Update release from the LCMS World Relief and Humac Care website at:

http://www.lcms.org/pages/internal.asp?NavID=11428

Anyone who is in need of recovery assistance is asked to contact Rev. Dave Buss at 225–205–1639. He is currently in Enterprise, Alabama, with a response team from New Orleans. A team of 7 arrived last night equipped with a Bobcat, ATV, and 7 chain saws. This morning they helped secure Christ The King Lutheran Church (CTK) which is located two blocks from the high school that has been featured on the news. They have moved to the city's staging area to join other volunteers. If you would like to join them please contact them at the above number. All members of CTK have been contacted by Pastor Endrihs. They are safe and their homes (even those in the most affected areas) did not suffer any major damage. The church had a small portion of its metal roof peeled away, some vinyl siding removed, and one window broken. We will share any other updates as we hear them. Please continue to pray for the pastor and members of Christ The King and for those who are answer the call to share the love we have received from Jesus Christ to those in need.

The local LCMS congregation, Christ the King, suffered some damage, but is serving as a staging area for disaster relief teams headed by Rev. Dave Buss, Southern District disaster relief coordinator. The church is near the high school and the hospital. A volunteer team from Camp Restore (New Orleans) arrived Friday morning with Rev. Buss, and is assessing the situation to determine how the existing needs can be met. Your prayers and financial contributions will help this effort. The need for further volunteer assistance is being evaluated.

Rev. Glenn Merritt, LCMS director of disaster response, is in contact with Southern District President Kurt Schultz, and has offered the full assistance of LCMS World Relief and Human Care to the Southern District, affected congregations and individuals as needs are determined.

Service Temporary

Services:

Bible Clubs/Sunday School
Development Department with Staff
Volunteer Coordinator
Prepared Meals Served
Recycling Program
Residential Program for Parolees
Regular Jail Bible Studies – Worship

Hot Meals for the Homebound:

Since 1984, the Christian Mission Center has been involved with preparing and delivering nutritious, home cooked meals twice a week to those who are homebound.

On–Site Meals:

Our cooks also prepare three meals a day, seven days a week for walk–ins and our shelter residents (See website for schedule).

Bagged Groceries:

Clients who qualify are given a generous supply of food from our large pantry. Individual needs are taken into consideration and when necessary, some training is provided on how to put the items together for a nutritious meal. Pantry foods are provided through the donations of individuals, corporations, and local organizations; an annual food drive by the Boy Scouts, food drive collections by the Post Office, and canned or boxed foods purchased in bulk from the USDA Food Bank. We use recycled paper and plastic bags for this ministry.

Emergency Assistance Programs:

–FOOD for anyone in need.
–Assistance with UTILITY BILLS that involve a disconnect notice.
–RENT or MORTGAGE assistance when individuals are facing eviction.
–SHELTER for individuals or families who are homeless.
–MEDICATION for life threatening medical conditions for those unable to pay.
–TRANSPORTATION such as bus tickets or gasoline vouchers for individuals and families who need assistance traveling out of town to hospitals, funerals, and other emergencies.
–CLOTHING vouchers for individuals and families to be used for shopping at the Christian Mission Bargain Center.
–HOUSEHOLD ITEMS such as dishes, linens, furniture, appliances, etc.
–CANES, WALKERS, and MEDICAL BEDS for anyone in need.

VOLUNTEER YOUR TIME:

The opportunities are numerous and the work is very rewarding. Each volunteer gets a complete tour of the behind the scenes operations and goes through a formal training period.

DONATIONS:

Donations of Items to include clothing, furniture, appliances, household items, automobiles, land or other property, and miscellaneous items.

Donated clothing and other goods are also tax deductible and a receipt should be requested at the time and location where goods are donated.

Donations of clothing and other goods may be delivered directly to the rear of the Store in Enterprise where they can be processed, or to the Store Manager at any of the other locations.

Pick ups for large items of large donations may be arranged by calling our in advance our main office.

