2010 Gulf Oil Spill

NVOAD Sitrep 6/16/10

The Alaska VOAD has taken the initiative to hold two conference calls to share the lessons they learned from the Exxon Valdez oil spill in Alaska. The Alaska VOAD Chair and Vice–Chair have moderated these conversations which have included topics surrounding the long–term implications of an oil spill and the emotional impact on the community. The in–depth question–and–answer period allowed listeners from the Gulf Coast region to ask more specific questions of the panelists and, hopefully, prepare themselves for some of what they may face in the coming months.

Donate Dog Food

AKVOAD Establishes Spring Flood Donations Management System

Anchorage, Alaska – Alaska Volunteer Organizations Active in Disaster (AKVOAD) established donation collection points in Anchorage and Eagle River. People who want to help victims of the recent flooding are asked to call one of their local Adventist Community Services (ACS) donation points and ask what items have been requested by the communities.

“Alaskans can be very generous when other Alaskans are in need. We have established a system that will ensure that when an item is donated it is delivered to someone that needs that item,” said Richard Whetsell, chairperson for AKVOAD. “One challenge of donations management is to avoid providing unneeded assistance to one community while another community goes without.”

Cash donations are the most effective way to directly help those in need. Cash donations can be made at any Alaska USA Federal Credit Union. Make donations to Donations Account 2009 Spring Flooding, Account #118722. The money will be used by the Alaska Long Term Recovery Committee, which is a cooperative effort between volunteer organizations to address unmet disaster recovery needs.

To make material donations in Anchorage contact the local Adventist Community Services collection points at:

Volunteers are urgently needed at World Vision's Miami Logistic Support Center
to help organize and pack essential relief and recovery items for shipment to Haiti.
Call: 305.888.7590

Volunteer assistance is needed 9 a.m. to 4p.m. Tuesday through Saturday, and Wednesdays
5 p.m. to 8 p.m., by appointment only.

Volunteers will assemble kits that:

Provide children and families with personal hygiene essentials
Supply basics to World Vision's Haiti Child–Friendly Space, which provides a
nurturing environment for children who are separated from their parents or
whose parents must attend to family recovery issues.
To volunteer, please call Jim Ewings, 253–359–3948.

World Vision's Miami Logistics Support Center is located at
11401 N.W. 100th Road in Medley, Florida.

New Volunteer team coming in 11/4 & first part of 12/10.

6/24/10 LTel:

Per Michelle Crombie, Vol. Coord. for ACTS World Relief they are on hiatus in Haiti until 7/17/10 when a team of 25 volunteers will arrive and be present through 8/14/10. Their final current team of 2 volunteers leaves 6/25/10.

GLOBAL: PROJECT HAITI

We are scheduling teams throughout the summer and into fall. Teams of 5–7 people for 2–4 weeks are ideal however larger groups may be accommodated with prior approval. Doctors/PAs, Nurses, Dentists, Dental Ass't, Security/EMT/Fire/ Paramedics, Psychologists, Mental Health/Social Workers, General Labor, Emotional & Spiritual, Educational and Disaster Relief Education providers are all desired and appreciated.

MISSION FEE:
Covers lodging for entire trip, two meals a day (breakfast/dinner), transportation to/from airport and in–country transportation.

* $100/person non–refundable deposit must be submitted online to secure your registration and date.
* $395/person fee paid in cash to Haiti Basecamp Director upon arrival.
* $295/person fee paid in cash to Haiti Basecamp Director upon arrival for groups of 10 or more.

For additional information on volunteering, please go to:

http://www.actswr.org/volunteer

4/10/10: ACTS World Relief chose the Citizen Action Team Relief Database to partner with to provide coordination and direction on orphanage needs in Haiti. CAT is sharing recommendations on proper orphanage assessment and preliminary phone assessment details to provide to ACTS Volunteer teams that will visit the physical sites.

Our Dedication to Haiti Continues...

