August 18, 2007 – 11:39PM
By BRAD DOHERTY, The Brownsville Herald

Some of the 100 school buses from Dallas County Schools arrive Saturday, Aug. 18, 2007, at the Alamodome in San Antonio. The buses are part of the emergency plan in preparation for Hurricane Dean evacuations from the Valley and south Texas.

Cameron County Judge Carlos H. Cascos is expected to order a mandatory evacuation of the county sometime today or on Monday.

A voluntary evacuation of the county was ordered on Saturday as well as a mandatory removal of high profile vehicles from the Laguna Madre area.

The orders are due to the threat Hurricane Dean, a category 4 storm, poses to the South Texas coast.

The storm is expected to make landfall sometime between Wednesday night and Thursday at noon between Mexico and the Rio Grande Valley, according to the latest projections.

Brownsville Mayor Pat Ahumada issued a voluntary evacuation of Brownsville residents as well encouraging residents to register with the 2–1–1 system by noon today.

The city opened its Emergency Operations Center on Saturday. The county could open its center sometime today.

Cascos said.

The county will open its San Benito hub at 8:30 a.m. on Monday for Cameron County residents who want to be evacuated out of the Rio Grande Valley, but do not have the means to do so.

There are several pick up points in the county where residents can meet and be transported by bus to the San Benito location. The buses will transport residents to the San Benito location every 30 minutes, Cascos said.

Some of those locations include Ben Brite Elementary on Browne Road, Lopez High School on Dakota Road, Laureles–Liberty Elementary School in Los Fresnos and Las Yescas Elementary in Las Yescas.

The first 5,000 evacuees will be sent to Laredo with the overflow being sent to San Antonio.

“They are not going to be checking anything (at the hub,) no type of residency requirements are needed. Anybody can go,” Cascos said.

EOC stands for Emergency Operations Center. Day–to–day operations are conducted from departments and agencies that are widely dispersed throughout the City. When a major emergency or disaster strikes, centralized emergency management is needed. This facilitates a coordinated response by the City Manager, Office of Emergency Management staff and representatives from City and non–City organizations who are assigned specific emergency management responsibilities.

The EOC operates under the nationally–recognized Incident Management System (IMS). An EOC provides a central location of authority and information and allows for face–to–face coordination among personnel who must make emergency decisions. The following functions are among those performed in the City of Corpus Christi's EOC:

Receive and disseminate warnings.
Develop policies.
Collect and disseminate information from and to the various EOC representatives and, as appropriate, to County and State agencies, military and federal agencies.
Prepare intelligence/information summaries, situation reports, operation reports and other reports as required. Maintain general and specific maps, information display boards and other data pertaining to emergency operations.
Continue analysis and evaluation of all data pertaining to emergency operations.
Control and coordinate, within established policy, the operations and logistical support of the departmental resources committed to the emergency operations.
Maintain contact with support EOC's, other jurisdictions and levels of government.
Provide emergency information and instructions to the public. Make official releases to the media and schedule press conferences as necessary.
RESPONSIBILITIES DURING AN EMERGENCY

Directed by the City Manager, the Office of Emergency Management has these responsibilities during an emergency:

Organize, staff and operate the Emergency Operations Center (EOC).
Operate communications and warning systems.
Provide information and guidance to the public.
Maintain information on the status of resources, services and operations.
Direct overall emergency operations.
Obtain support for the City of Corpus Christi and provide support to other jurisdictions as required.
Analyze hurricane information and other hazards and recommend appropriate countermeasures.
Collect, evaluate and disseminate damage assessment and other essential information.
Provide status and other reports to Nueces County Office of Emergency Management and the State of Texas Division of Emergency Management.
Ensure that the procedures outlined in the City of Corpus Christi's Emergency Preparedness Plan are carried out.

Mission

The City of Corpus Christi Office of Emergency Management's (O.E.M.) mission is to minimize loss of life and personal injury, damage to property and the environment from disasters. We strive to accomplish this through a continuing program of outreach, coordination, planning, training and exercising, for "all hazards" and for all four phases of emergency management –– mitigation, preparedness, response and recovery.

Port San Antonio and Its Role in the Upcoming Weather Events:

Port San Antonio has been designated as the Regional Evacuee Reception Center by the State of Texas and we are the site for the Alamo Regional Command Center. The Command Center will be headquartered in Building 1537. The primary emergency response agencies for the state, county, city and FEMA will all be located here.

Port San Antonio's role is different than in the past; we will not be sheltering evacuees here. Instead, we will receive evacuees by buses and privately owned vehicles here. The vehicles will then be disbursed to the appropriate shelters around the city.

What does this means for the personnel of tenants of Port San Antonio?

First, there will immediately be more vehicular activity.

120 hours before the hurricane–type weather arrives on the Texas coast, representatives of the emergency agencies will establish offices in Building 1537

48 hours before the forecasted landfall, the coastal cities will begin their evacuation and we will have vehicles arriving here within several hours.

All employees working at the Port are encouraged to use only the 36th Street entrance to come to work. When exiting the Port 36th Street and General Hudnell may be used. Please advise visitors and vendors of this information.

All employees who work here are asked to place a sign, at least 51/2 x 81/2, stating where they work to ensure quick access to their workplace. Police will be stationed at the entrances.