There are also white wooden drop boxes bearing the mission name located in convenient locations throughout the community where smaller items may be placed at any time.

Hours Monday through Friday, 7:30–12:00 and 1:00–4:30; other hours by appointment.

March 7 – EMERGENCY INFORMATION FOR IMMEDIATE RELEASE
3/7/2007 Emergency Information

March 7, 2007–The City of Enterprise and the following departments are issuing the following press release information:

·The Enterprise City School Board met this morning and determined a schedule of classes for the affected schools. The schedule is as follows:

–All Enterprise City Schools Faculty and Staff will convene on Tuesday, March 13 at 8:00am in the sanctuary at the First Baptist Church on Main Street for an organizational meeting.

–The schools will operate on the same annual calendar, except the week of Mar 5–9 will be counted as Spring Break.

–Classes will resume Wednesday, March 14, 2007.

–Hillcrest Elementary and Holly Hill Elementary will share a building. Holly Hill students will attend classes Mon–Fri from 8:00am until 12:00 noon. Breakfast and lunch will be served.

–Hillcrest Elementary students will attend classes Mon–Fri from 1:30pm until 5:30pm. Lunch will be served upon arrival. Students will be assigned their original Hillcrest teacher.

–Enterprise High School students will attend classes at Enterprise Ozark Community College Mon–Thurs from 12:30pm until 5:30pm. On Friday classes will begin at 8:00am and go until 12:30pm. Students will be assigned their original EHS teachers.

–Details of the school's transportation scheme will be released as soon as it becomes available.

–All other area schools will resume classes as usual on Wednesday, March 14, 2007.

·The City of Enterprise Engineering Department is asking that all residents be sure they obtain permits before doing any kind of construction on their homes. Electrical permits can be obtained by calling (334) 348–2671. Residents must visit the Engineering Department at City Hall to obtain construction permits.

·The City of Enterprise remains aware and concerned for those citizens displaced by the recent tornado. The city has been in contact with FEMA and the Alabama Emergency Management Agency and understands that Federal housing assistance may be provided to qualified individuals. CITIZENS MUST REGISTER WITH FEMA BY CALLING 1–800–621–FEMA. AFTER DOING SO, THEY CAN VISIT ONE OF THE DISASTER RECOVERY CENTERS FOR FURTHER HOUSING ASSISTANCE. At the present time, FEMA does not anticipate the introduction of temporary trailers or similar mobile homes. We are urging citizens to consider temporary living arrangements such as apartments or rental properties. Once again, residents should visit the DRC's to be pointed in the right direction.
The City of Enterprise wants all citizens in need to know that we care and continue to stay in close contact with and AEMA concerning housing.

·CITIZENS NEED TO STAY OUT OF THE DEVASTATED AREAS UNLESS THEY HAVE A PURPOSE THERE. PLEASE RESPECT THE VICTIMS AND GIVE THEM THEIR PRIVACY.

·The City of Enterprise has been approved for federal Public Assistance categories A through G.

·The City of Enterprise Police Department is informing residents that all vehicles that have not been picked up as of March 7, 2007 will be moved to the Orange Parking Lot where they can be claimed beginning on Thursday, March 8.

·The Police Department is still issuing a curfew, but ONLY for the devastated areas. The curfew will be in effect from 8:00pm until 6:00am. Residents trying to get into these areas need to have a proof of identification in order to get into the areas. Businesses not in

the affected areas are free to operate as usual and residents are encouraged to function normally.

·The Police Department has been notified by the Coffee County Health Department that pillaging through garbage piles and debris poses a health hazard and is urging all residents to stay out of garbage and debris for their own safety.

·The City of Enterprise Public Works Department is urging citizens to move debris to the 10 foot easement at the edge of their driveway or yard. City personnel are not authorized to collect debris past that easement and cannot legally enter personal property to collect.

·The City of Enterprise Fire Department is asking that all residents refrain from burning unless they are cooking. In addition, residents need to stay out of unauthorized areas and allow workers to do their job.