* Phase I:
First two weeks: Initial deployment/disaster relief at Hopitale Adventiste and implemented feeding program for patients, volunteers and families in need.
* Phase II:
First three months: Set up community medical clinics. Sent out mobile medical teams to disaster areas & orphanages, continued the feeding program and set up dental clinic.
* Phase III:
Moved to new location. Collaboration with partners to set up Pediatric Rehabilitation & Prosthetic Training Center. Continue with mobile teams to schools and orphanages to assess medical, emotional & spiritual and structural needs. Continue hot meal program to schools and orphanges. Operate current free community medical clinic x 1–2 days/week.

Wednesday, February 10
ACTS and Operation Hope for Children of Haiti are continually amazed how things are coming together and networks and bonds are forming. We are so fortunate to work with so many teams/relief groups that we'll have to mention in a seperate post to thank them all! Here are some stats and how all of our volunteers have made a difference. Thank you!

Monday, February 1 – FROM THE WEBLOG:

ACTS and Operation Hope, an NGO of Haiti, have united in serving together. Dr. Eddy is the brother of Dr. Archer, the hospital medical director, where we began. ACTS, a long–time partner has fed 20,000 hot meals for hospital patients and refugees to date. We have helped 11,000 patients so far. Mainly mothers and children.

We are witnessing God provide the urgent medicine we need one day at a time. ACTS is averaging dispensing $300,000 in medicine per week. We distributed five truckloads of water and four truckloads of food. We have been able to save the hospital $100,000 in food costs and donated 3,500 gallons of diesel fuel for the generator. Today we provided the hospital with new badly needed ventilator. God is good! The best is yet to come.

ACTS is donating two 180x330 circus tents worth over 1 million dollars in partnership with the YMCA to create a new village for refugees. We will supply medical teams and ACTS partnership with Haitian government to provide location and logistical support for the new village.

The medical camp at Carrfour and the outpost team has treated 2200 patients in the last two days. In our partnership with Operation Hope we are serving over 1100 patients per day from all sites. We received stories from our teams in our debrief last night.

Tuesday, January 26

On January 26, 2010 ACTS World Relief began Phase II, transitioning into community outreach in Port–au–Prince, Haiti. As a part of Phase II, ACTS is helping to establish and support 50 orphanages and 5 medical clinics.

In Phase I ACTS flew in 100 medical, emotional/spiritual, search and rescue, and safety volunteers into Port–au–Prince for the purpose of identifying, assisting and stabilizing 1200 patients in need of acute medical care. Our medical professionals performed 156 orthopedic procedures and amputations. With the acute needs diminishing, Loma Linda University and Florida Hospital will take over organizing and providing long–term care for the Port–au–Prince hospital.

Many from the hospital commented “I’m truly amazed at how ACTS is able to deploy so quickly and operate with such professionalism. Our people cannot thank you enough for saving so many lives.”

Phase II includes establishing teams of general medical professionals, including PTs, those trained in spiritual/emotional care, health educators and security staff. They will provide care and support for the orphanages and medical clinics.

ACTS World Relief News Flash!
ACTS World Relief is responding to the devastation in Haiti by sending in an immediate response team consisting of Physicians, Public Health, Construction, Spiritual and Emotional Care and Logistics Team Leaders on Monday January 18. A smaller team will arrive on January 16. We are scheduled to meet with the President and lay out plans for both immediate and long– term recovery. ACTS is collaborating with key leaders in World Vision. Medical supplies are urgently needed for our teams, as well as financial donations. These donations will provide life support both physically and spiritually. Call Marcia Trott for more information if you would like to become a part of a volunteer response teams 864 578–2515 or David Canther 407 625–4655, or sign up here. Please use our online donation page or send donations to:

25 October 2010
Cholera outbreak in Haiti – What we're doing
http://www.helpage.org/newsroom/latest–news/cholera–outbreak–in–haiti––what–were–doing–/

A coordinated approach
Roger Markowski, country director of HelpAge in Haiti says: "At this stage it is vital that we work with the Government of Haiti and the wider humanitarian community to guarantee a coordinated response to the situation. That way, we will ensure that the most vulnerable sections of the population are not left out of treatment and prevention."

