FYI – The community of Belle–Fontaine, a settlement located in the northeastern region of the country, in the communal section of Croix–des–Bouquets is made up of four districts of more than 30,000 thousand inhabitants. None of the districts benefit from any public service. To get to Belle–Fontaine 3 from Port Au Prince requires more than a 6–hour journey. Additionally, the illiteracy rate is nearly 100%, and the effects of extensive deforestation are quite evident.

Newsletters from:

2009 –
In January 2009, orientation meetings as well as a Thanksgiving Service were held for the 85 enrolled students of the newly formed Garden of Grace Elementary School located in Belle Fontaine 3, in the Croix des Bouquets region. Classes commenced on February 2, 2009 for students, who had never before attended school, now enjoying the benefits of education under the tutelage of four professionally trained teachers from the City of Port Au Prince.