·The City of Enterprise would like to reiterate to all citizens, businesses, and contractors that the City is not forming ANY contracts with any businesses or contractors. The City is not currently at that stage in its disaster response. Those providing services are on a volunteer basis only and will not be provided with monetary reimbursement. They need to be registered with the Lutheran Disaster Response coordinator at 208 East Watts Street in the Christ the King Lutheran Church. Any residents forming contracts with businesses or contractors need to verify that the vendor is reputable, licensed, bonded and insured. This will protect the resident and the vendor. Residents can verify local vendors licenses by calling City Hall at (334) 348–2600.

·If citizens should work with a contractor and form an agreement for monetary reimbursement, that contract is strictly between the individual and the contractor. Residents with damage need to be cautious about vendors offering fraudulent services.

·The City of Enterprise Water Department is asking that all residents who are relocating due to the tornado damage call the Water Department at (334) 347–1211, ext 2250 so that a work order can be processed to finalize your account, even if the water has already been disconnected. This will prevent any unnecessary billing. If any resident needs their water turned back on, they also need to contact the Water Department. RESIDENTS SHOULD REFRAIN PLACING DEBRIS ON FAUCETS, FIRE HYDRANTS, METERS, ETC. THIS COULD CAUSE A BREAK IN WATER MAINS.

·If any residents have insurance questions or complaints, they can call the Alabama Department of Insurance at (334) 324–6341.

·The City of Enterprise Parks and Recreation Department is accepting food donations at the Enterprise Recreation Center on East Lee Street. From there, food will be packaged and delivered to the areas where it is needed. Those wishing to make a food donation can contact the center at (334) 348–2681 or (334) 348–2682. The City Distribution Center is located on Boll Weevil Circle in the Enterprise Shopping Complex in front of JCPenney. The Center will distribute water, ice, tarps, toiletries, cardboard boxes, and MRE's to those needing assistance. The center is open from 7:00am until 7:00pm. The Westside Community Park staging area on College Avenue will remain open until further notice. A staging area has been opened at Daisy Gibson Park in the Baptist Hill area. Residents are encouraged to visit these areas for any items they may need. The City is not currently seeking clothing donations. Food items needed include: hot food donations, canned sodas, Gatorade, boxed juices, and protein and cereal bars. Citizens are also in desperate need of tarps.

·The Lutheran Disaster Response is working with Volunteer Mobile and the Office of the Governor Faith–Based Initiative to coordinate

volunteer efforts. There are currently over 580 volunteers working with The City of Enterprise. We ask that all volunteers register their names so hours can be documented to obtain matching federal funds and to ensure the safety of volunteers. Without this documentation, the City will not be able to receive federal funding for its volunteer efforts. Once again, the volunteer center is located at 208 East Watts Street behind the hospital. Citizens with unmet needs can also come to this location where they can be directed for assistance. Volunteers are being identified by red wrist bands if citizens need help.

·Currently, monetary donations are preferred. Donation can be made through the Enterprise Alabama Tornado Fund. Information can be obtained at the www.cityofenterprise.net or they can call 1–877–598–4584. Lines will be open Monday through Saturday from 8:00am until 9:00pm Eastern time. There will be a recording after hours to provide additional information. Donations can also be mailed to Enterprise Alabama Tornado Fund, P.O. Box 311245, Enterprise, Al 36331. Those donating and requesting a tax deduction need to check with one of the local faith–based organizations and see where the donation should be directed. Many organizations have funds set up and will be glad to assist donators.

·The Coffee County Emergency Management Agency is informing residents that they may be eligible for federal assistance. Affected residents must contact the Federal Emergency Management Agency at 1–800–621–3362 or on the Internet at www.fema.gov. Contacting FEMA does not automatically qualify a citizen for assistance, but callers will be issued a case number that they need to keep on file. Potential help may include: repairs of personal property for individuals and households, and low interest loans to homeowners, renters, and business owners. REGISTERING WITH FEMA IS VITAL IN ORDER FOR INDIVIDUALS TO OBTAIN ASSISTANCE.

