Mercy Ministries –
http://www.haffdetails.com/HAFF_website/Mercy_Ministries.html

Medical Clinic.
Staffed by two Haitian auxiliary nurses, this small dispensary serves the needs of the school and community three days per week. A pre-natal clinic is held one day per week.

Dental Clinic.
Staffed by American dentist Dr. Jerry Pennington and Haitian technicians he has trained, the clinic is open about five months per year. Services include cleaning, extractions, fillings and making dentures.

Eyeglass Clinic.
One day per week the public can get their eyes checked and fitted for affordable eyeglasses.

Milk Program for Malnourished Children.
A glass of protein rich, full-cream milk and a multivitamin is provided daily to local malnourished children.

Hospital Runs.
The HAFF vehicles are routinely used as a neighborhood ambulance service responding to emergencies which need the assistance of the Hospital in Pignon.

Home Visitation.
An important part of the HAFF mercy ministries is to visit people in their homes to encourage and pray for them. It is customary among the rural Christian community in Haiti to go to the home of of someone who has recently lost a loved one or has suffered an illness. Usually some words of encouragement are shared as well and Scriptural passage or two read and maybe a song is sung. It is a great way to share the love of God with a family or individual in need.

BLOG –
http://haffdetails.blogspot.com/

Cholera is now in the Pignon area. There have been several deaths in the area attributed to Cholera -- one young boy from LaPila (between HAFF and Pignon) died at the Pignon hospital. Another child from across the Bouyaha River died at the clinic in LaJeune (less than a mile from HAFF). Finally, closest to home, an elderly woman and her grandson from Bohoc just died this week. HAFF has already responded in two ways to the crisis and is preparing to respond in a couple more ways.

Eligibility any Haitian resident needing rehabilitation treatment
Bring personal reference/medical evaluation
Checks payable to Hosean International Ministries
Service Permanent

Camp de la Grace has been open since 1992 to serve the residents of Haiti. It has been a conference and retreat center for the past 18 years. Following the January 2010 earthquake it was opened as a relief shelter for up to 400 residents at a time, providing food, shelter and clothing daily from January–July 2010. Residents have been re–settled and the camp is now reopening a rehabilitation clinic with emphasis on rehab care for patients injured in the earthquake. Opening of the clinic is September 25, 2010

Services offered: Demographic Served: Disabled, Persons With Disabilities; Demographic Served: Survivors, Natural Disaster Impacted Communities; Demographic Served: Vulnerable & Marginalized Populations; Medical, Services, Rehabilitation, Physical Therapy; Medical, Services, Rehabilitation Program; Medical, Services, Rehabilitation (Trauma/Amputee Patients); Shelter, Rehabilitation Camp (For Special Needs/Disabled)

HEAS POST – UPDATE on SITE:

Date: Wed, Nov 17, 2010 at 7:26 PM
Subject: Re: Current & urgent: Pignon:
To: Karen Carr

Hi Karen,
I spent this morning in the cholera ward installing a clean water source for them to wash with. We have had 38 cases that have not been confirmed as cholera but have been treated as such. 24 cases are currently in the hospital some have gone home and some have died, I think 10 or 12 deaths. I spoke with Gyrlene this afternoon, they do have IV fluids and supplies for IV's both adult and peds, and they do have Doxycycline, but she said they would be grateful for more so they are ready as the cases continue to come in. That's what I know, thanks for checking. God Bless.

Jared

Gynecology

(OLD NOTE – POST QUAKE)

The Hospital is Operational

The Hospital Bienfaisance is one of the few hospitals in Haiti still standing and operational.

Promise For Haiti is dedicated to the holistic advancement of Haiti through healthcare, education, community development, clean water and community leadership.

Hopital Bienfaisance becomes Trauma Center

As one of the few functioning hospitals in Haiti, the Hopital Bienfaisance in Pignon is working as a regional Trauma Center. Hundreds of patients have been seen and treated and numerous complex surgeries have taken place. Because of the large number of cases and the many hours needed in surgery, there have been times when the operating rooms have been active for 24–hours straight. The additional personnel support from the US teams has been a much needed blessing.

Individuals have been making their way to the hospital via many other cities and hospitals. Patients are arriving from as far as Jacmel, Port–au–Prince, Leogane, Ouananminthe, La Gonave, and St. Michel.

We have sent a truck 50 miles to the borders in Ouananminthe to help transport patients to Pignon. (see map on website) MAF (Mission Aviation Fellowship) is now airlifting patients from Port–au–Prince to the Pignon Hospital. We are waiting for a helicopter to start bringing patients from Jacmel, which is totally overwhelmed with injuries.

(OLD NOTE POST QUAKE)

We Need Your Help

We need your help to bring healing and comfort to these people and their families. We can not turn them away.

Currently millions of dollars have been donated through the Red Cross and other national agencies, but this money does not reach the hospital or assist in caring for these patients. We need your direct support.

We will make every effort to these individuals the best we can with medical care, medicines, food and shelter.
Please take a moment and go to our donation page and give generously to allow us to fulfill our mission.
The money you give will purchase much needed supplies, food and other resources that will go quickly to those in need.

Please visit our Promise for Haiti blog.
Here you will find updates on the patients in Pignon and what our current needs are. http://promiseforhaiti.blogspot.com

If you are sending money for Earth Quake donations please Send it to

We are encouraged to see many arriving/evacuating to our community and being able to receive help here. Our local hospital, Hôpital Bienfaisance is receiving many wounded. A national congressman was injured and stopped at three major facilities on the way unable to find help. When he arrived here, he found supplies and aid.
