County - Malden & Pine City

South of Spokane, in Whitman County, the Babb-Malden Fire burned through the town of Malden and smaller Pine City. It destroyed 121 homes, eight businesses and 94 other buildings. Another fire in the area, the Manning Fire, destroyed several homes and a historic 102-year-old covered wooden bridge across the Palouse River.

Snohomish County Scanner Report
□WASHINGTON AND OREGON□

There is possibility of the wildlife moving towards town, and into your neighborhood. Their territories are burning, and their flight instincts will kick in. That means deer, elk, coyote, bear, mountain lion, birds, small mammals, and anything else running around the forests will move toward safety. Bring in your pets and put out buckets of water for them. They will be scared and tired. Give them time to rest. Their world is burning and they have no where to go.

Hurricane Helene response:

Direct Relief: Direct Relief brings long–term medical aid specifically needed by local officials and agencies. The organization has just made more than $74 million in medicines and medical supplies available for healthcare providers in the path of Hurricane Helene, according to an email. You can donate to their general fund or choose Hurricane Helene Response in the dropdown at their donation page.

source: https://eu.statesman.com/story/weather/hurricane/2024/09/27/hurricane–helene–how–help–victims–relief–organizations–charities/75412916007/

5/23/2013: From DRI Blog
Relief's Emergency Management Team landed in Oklahoma last night to assess the needs of healthcare partners responding to the deadly tornadoes. The team is reporting that severe thunderstorms soaking the town of Moore are inhibiting the response to the needs of people affected by the tornadoes.

Direct Relief has sent seven emergency medical deliveries valued at over $211,000 (wholesale) to three health center sites serving people affected. Direct Relief is in contact with more than 300 clinic and health centers in storm–affected areas and more priority shipments are planned over the next several days.

Lighthouse Medical Ministries, located just five miles outside of Moore, Oklahoma, have opened their clinic to assist with the response. In the absence of typical transportation options, vans are being sent out to collect people with medical needs and bringing them to the clinic. To reduce the risk of tetanus in the aftermath of the disaster, Lighthouse Medical Ministries requested Tdap (Tetanus, Diphtheria, Pertussis) Vaccine. Donated by GlaxoSmithKline, 210 doses of Tdap vaccine were shipped immediately and delivered yesterday.

SEMO Health Network also requested and received Tdap vaccine. Direct Relief is sending today an additional shipment of personal care items, anti–inflammatory drugs, diabetes supplies, wound care, gloves, and eye care products. These items will support the deployment of a mobile medical unit to Oklahoma on Friday. The mobile medical unit was donated by Direct Relief after the tornadoes that devastated Joplin, Missouri in 2011.

Community Health Center, Inc in Spencer, Oklahoma was not damaged in the tornadoes and is providing care to people who are displaced or injured. Direct Relief has delivered Similac, Family Dental Kits, pelican cases, blankets and infant hats, and prescription medications and supplies to Community Health Center to help with their response.

Additional medical aid to five clinics are planned this week, including medications, medical supplies, personal care items, and 170 vials of Lantus insulin shipped directly from Sanofi US.

11/8/2012: From Website
International, announced today that they have joined together and established a special fund to support the patients and nonprofit health centers and clinics in areas affected by Hurricane Sandy.

All contributions to the Sandy Safety–Net Fund will be used exclusively to support nonprofit healthcare safety–net facilities and related activities in affected communities.

DRI is currently working with partners in Brooklyn, Queens, Manhattan, Staten Island, Red Hook, Rockaway and throughout New Jersey.

Jesusita Fire: Direct Relief Delivers Protective Masks to First Responders
May 6, 2009

5:50 p.m. In response to the rapidly expanding Jesusita fire, Direct Relief has furnished N95 particulate respirators at the request of local emergency response for use by responders to the Jesusita Fire in Santa Barbara County. Watch a video about our response.

The request for protective masks was made to Direct Relief Emergency Response Coordinator Brett Williams, who was meeting at the Santa Barbara County Emergency Operations Center as sundowner winds fanned the flames, forcing more evacuations. See a map of the evacuation area.