Working together with UN cluster groups, we are:

•coordinating the supply of chlorine tablets for household water purification
•monitoring for early detection of any cases of cholera, especially at camps and at our partners' facilities
•contact–tracing with our home–based care and community agents
training nurses and camp volunteers in awareness and preventative measures.

HEALTH CLUSTER DETAILS 3/8/10:

MAIN ACTIVITY/OFFERS: Focus on elderly

FROM THE SITE:

HelpAge's UK emergencies team is in Port–au–Prince, along with staff from our regional development centre in Jamaica. We are the only relief and development organisation focused on the needs of older people in developing countries.

HelpAge has had a presence through partners in Haiti for eight years. Working through local partners allows us to use local resources, which maintains long term capacity and reduces dependency.

HelpAge has taken on the day to day management of the municipal nursing home in Port–au–Prince. We will take on all aspects of caregiving for the next six months. This includes providing more meals, medicine and emotional care. We will also ensure older people's security, dignity and privacy.

With our partners, CARPA and SHAA, we have distributed food and water to 400 families in need. Together, we are providing healthcare, emotional support, relief supplies and temporary shelter.

We are distributing age friendly "wellbeing" kits containing soap, shampoo, toothbrushes and toothpaste, towels and other cleaning items.

HelpAge and World Vision are working to give out 7.5 metric tonnes of food to older people in nursing homes. We are also broadcasting radio messages to ensure that older people are not forgotten in aid distributions.

We are planning to set up help points in ten different locations to provide information and assistance to affected older people.

HelpAge is also working outside Port–au–Prince, dispensing food, "wellbeing" kits and medication to 250 nursing home residents in Léogâne and Petit Goave, and to 200 older people in Croix des Près.

In total, we have distributed food and other essential items to over 1,000 older people and their families in the last month.

Why is it particularly bad for Haiti?

Haiti is the poorest nation in the Western Hemisphere. 56% of the population lives on less than US$1 a day. The country has also suffered decades of violence and political instability.

More than 2.5 million people live in Port–au–Prince. The high population density, environmental degradation, poor waste management and inadequate construction make the Haitian capital even more vulnerable. Other towns have also been badly hit.
How are older people affected?

800,000 people (7% of the population) are aged over 60. They are particularly at risk as they are further weakened by physical, social, and economic vulnerabilities related to age.

Our experience shows that older people are often left out of relief efforts. We are working to ensure that all older people affected can access help.

The earthquake has destroyed grocery stores and clean water sources. Disease is a real threat. Thousands are homeless.

HelpAge will be addressing the specific needs of older people – food, water, medicine and mobility aids, emotional support and shelter.

Many older people in Haiti are looking after orphaned children and therefore need extra support.

Among the dead are people who were working in Port–au–Prince to send money back to relatives in the provinces. Many of these relatives are older people who do not receive any social assistance or pension from the government.

Without any financial support from their family, they now desperately need assistance.
How can you help?

Our international sister organisations have launched appeals to support our response in Haiti.

You can donate to our Haiti relief efforts through:

Habitat's response in Haiti
Habitat is implementing immediate relief efforts and addressing long-term shelter solutions for low-income families.

Based on current information and past experience with international disasters, Habitat is planning a multi-phrase strategy of response:

Phase one: relief

•Emergency shelter kits
Emergency shelter kits are designed to help families make immediate repairs and construct emergency shelter. They will be distributed to families by Habitat employees and partners.