The San Antonio Police Department will control the entrances and exits to and from the Port. All employees and vendors will be able to come and go as safety permits.

The Incident Command Center will be in regular communication with the media to alert the area to important updates. As information affecting the Port becomes available we will post new information on the website. Naturally, the best sources of current emergency communication will come from local broadcasts.

EVACUATION INFO: Buses will collect evacuees from pick–up sites starting 8:30AM Monday
Valley Morning Star

People evacuating voluntarily from Cameron County who do not plan to drive their own cars may go to pick–up points around the county to be picked up by school buses, Precinct 4 Commissioner Edna Tamayo said.

School buses will begin picking people up from collection points at 8:30 a.m. Monday and will stop at those points every half hour, she said.

County and city officials will meet today at the courthouse in Brownsville, Tamayo said.

Cities are responsible for coordinating with school districts to organize pick–up points for city residents, Tamayo said. Those pickup points will be announced on Sunday, she said.

Evacuees from rural areas will board school buses that will take evacuees to the central collection point at the new Cameron County annex building (the former Levi?s factory) at the northbound Expressway 77/83 frontage road and Oscar Williams Road in San Benito.

There the passengers will be transferred to larger buses being sent by the state of Texas. After each large bus is filled, evacuees will be taken to shelters in San Antonio.

Pickup points for evacuees from rural areas are:

Arroyo City fire station
Las Yescas Elementary School
Laureles Liberty Elementary School
Brownsville Lopez High School
Ben Brite Elementary School, Brownsville
Rangerville Elementary School
La Encantada Elementary School
El Ranchito; Santa Maria High School
Riverside Elementary, La Paloma

Bus evacuation will continue every half hour all day Monday, Tamayo said.

HURRICANE SANDY: OPERATION BLESSING PREPARES DOMESTIC DISASTER RELIEF TEAM IN VIRGINIA

Group Will Pre-Stage In Virginia Beach In Case Local Effort Needed, With Eye To The North

VIRGINIA BEACH, VA (October 26, 2012) - The domestic disaster relief team of Operation

Blessing International (OBI) is preparing for relief efforts as Hurricane Sandy sets its course on the East Coast.

The team is pre-staging equipment, staff and supplies at its Virginia Beach headquarters in case relief efforts are needed in the Hampton Roads area, with the possibility of a deployment in the north should that be needed. The equipment includes:

––Mobile Kitchen – Capacity to feed approx. 2,000 meals per day with enough provisions on board for 6,000 meals before new supplies are needed
––Mobile Command Center with communication technology such as VHF radio, satellite,
satellite news feed, and a base of operations for the team
––2 Construction Trailers with tools and safety equipment to equip our construction foremen and volunteers with the tools needed for debris removal, tarping roofs, flood clean–up and gutting homes
––Box Truck with 100 cots, tarps and firing strips for 50 homes, water, MREs, and kerosene
heaters
––CAT 924 Loader for debris removal
––100 heaters in the event that cold weather comes in during power outages
––OBI's fleet of Semi–Trailer Trucks (75 trailers and 18 power units) from its Hunger Strike force are also standing by and will be utilized as needed
––Shower Trailer for volunteers

The team, under the direction of Jody Herrington–Gettys, director of U.S. disaster relief, will monitor the storm over the weekend and decide on Sunday where to deploy based on the projected track of the storm. "Our first priority is to serve the Hampton Roads community," said Herrington–Gettys.

Should deployment be needed further north, however, OBI has already planned with partner organizations in NY, NJ and Rhode Island.

Operation Blessing's Haiti office is currently responding to massive flooding in that country after then–Tropical Storm Sandy dumped upwards of 12 inches of rain. Today, OBI will deliver food, water filtration units, chlorine, and toiletries to 55 families that lost their homes due to severe flooding along the river Grise near Croix de Mission, Haiti.

Who we serve
World Vision helps transform the lives of the world?s poorest children and families in nearly 100 countries, including the United

States. Our non–profit work extends assistance to all people, regardless of their religious beliefs, gender, race, or ethnic background.

Why we serve
World Vision is a Christian relief and development organization dedicated to helping children and their communities worldwide reach their full potential by tackling the causes of poverty.

Serving the Poor in Nearly 100 Countries

Where We Work Around the World

World Vision is present where human needs are greatest ? and where hearts can be moved to help the poor. Each year we build on our effective work from the past, with the vision of helping every child experience life in all its fullness.

In nearly 100 countries around the globe, World Vision joins with local people to find lasting ways to improve the lives of children and families in poverty.

Africa, Europe & The Middle East, Asia & The Pacific, The Americas & Caribbean

The number of natural disasters occurring world–wide has increased rapidly in recent decades. In 1984 there were 35 recorded natural disasters – that number more than tripled by 2002, with just over 100 being recorded by the United Nations.

World Vision has enhanced its disaster mitigation and response efforts accordingly, working alongside many other agencies and NGO's committed to addressing human needs resulting from suffering caused by war and internal conflict, food insecurity, displacement, volcanic eruptions, sever drought, fires, earthquakes and floods.

In 2006, World Vision implemented major emergency responses in 63 countries. Dozens of smaller responses were also carried out.

In the past few years, World Vision has launched large–scale relief operations in the southern Africa region, Ethiopia, Liberia, Sudan, Iran and for the Asia Tsunami.
