Service Temporary

Post shared 9/12/20 1am
A friend posted this for her county, and I realized all of us in downtown Blue River need to do this too! Edited for our county:

□ URGENT: Anybody with a total loss should immediately go to – or contact –
the Lane County Assessor to complete forms documenting the loss.
If you do it immediately, your tax statement coming up this fall will reflect the loss.
Otherwise, you have to go through a process of appeal that would be very cumbersome.
This is time critical because the tax roll process is happening NOW.

Phone: 541–682–4321
Address: 125 E. 8th Ave, Eugene, OR 97401

Blue River is an unincorporated community in Lane County, Oregon, United States. It is located on Oregon Route 126 along the McKenzie River, between the communities of Finn Rock and Rainbow. It is in the Willamette National Forest, where the Blue River empties into the McKenzie. The community was named after the Blue River, which was named for the striking blue color that apparently comes from its rocky bed.[1] Five miles northeast of the community, a dam on the Blue River forms the Blue River Reservoir.[2]

Linda L. Cook, Emergency Program Manager
Email contact: Linda.Cook@co.lane.or.us

The Lane County Emergency Management program's purpose is to increase the County's resiliency and to increase its ability to respond and recover from the hazards that threaten it. This is done through mitigation, preparedness, response, and recovery.

Mitigation: Any action taken to reduce or eliminate the long–term risk to human life and property from hazards. The term is sometimes used in a stricter sense to mean cost–effective measures to reduce the potential for damage to a facility or facilities from a disaster event.

Preparedness: Establishing the plans, training, exercises, and resources necessary to achieve readiness for all hazards, including WMD incidents.

Response: Duties and services to preserve and protect life and property as well as provide services to the surviving population

Recovery:Emergency actions dedicated to the continued protection of the public or promoting the resumption of normal activities in the affected area.

Functions of the Emergency Management program include:

Hazard Analysis
Capability Assessment
Emergency Operation Plan (EOP) Development
Functional Annex Development
Emergency Operation Center(EOC)
State and Federal Reporting

2020 Wildfires

Lane County 2020 Fire Relief (Lovefirst Disaster Assistance) 562-541-6731
https://www.facebook.com/Lane-County-2020-Fire-Relief-111239577383868
(While this is not goodbye, we have shut down LOVEfirst at the Masonic Lodge and are currently looking for a more permanent building to house our group in.)

Oregon wildfire survivors
Oregon Wildfires And Straight-line Winds (DR-4562-OR)
If you sustained uninsured losses or damage due to wildfires beginning Sept. 7, 2020, you may be eligible for disaster aid. Federal funds are available to help eligible individuals recover from wildfire in Clackamas, Douglas, Jackson, Klamath, Lane, Lincoln, Linn and Marion Counties.

Federal Emergency Management Agency (FEMA) Disaster Assistance Program

The Disaster Assistance Program (DAIP) provides disaster survivors with information, support, services and a means to access and apply for disaster assistance.

Before beginning the process to apply for disaster relief, people should know their residence address, and have other important information ready, including: social security number, insurance information, damage information, pre-tax household income, permanent and temporary phone numbers, and (optionally) bank direct-deposit information including the bank name, account type, routing and account numbers.

To apply, call 1-800-621-FEMA (3362)
TTY, call 1-800-462-7585
711 or Video Relay Service, call 1-800-621-FEMA (3362)
For more, visit FEMA information or apply online at https://DisasterAssistance.gov

NOTE: Be SURE to fill out correctly with all information or you could get denied... if you need help look for those to give guidance!!!

Holiday Farm Fire Update 9/18
Springfield, Ore. –Infrared flight mapping was unavailable again last night, the Holiday Farm Fire's footprint is currently estimated at 172,510 acres and containment remains at 10%. The fire's perimeter measures more than 260 miles.

A tree faller was injured by a fallen limb while working to clear roads within the fire area. He was transported to the hospital by ambulance for evaluation and treatment. His injuries do not appear to be life threatening.

Friday's weather–An upper low will move across the fire area today and bring showers. The weather forecast continues to predict possible afternoon thunder storms with gusty erratic winds and small hail. Showers continue tonight and into Saturday but will gradually diminish.

Wildland fire crews will continue working to improve and increase fire containment using hand crews, fire engines and heavy machinery. Crews will be taking advantage of the wet weather to clear roads in the Quartz Creek area and will continue to focus along Hwy 126. Yesterday crews found and addressed a ten-acre spot fire.

Structural firefighters continue to work along Hwy 126 from Leaburg to Rainbow patrolling and clearing defensible space around houses. As conditions improve in and around buildings the need for structural resources is decreasing. This will allow these resources to return to protecting their home communities.

The Urban Search and Rescue Team will be entirely working west of Nimrod. They have completed 1,273 structural evaluations in the fire area. Structures include commercial buildings, residences and outbuildings. The US&R team is hoping to finish their work today and will be released when their mission is complete.

The Lane and Linn County Sheriff's Offices continue to work with fire operations personnel to modify evacuation zones where appropriate. For the latest information on evacuation areas, please visit: Lane County: www.lanecounty.org/mckenziefire Linn County: www.linnsheriff.org/fire_live_updates_sept_2020/ Please continue to monitor cell phones, landlines, local media and official information sources for evacuation updates. Fire managers request that the public please avoid the area. Roads are closed in the fire area and much of the Willamette National Forest (WNF) and Northwest Oregon District BLM. Road hazards include falling trees and rocks and debris.

For more information on closures on the WNF visit: https://www.fs.usda.gov/alerts/willamette/alerts-notices/?aid=61574

For more information on closures on the Northwest Oregon BLM visit: https://www.blm.gov/press-release/extreme-fire-activity-prompts-closure-bureau-land-management-lands-northwestern-oregon Fire personnel are warmed by the community's support but are unable to accept donations or use volunteers. The fire must use individuals with the appropriate qualifications.