•Re-establish operations
Habitat has been operating in Haiti for over 26 years, but the Habitat Haiti office building was destroyed in the earthquake. As part of our immediate response, it will be vital to assist Habitat Haiti in restoring its capacity to fully participate in the recovery efforts.
Phase two: rehabilitation

•Rehabilitation and cleanup
We will assist with the removal of debris and salvaging of materials that can be recycled into new shelter. We will also assist in the rehabilitation of homes that have repairable damages.
Phase three: reconstruction

•Transitional shelters and core houses
We plan to replace destroyed homes with transitional shelters. Improvements and additions to transitional shelters can be made over time—turning them into permanent core houses.
We will also rebuild in ways that reduce risk and improve construction quality in Port-au-Prince and surrounding areas.
Phase four: recovery

•Habitat Resource Centers
These centers are designed to enhance local systems that support housing development and improvements. Through the centers, we identify gaps in the local supply of housing materials, designs, finance and skills and provide services that support local livelihoods.

Original e-mail Message:

From: Habitat for Humanity NCM office
Date: Fri, 15 Jan 2010 15:20:11 -0500
Subject: Habitat for Humanity in Haiti

Dear Friend of Habitat,
We thought you would want to know what Habitat for Humanity is doing in Haiti to help with the earthquake recovery effort.
We understand that the Habitat for Humanity office in Haiti was destroyed and at least 10 of the 50 Habitat staff members based there are currently accounted for. No assessment has been possible yet of the approximately 2,000 Habitat homes built in Haiti, nor of those homeowners. Please pray for all the people of Haiti and for our teams there, as well as for the many humanitarian outreach efforts underway.

An assessment team from Habitat for Humanity International's Disaster Response department is currently making its way to Port-au-Prince from the Dominican Republic, which shares the island of Hispaniola with Haiti. Upon arrival they will make contact with the Haiti Habitat staff and begin assessments of the quake's impact. They in turn will connect with other organizations such as World Vision, World Concern and CARE, among others.

Many of have asked us about the need for volunteers. Volunteers are not being recruited or deployed at this time and will not be until the situation is more stable and Habitat can be certain its volunteers would be safe. Habitat for Humanity has been working in Haiti for more than 26 years and our hearts go out to everyone there.

In Partnership,
The staff of Habitat for Humanity North Central Massachusetts

Habitat for Humanity International is assessing the impact on affordable housing and response options in Haiti after a major earthquake struck near Port-au-Prince on Tuesday

PORT-AU-PRINCE, Haiti (Jan. 13, 2010) — Habitat for Humanity International will respond to a 7.0 earthquake near Port-au-Prince and is currently assessing the impact on affordable housing.

“Habitat for Humanity will mobilize all available resources to address shelter solutions for low–income families affected by the 7.0 magnitude earthquake that struck Haiti on Tuesday,” said Torre Nelson, area vice president of Habitat’s Latin America Caribbean office. “We are closely monitoring the situation and have been in contact with Habitat for Humanity Haiti. We will begin Habitat’s recovery efforts as soon as possible.”

“Habitat for Humanity is sending an assessment team into the impacted area,” said Kip Scheidler, senior director of Global Disaster Response at Habitat for Humanity. “Once we know the full magnitude of this disaster, we’ll begin Habitat’s recovery process.”

Habitat has been at work in Haiti for 26 years and will use its local expertise and mobilize resources as part of the rebuilding efforts. Habitat has provided more than 2,000 families with housing solutions through a variety of initiatives, including new home construction, progressive building, home repairs and improvements. It also builds capacity in construction skills, disaster mitigation and financial literacy and works in coordination with community and government agencies.

Early media reports estimate that 3 million people were affected. Haiti’s ambassador to the U.S. has called the quake a “catastrophe of major proportions.”

Habitat’s ability to respond effectively to this disaster will require support from donors, volunteers, corporate partners and other community organizations. Donations can be made at https://www.habitat.org/cd/giving/donate.aspx?link=227.

