MEDICAL CLINICS –

International Missions Outreach has medical clinics that treat over 10,000 patients annually. Dr. James Mears, Dr. Jon Sullivan, and Dr. Tom Morgan come with assistants and medical teams to help meet the physical needs of the Haitian people. Weekly clinics are held in the central and northern parts of Haiti.

These doctors and nurses see patients with many different illnesses. We attempt to meet the needs that we can with the medicines we have. Some times we have to refer the patients to the large hospitals in Port Au Prince for things that we are not equipped to manage. Dentists perform oral surgery on their patients to relieve the pain from decaying teeth.

Services offered: Medical, Services, Visiting Specialty Teams * (ANY/ALL Types)
Campaigns: 2010 Haiti Earthquake
