Dozens of homes destroyed and many more in the line of fire.

Our neighboring Creek County is experiencing tragic fires which have destroyed dozens of homes and structures. Many pets are displaced and will need our help. The families want their pets but need them to be in a safe place until they can make a plan for their future.

Please help us if you can foster a dog or cat for a few days, or provide emergency food or supplies. Crates, carriers, dog beds, toys, treats, anything that can be used for this effort is appreciated and urgently needed.

Donations can be brought or sent to:

Oklahoma Alliance for Animals/Emergency Fire Relief

The state gives away almost four million dollars to Oklahoma's rural fire departments.

The grants are targeted at Oklahoma's smallest communities and fire departments in the most desperate need of money.

If divided equally, each rural fire department would get less than $4,500 dollars.

While that money will help, it may not be enough for some of the rural departments that say they've already burned through their budget for the year.

These grants are annual grants given out about this time and while they are much needed and appreciated they will not cover the operating expenses of the last couple of months for most departments. Brush trucks because of their nature are some of the most abused apparatus in the fire service not because we try to abuse them but because they operate off the road.

Consider Making a Financial Donation To Your Local Volunteer FD.

Re–posted from the Silver City Volunteer Fire Department 8/16/12 (LTel:

To correct a rumor that's going around, Silver City Fire Department is NOT dissolving due to financial problems, lack of volunteers, or any other reason. We're still here, still responding, still making plans for the future, still paying our bills on time, and we have added six people to our roster during the past 30 days. Money gets tight from time to time, but we've always managed to squeak through.