About Habitat for Humanity’s Disaster Response
Habitat’s Disaster Response focuses on the housing needs that arise from natural disasters and humanitarian emergency conflicts. Habitat offers expertise in technical information; program design and implementation; and disaster response policies, protocols and procedures. We also provide support and informational resources for disaster mitigation and preparedness—helping communities in disaster–prone areas protect themselves against future threats.

About Habitat for Humanity International

Habitat for Humanity International is an ecumenical Christian ministry that welcomes to its work all people dedicated to the cause of eliminating poverty housing. Since its founding in 1976, Habitat has built, rehabilitated, repaired or improved more than 350,000 houses worldwide, providing simple, decent and affordable shelter for more than 1.75 million people. For more information, or to donate or volunteer, visit www.habitat.org.

About the Logistics Cluster
Document type: Brief / Last update: Jan 04, 2010

The Cluster Approach was endorsed by the Inter Agency Standing Committee (IASC) in Sept. ‘05 The IASC, in its own words, is "the primary mechanism for inter agency coordination of humanitarian assistance. It is a unique forum involving key UN and non–UN humanitarian partners". http://www.humanitarianinfo.org/iasc/

The IASC committee is chaired by the Emergency Relief Coordinator (ERC), Sir John Holmes. The full members are the heads of the UN humanitarian agencies, standing invitees include OHCHR, World Bank, IOM, ICRC, IFRC, Inter–Action, ICVA (represented by World Vision International) and the Steering Committee for Humanitarian Response (represented by Oxfam).

Nine Clusters were agreed with a lead agency for each. WFP is the lead agency for Logistics Cluster.

The global cluster leads are "accountable to the Emergency Relief Coordinator for ensuring predictable and effective inter–agency preparedness and response within the concerned areas of activity". This entails the very important element of accountability and where necessary the lead agency becomes the provider of last resort.

Cluster Activation
Clusters can be activated in response to "sudden major new emergency requiring a multi sectoral response with the participation of a wide range of humanitarian actors" as well as during ongoing emergencies.

– When clusters are needed:
1. HC / RC informs the ERC
2. ERC informs the global cluster leads
3. Global cluster leads assess to determine nature of response required.
4. Some of the clusters might not be needed
5. Country level clusters are activated according to scale/nature of need

Logistics Cluster Lead
WFP is the logistics cluster lead at global level. Cluster leadership at field level is generally the same as at global level. However, in exceptional circumstances where WFP is unable to fulfil this role at field level, another field level cluster lead agency/organisation can be allocated the responsibility.

Logistics Cluster Operations
Logistics cluster operations vary in scale from information sharing/coordination (such as infrastructure assessment, port & corridor coordination, transporters & rates, customs, equipment supplier information) to those involving information sharing and common air, ocean and overland transport, storage etc. Regular coordination meetings will be established involving all stakeholder (UN agencies, Government, International and local NGOs).

Where there are gaps such as lack of transport capacity the first option will be for organisations to help each other with capacity. Where this is not possible the logistics cluster lead will be required to act as a provider of last resort.

Reporting Lines
At field level, the logistics cluster reports to the HC/RC. There is a technical reporting line between field level logistics clusters and the global logistics cluster support cell (based in Rome HQ). The global logistics cluster support cell provides guidance and support to field level logistics clusters.

2010 Mount Merapi volcano

http://www.cnn.com/2010/WORLD/asiapcf/10/26/indonesia.volcano/index.html?eref=ib_topstories

Some nongovernmental relief agencies were poised to offer immediate help. One of them was World Vision Indonesia, a Christian relief and development agency.

"Right now, our biggest concern is the children," said Fadli Usman, World Vision Indonesia's rapid assessment team leader. "Children are always forgotten in the early moments of a disaster like this. My first task will be to assess the needs of the children and their families in the evacuation centers so our team can begin to help them."

Usman said about 1,500 people –– mostly women and children –– had found refuge at a four–building shelter about 7 miles (12 kilometers) from the volcano. The evacuees, he said, are worried about the men who stayed behind to guard their homes and fields on the mountain.