·Three Disaster Recovery Centers are operational in the City of Enterprise. One Disaster Recovery Center is located at the Enterprise Civic Center at 711 Crawford Avenue. A second Disaster Recovery Center is located at the Pleasant Shade Missionary Baptist Church at 1891 Damascus Road. The third Disaster Recovery Center is located at the Enterprise Recreation Center located at 421 East Lee Street.

·The Disaster Recovery Centers can assist tornado victims to contact FEMA and obtain a claim number. This claim number is essential for obtaining possible assistance from the federal government.

Additionally, the Disaster Recovery Centers can assist individuals in completing the application packet provided by FEMA after a claim number is issued. These packets will be mailed to applicants following initial contact with FEMA.The Disaster Recovery Centers will operate from 8:00 am until 6:00 pm, seven days a week until further notice.

·If residents have a home that is uninhabitable, they do not need to demolish the structure and bring it to the 10 foot easement at the edge of their driveway or yard for pick–up. Rather they need to leave it standing and wait for their insurance adjuster to handle it. If the property is uninsured, they can apply for individual assistance from FEMA. The number for FEMA is 1–800–621–FEMA. The city is not responsible for any demolished structure at this point in time. The city will pick up debris gathered at the 10 foot easement.

·CenturyTel has notified the City that there are approximately 700 homes without service. CenturyTel is asking that residents exercise caution when moving debris. New lines are being pulled own in the midst of the debris clean–up.

·Anyone who does not have power and can receive power needs to notify the Alabama Power office on Glover Avenue.

·All residents MUST notify Southeast Alabama Gas District before tearing down homes or pulling up tree stumps. Tree stumps marked with a yellow X or caution tape signifies gas lines. This can be dangerous for the resident and the worker if it is not turned off. The Southeast Alabama Gas District is asking that all residents planning to remove a tree stump call 1–800–292–8525 first. This will verify the dig ticket laws. Local state laws require 48 hours after calling this number, but the office will work with residents by assisting them. After calling this number, residents must then call the SEAGD office at (334) 347–6510 or (334) 347–8878. CITIZENS SHOULD ALSO REFRAIN FROM PULLING UP YELLOW STAKES IN THE GROUND AROUND THEIR PROPERTY. THESE ALSO SIGNIFY GAS LINES AND CAN POSE A HAZARD IF PULLED.

·The American Red Cross is still serving citizens in many locations throughout the city.

·The Coffee County Health Department has a mobile unit available for those who need tetanus shots, first aid, and masks. The unit has relocated to the Disaster Recovery Center at the Recreation Center on Lee Street. They are open from 8:00am until 5:00 pm. A secondary unit is located at the Christ the King Lutheran Church. The Health Department is also asking that residents pay careful attention to their food items if they have been without power. Any thawed foods that have been at room temperature for more than two hours should be discarded. If anyone has questions about a food or refrigeration question, please contact the Health Department at (334) 347–9574.

·If a resident knows of or sees a senior who has a specific need they need to notify the Recreation center so that the South Alabama Regional Council on Aging can be notified and can provide assistance to those seniors.

·There will be a volunteer coordinator meeting on Thursday, March 8 at 4:30 pm at the Enterprise Civic Center. Volunteer groups should send their group coordinator to this meeting as a representative. This meeting will assist volunteers in assuring that the largest population of needs is met.

·Time Warner cable has informed the city that services are 95% restored. There are approximately 500 homes without power.

·The City of Enterprise Post Office has notified the city that there are approximately 300 undeliverable locations throughout the city. Residents looking for their mail should go to the post office where it will be held until the resident issues a change of address.

·The Small Business Administration has issued 597 applications. It is important to inform residents that they should visit a Disaster Recovery Center and fill out one of these forms. If you fill out the form and you are denied a low–interest loan, this does not mean you are ineligible for aid. The application must be submitted before grant opportunities or other assistance will become available. Do not throw away a return packet before reading it through thoroughly.