Direct Relief has a formal agreement with the County of Santa Barbara to assist in public emergencies, and Williams participates in meetings and drills routinely to ensure smooth coordination in the event of an emergency. The current situation is being described as an "extreme fire emergency."

Direct Relief Provides $12,000 in Grants to Tea Fire Victims
100% of all Tea Fire contributions going directly to residents
January 29, 2009

Direct Relief International has approved cash grants totaling $12,000 to residents affected by the devastating November 2008 Tea Fire, which destroyed 210 homes in the foothills of Santa Barbara and Montecito. The grants are being paid with designated contributions Direct Relief received to support Tea Fire victims.

Aid recipients were identified through the Tea Fire Long Term Recovery Committee, an interagency working group coordinating assistance among local nonprofit organizations including the American Red Cross and the United Way. A caseworker hired by the committee has assisted the residents with their aid requests and confirmed the extent of their loss.

Among the grant recipients are Lance and Carla Hoffman. The couple escaped through the flames but suffered serious burn injuries that have required specialized care in Orange County since the fire. The cash grant will help them cover medical expenses, which surpass $95,000. Other grants have been approved for uninsured residents identified as being in extreme financial hardship directly caused by losses in the fire.

These cash grants were made possible by generous donors who contributed to Direct Relief's response and recovery efforts, including the leading software company QAD, based in Santa Barbara.

During the incident, Direct Relief tapped internal funds from its general emergency account to purchase and distribute thousands of protective N95 particulate masks to residents and emergency personnel. Tea Fire contributions were not used for those expenses or internal personnel costs related to the response because the organization determined the actions were the type of activities for which it raises general funds.

As a result, Direct Relief is using 100% of all contributions specifically designated for the Tea Fire for direct financial assistance to fire victims. "In all emergencies that generate restricted contributions, we believe it important to articulate very clearly how such contributions are used, including explaining our internal accounting practices," said President and CEO Thomas Tighe. "We are very fortunate to have supporters who understand that emergencies are difficult to predict and allow us the discretion to use funds as needed.

"Because of that general support to Direct Relief," he continued, "we were able to respond fast and, in this case, use every designated dollar we received to support local residents only and precisely for that purpose."

Remaining Tea Fire funds will be allocated to affected residents identified and approved through the interagency process. People affected by the Tea Fire may contact Pamela Voge, Long Term Recovery Coordinator, at the Santa Barbara Chapter of the American Red Cross to apply for assistance: (805) 687–1331 ext. 107.

QAD Makes Computer Workstations Available for Tea Fire Residents
In–kind donation supports those who lost home offices

January 5, 2009
For Santa Barbara and Montecito residents who lost their home offices in the Tea Fire, QAD has made a generous in–kind donation through Direct Relief International of temporary computer workstations at QAD's headquarters in Summerland.

Between 20 and 30 temporary workstations outfitted with Internet–accessible laptop computers will be available to applicants on a first come, first served basis. The work stations are available starting January 5, 2009, from 8 a.m. to 5 p.m. Monday through Friday. Users are asked to respect a 30–day limit per person, with laptops available for in–office use only.

To apply for a QAD temporary workstation, contact Damon Taugher at Direct Relief: (805) 964–4767, or dtaugher @directrelief.org.

Please Note: Direct Relief sends medical aid to areas affected by emergencies. We cannot send volunteers to assist with emergencies

Go to the link above to find RED CROSS sponsored shelters. (there are usually MANY MORE shelters other than "Red Cross sponsored" shelters...run by local gov't, run by private groups)

[Editor's NOTE: we've noticed lately that the link DOES NOT WORK for people who don't allow cookies and other surveillance apps on their devices. The Red Cross is a great org, providing badly needed first response. However, we do not like that the link doesn't work on ANY device, and fear that this is a trend that's related to the "need" for large non–profits to gather a ton of personal info before they will help you. If that's the case, shame on you Red Cross. If it's not the case, please excuse our ignorance]

See the map at the link for open shelters. Below that is a list of openshelters.

You can also search by state/address.

Open Shelters are flagged. Put your mouse over a flag to get more info, click on it, and give it a moment and you'll see the address of the shelter and a capacity (number of people), if the information is available.

Here's the old address, that doesn't work as well, but for reference purposes: http://app.redcross.org/nss–app/
