Service Temporary

Wednesday Update Published May 5, 2010

Volunteers are needed for church grounds cleanup! Please come to our volunteer center offices at the Hendersonville Campus to receive an assignment. Chain saws and other tree removal equipment is needed.

We now have a 30 yard dumpster available for the community to use for flood cleanup at our Hendersonville Campus. Please use caution, and DO NOT fill over the top of the dumpster or they will not pick it up.

Long Hollow is serving as a relief donation center. Cleaning supplies only will be taken from 8am–4pm this week at the Hendersonville Campus front canopy entrance.

We are also sending out work crews daily. Contact Rob Holcomb (615.824.4006×212) for information about serve opportunities (please leave a message if we're not able to answer), or meet at the Hendersonville Campus front canopy entrance (look for the signs) any day this week at 8:30am to receive assignments. We'll mobilize groups at 8:30am every morning, but you can show up anytime during the day to help.

You can also give online now to Long Hollow's Community Relief Fund. 100% of these donations will go toward relief needs.

If you're in need or know someone who is, please contact Rob Holcomb (615.824.4006×212) or Erica Ho (615.824.4006×143). Again, please leave a message if we're unable to answer when you call.

Check the website page often for the latest information on how you can help.

About New Hope Construction

Founded in 1996 by W. Russell Meade, New Hope Construction began with the vision of providing simple, quality built, affordable Pre-framed House Packages to churches and other non-profit organizations for low-income families and our "11th House" Program donates tithe houses. Our products and services are now available to the general public. All revenue generated supports the financial requirements of our mission and Seniors at Home. NHC's Seniors at Home is for seniors with limited income who need decent, affordable housing.

Founded in 1996 by Meade, NHC is a 501c3 Corporation that specializes in the construction needs of qualified, low-income families in order to provide affordable, decent shelter to those living at or below the poverty level. The goal of New Hope is to help end sub-standard and poverty housing.

New Hope designs and manufactures complete, pre-framed house packages used primarily by Habitat affiliates and other non-profit organizations. Packages are created to meet the specific needs of the recipient family, using floor plans supplied either by NHC or the Habitat affiliate. A typical complete, materials-only package costs less than $28 per square foot of living floor space, plus shipping charges.

To obtain information about house packages by New Hope Construction, call 1-866-396-4673.