WHAT IS THE LIONS CLUB?

Lions are men and women who volunteer their time to humanitarian causes in their local and world communities. By conducting service projects and raising funds, Lions strive to help those in need wherever need exists. The Lions' motto is "WE SERVE."

In 1925, Helen Keller addressed the Lions at their annual international convention, challenging them to become "Knights of the blind in the crusade against darkness." Since that time, service to the blind and visually impaired has become one of the association's most significant activities. That crusade has resulted in the establishment of SIGHTFIRST, a global sight loss prevention program.

In addition, Lions participate in service activities emphasizing diabetes awareness, education, and research; work with the physically and mentally impaired; environmental issues; community welfare; international understanding; and youth.

The association was founded in Chicago, Illinois, USA, in 1917. Although the youngest major service club organization, Lions Clubs International has grown to be the world's largest. Its 1.5 million members belong to over 43,000 clubs in 185 countries and geographical locations. Lions Clubs International is headquartered in Oak Brook, Illinois, USA.

To the Lions, "WE SERVE" is not only a motto, but a definition and a philosophy.

High school students return to school
Jim Cook / Media General News Service
March 15, 2007

ENTERPRISE – It was a fine day for a reunion.

A near–perfect spring day greeted students from the storm–ravaged Enterprise High School as they gathered for the first time at the place that will serve as their new school – Enterprise–Ozark Community College.

The mood was excited and eager. Smiles could be seen. Hugs and handshakes were exchanged among teachers and students. Jokes were told, memories exchanged.

Things were getting back to normal, or as close to normal as it's ever going to get for a school that lost eight of its own in a deadly tornado.

"We're going to love each other through this," Principal Rick Rainer told the nearly 1,200 students gathered in the college gym to receive their new class assignments and instructions.

The new campus and schedule will pose challenges for the students. The familiar rhythms of school life have been replaced by a new regime. The school day now begins at 12:30 p.m. except on Fridays. Ninety minute classes are being packed into 60 minutes. The college has no bells, and teachers will have to keep time themselves. Enterprise High School had 80 classrooms, EOCC has 42, so some classes are doubling up as a result.

None of that seemed to bother math teacher Nancy Jennings as she greeted students at the gym door.

"It's so good to see these faces," she said.

Channell Palmer was just glad to be back in school.

"It helps us know everything is going to be OK, that we are going to bounce back from it," she said.

But for all the talk of renewal and getting back on course, reminders of March 1 remain. Some students came to school in casts and on crutches. Others' pain was not as visible, but no less real.

R.J. Smith occasionally wakes up at night, roused by sounds reminiscent of the tornado. Karin Lainez is coming to terms with never again seeing

a classmate she's known since fourth grade. Josh Grantham was away when the tornado hit and came home to a world turned upside down.

"When I got home I didn't have a school and I had lost two of my friends," he said.

Nevertheless, the work of putting a school back together goes on, and Wednesday's gathering at the temporary campus at EOCC was the first step on the school's long road home.

Perhaps, Rainer summed it up best.

"Enterprise High School is where we are," he said.

Checks payable to Love In Action, Inc.

Love In Action Ministries' hometown of Enterprise, Ala., was devastated Thursday afternoon when an F–3 tornado ripped through this city of 22,000, killing eight teenagers at the local high school and one elderly woman who was in her house at the time the storm hit. The destruction is widespread, effecting thousands of people. Here are the stats: 712 homes in Enterprise were affected by the storm; 161 homes were destroyed; 202 homes suffered “major devastation”, 214 homes had minor damage and 139 homes were affected in some way.

Love In Action is of course on the ground helping the people of our community, but we desperately need your help. The people in need are begging for the following: hamburgers and buns, ice (they have plenty of water), and toiletries. Nonperishable food that’s quick and easy to prepare; paper plates, paper napkins, plastic forks, spoons and knives.

The contact person is: Love In Action President Mike Shroades.

If you are mailing supplies, you can ship them to:

Mike Shroades
300 Faye Street, Enterprise,
AL 36330.

If you can make financial contributions, send your tax–deductible donation to:

Love In Action International Ministries,
P.O. Box 310131,
Enterprise, AL 36331

We will use the money to purchase these needs. We are an entirely volunteer nonprofit organization, so all of your donations will go to this outreach.

The Love In Action team is fine. We're all safe. Martha Tuck was at work when the storm hit and the tornado hit her place of work, but thankfully she is just fine. Mike and his daughter Brooke and Justin Swasey were at the high school when the tornado hit it, but thankfully they are all fine.

We need your help. The city of Enterprise need your help. Please help us reach the people in our hometown through acts of compassion, showing them the love, grace, mercy and compassion of Jesus Christ.

Services offered: Cleanup, Disaster Debris Removal, Volunteer Services; Counseling, Spiritual; Management, Volunteer Coordination Services; Meals, Congregate Feeding, Meals; Training Classes, Construction Skills Training

The Recovery Organization of Coffee County (ROCC) was formed following the March 1 tornado in Enterprise. ROCC was made up of faith–based organizations, social service agencies and concerned individuals with one common goal; to assist individuals affected by the tornado with their unmet storm related needs.

The work of ROCC was accomplished by gathering volunteers, materials resources, and monetary donations to meet the needs of those who were affected.

ROCC used damage information collected immediately after the storm by the American Red Cross Disaster Assessment Team and door–to–door surveys to gather as much accurate data as possible. This information was immediately passed on to other agencies to assist the agencies in delivering fast, accurate services. Member agencies supplied immediate emergency assistance for the first 30–days after the disaster.

On April 1, 2007, a location was established for ROCC to start the enormous task of offering long–term recovery. Using a nationally–established criteria process, ROCC agreed to process long–term recovery applications for assistance.

During the first three months ROCC sent 274 cases to the Citizen's Committee appointed by Mayor Kenneth Boswell. The Citizen's Committee was responsible for distributing the monies donated to the City of Enterprise by individuals from across the country.

ROCC provided the trained caseworkers who worked directly with clients to apply for these funds. Funding decisions were made by the Citizen's Committee and distributed through the Chamber of Commerce.

ROCC's caseworkers and consumer advocate assisted clients in applying for insurance benefits, FEMA grants as well as a variety of unmet needs specific to each client's situation.

Verified unmet needs such as household items and home repair were then presented by the caseworkers to the ROCC for monetary disbursements which were paid to the provider of those goods or services. Assistance was provided based on each individual family's needs.

Volunteer hours provided by ROCC caseworkers and their consumer advocate totaled 8,276 hours.

An estimated monetary amount based on a pay scale of $10.00 an hour would amount to a staggering $82,760.00. FEMA provided assistance to 1,383 homes in Coffee County for a total of $1,099,496.00.

ROCC is proud to announce that a large portion of funds donated directly to ROCC are being used to sponsor two homes to be built by Habitat for Humanity Groundbreaking for these homes will be Sunday, March 2, 2008.

ROCC has evolved from an unmet needs committee for a single disaster to a permanent VOAD group (Volunteer Organizations Assisting in Disaster). The Volunteer Organization Assisting in Disaster has applied for 501(c) 3 tax–exemption status. Representatives from Enterprise, Elba, Kinston and New Brocton are working together to form a countywide organized plan for the recovery process before the next disaster.

The ROCC is an example of how the community, partnering agencies and local volunteers can work together to make recovery possible in times of disaster. Now is the time to plan for the future by supporting the countywide VOAD. All groups, organizations, churches, agencies or individuals are invited to become active members of the Recovery Organization of Coffee County.

For more information, contact Hugh Weeks at 565–3129 or Mindy Collier at 393–1072.

Monday, March 12

Following the devastation of Thursday's deadly tornado that killed nine people and injured at least 120 others in the Enterprise area, the City of Enterprise is emerging from perhaps the most catastrophic blow in its history.

As the storm recovery effort intensifies, city officials are urging local residents be patient as the leaders continue meeting with federal and state officials to assess damage from the deadly tornado and to begin restoration efforts in the damaged areas.

"Enterprise has suffered one of the worst natural disasters in our city's history," said a somber and visibly shaken Mayor enneth Boswell. "The loss of human life as a result of this tornado is a tragedy. Some of our youngest, most vibrant people lost their lives, and our thoughts and prayers go out to the families of those who were lost in the tornado."

The storm, labeled as an EF3 by the National Weather Service with typical winds of up to 165 miles per hour, originated about eight miles west of Enterprise where it destroyed two homes, severely damaged several others, and obliterated three chicken houses, all near a cluster of homes on County Road 610 and overlooking the airport.

Skipping over the airport, the twister was first reported by police about 1 p.m. and local emergency systems were activated. However, within minutes the killer storm had left a deadly legacy in the city.

College Street and Baptist Hill neighborhoods were ravaged, leaving one senior citizen dead, parts of Enterprise High School in ruins and eight students dead and scores more buried in the rubble, and homes built on the western section of Dixie Drive were leveled to their foundation.

Boswell said it is still too soon after the devastating tornado for final overall assessments of damage caused by the storm, but city leaders are working with state and federal emergency agency officials non–stop. Governor Bob Riley declared Enterprise a disaster area on Friday and on his visit to the area Saturday, President George Bush declared Coffee County and Enteprise a federal disaster area.

As a result, Boswell said any resident seeking assistance needs to call the Federal Emergency Management Agency at 1–800–621–3362. FEMA will issue each caller a case number, which they should keep on file. This will be FEMA's reference number should they provide the resident assistance.

The Alabama Emergency Management Agency cannot issue vouchers to residents. The Alabama EMA is working on setting up Disaster Recovery Centers in the area. These centers are designed to assist affected residents in contacting FEMA. The DRC personnel can also provide assistance in completing application forms provided by FEMA. The public will be notified as these centers become available.

"We do not have everything completed at this point, but we are working at a feverish pace," Boswell said. "Once we get this accomplished, we expect funds from the Federal Emergency Management Agency to begin. I expect it just any day."

Boswell praised the support Enterprise has received from surrounding communities, and a host of utility repair crews in their compassion and response to the grave state within the city following the killer storm. He also asked that Enteprise citizens be patient during what he called a massive debris removal and electricity restoration effort.

"I ask the people of Enterprise to be patient with Alabama Power Company. They have mobilized 300 employees and sub–contractors to come in and get our utilities restored, and they are working at maximum capacity," he said.

Boswell said although the storm has passed, dangers still lurk everywhere and he stressed that safety should be at the forefront for everyone in the city.

The severity of the storm may have resulted in exposed live electrical lines and Boswell said although many damaged homes remain standing, it doesn’t mean they are safe. Following the advice of City Engineer Stephen McCollough, Boswell is considering having city workers post warnings recommending that residents refrain from entering these unsafe dwellings.

"It is their personal property, and they can do what they want to on it, but we are recommending they stay of these structures," Boswell said. "I would also ask citizens that if they are clearing debris with chain saws, to be extra careful around any power lines and to approach this as if the power was on and the lines charged with electricity.

"Also for safety purposes, if anyone is using generators, plug the cords straight into the generator and not the power box. Also, please place the generators in a well–ventilated area. We ask this so we will not have any more fatalities."

The Enterprise Parks and Recreation Department, in cooperation with the Coffee County Emergency Management Agency, was assigned to supply drinking water and tarpaulins. EPRD Director Billy Powell said his department will be dispersing the items in the parking lot of J.C. Penney department store near Wal–Mart. In addition, Boswell said the city is asking for donations of paper lunch sacks, Ziploc sandwich bags, apples, grapes, canned sodas, Gatorade, and individual–size bags of potato chips.

"These items will be used to pack lunches for relief workers who cannot get to distribution centers where meals are served," he said. "All donations need to be taken to the Recreation Center in Enterprise on East Lee Street."

Boswell said that although elected city officials and department heads often will be out in the city during the storm recovery efforts, city government will continue and all city offices will be in full operation.

During an emergency staff meeting with all essential personnel, the department heads reported their crews were working rapidly to ensure city amenities are restored quickly.

"I would like to thank the people of Enterprise for their absolute cooperation in keeping off the streets to allow the emergency vehicles, public works employees and volunteers to come in and do their jobs, "Boswell added. "And to the citizens of Enterprise, I would ask for your patience, but know we are working to restore all city services as fast as possible.

"I would ask the citizens that if they have debris, not to place it in the road, but beside the curb in the 10–foot easement so the bucket trucks can pick the debris up," Boswell said.

And I would ask that neighbors help neighbors. If that neighbor doesn't need help, go to the next neighbor. Please continue the common courtesy that we have seen extended to one another thus far in this city. It shows the Enterpride that Enterprise has. We will overcome this. Enterprise was great before this happened, and we will be even better before this is over."

Save A Pet Rescue, Adoption and Transport, Inc.

Animal Shelter · Open

Non–Profit
411 Meadow Lane; 101 Kentucky St, Enterprise, AL 36330
Phone (334) 255–2725 / Fax: (334) 255–3776

Organized with a small (3 person) dedicated band of volunteers who pour their hearts and souls into rescuing and transporting as many companions as our finances will allow to new homes. This is a very expensive project, Save A Pet is also at PetsMart every 1st and 3rd Saturdays, sometimes Sundays. We desperately need volunteers to work at PetsMart, make phone calls, to drive long distances, and help with fundraising, and help clean the shelter (normally houses 300 to 400 every month).

The opportunities are to learn how to care for companion animals in a shelter environment, working as a team. Dothan Animal Services (DAS) is located in Dothan, Alabama. Save A Pet is a non–profit organization. We assist DAS with Programs and Volunteers to help improve the quality of life for 6,000 animals taken in annually including aiding with; adoptions, care and feeding of animals while housed within DAS, transfer programs, education and community outreach programs, foster programs, spay/neuter programs, volunteer management, media relations, veterinary care, vaccination and medication costs, and driving to other shelter locations to rehome our overflow.

Skills
We welcome everyone interested in helping improve living conditions for companions at the Dothan Animal Shelter. There are several projects, and everyone desiring to help save a life is needed. These skills would be very useful: communicating with public for fund raising and adopting pets; marketing, web design and maintenance, feeding, and cleaning kennels, making phone calls. Bring your interest, we'll provide the project. If you have a genuine desire to work with companion animals join our team, bring your ideas, we listen.

Disaster Relief

Help for Our Neighbors
Thanks to many people from near and far, great things have been accomplished through the office of Coffee Baptist Association in regards to Disaster Relief. So much has been done to help feed people, repair buildings, deliver food, and try to meet the needs of victims of the March 1st tornado.

Rev. Cliff Quincey and the members of New Home, Dr. Tony Dye and the members of Bethany, along with Rev. B.P. McCollough and Mr. Dean Craig are building a new home for Mrs. Alberta Bass. Mrs. Alberta's West Watts Avenue home had to be demolished and removed as a result of damage from the tornado.

Rev. John McCrummen and Open Door members are rebuilding a business for Mr. Patrick Kelley. His business was also destroyed in the tornado.

Our hearts rejoice when we think of the many people who truly show a servant's heart to the people in our area who are in need.

Coffee Baptist Association consists of 50 Southern Baptist congregations. Each church is autonomous in government under the lordship of Christ, associated in a fellowship working together to serve mutual needs, to minister in Christ's name, and to reach people for the Lord. About half of the county's population are connected to CCBA churches.

The Coffee County Baptist Association was formed in 1908 when the Pea River Association (1877) and the Haw Ridge Association (1889) merged. Actually, both associations already had changed their names and were known as Coffee Baptist Association, Coffee County Association, or Coffee County Baptist Association.
