The GSDMA has been constituted by the Government of Gujarat by the GAD's Resolution dated 8th February 2001. The Authority has been created as a permanent arrangement to handle the natural calamities.The objectives for constitution of this authority have been clearly spelt out and precisely defined in para (2) of the said Resolution.

These are as follows: –
1. To provide relief to the people for the loss incurred due to natural calamity and to under take rehabilitation and reconstruction as also social and economic activities or restoration of the situation
2. To make efforts to minimize the impact of natural calamities through precautionary programmes and schemes.
3. To analyze and study the reasons of natural calamities and to suggest the remedies to avoid or minimize the effects of such natural calamites.
4. To make the best use of the funds, grants, donations, assistance received from Government of India and other foreign countries or from any other institutions/persons for prevention of such natural calamities or for handling the after–effects; to obtain loans and make proper use of the funds received by the Authority.

The headquarters of this authority is at Gandhinagar and its jurisdiction is throughout the entire state of Gujarat. It is supposed to function as an autonomous body. Its activities are non– profitable and is duly registered as a charitable institution under the Societies Registration Act, 1860, with the competent Authorities. The Authority works under the aegis of the Rehabilitation and Reconstruction Division, a separate cell created under the GAD.

Islamabad, Pakistan, 14 June 2023 — Cyclone Biparjoy, a storm with 170 kmph winds, is set to make landfall in coastal areas of southern Pakistan on Thursday, risking the lives of dozens of communities in Sindh and Balochistan that are still yet to recover from last year's floods that claimed the livelihoods of hundreds of thousands of people.

The International Rescue Committee (IRC) is conducting an emergency needs assessment of the affected communities, and preparing to deploy emergency teams to deliver humanitarian assistance. This assistance will include mobile health teams equipped with critical lifesaving supplies such as medicine and first aid equipment, and the delivery of non-food items such as water and sanitation supplies and dignity kits for women.

Shabnam Baloch, IRC Pakistan Director, said,

"The communities in Sindh and Balochistan have already lived through the unimaginable in the wake of last year's devastating floods, followed by heat waves this year. Families who have lost family members, homes and sources of income are now facing yet another threat.

"IRC teams are preparing to deploy an emergency response in the same communities that were ravaged in July 2022. In response to last year's floods, the IRC reached around 1.6 million people with support ranging from cash assistance and healthcare, to emergency shelter and water and sanitation assistance, and we stand by to scale up this response in the face of Cyclone Biparoy.

"This cyclone is a clear symptom of climate change, and the latest in a line of extreme weather events to impact communities in Sindh and Balochistan. If this continues, it is likely that we could see an increase in internal displacement and this could have far-reaching implications on the future of Pakistan."

The IRC's work in Pakistan
The International Rescue Committee (IRC) began operations in Pakistan in 1980 in response to the growing number of Afghan refugees.We currently have over 1,500 staff and volunteers, and our teams delivered food, shelter, safety, primary healthcare, education, vocational training, water supply systems, sanitation facilities, and other essential services to the Afghan refugees and host communities. Since then, the IRC now serves a wide group of marginalised, vulnerable, and impoverished groups across the country with public health, environmental health, education, disaster risk reduction, community services, and livelihoods support. In 2020, our teams met the needs of 43 million people under its COVID-19 emergency response. During the floods, the IRC delivered emergency assistance both directly and with partners in Balochistan, Khyber Pakhtunkhwa and Sindh. Services have included the distribution of emergency non-food items, dignity and hygiene kits, food baskets, and the establishment of medical camps and safe spaces.

Islamic Relief teams up with local NGO to help the people of Japan
24 March 2011

.

Islamic Relief has teamed up with a Japanese NGO in to get help to vulnerable people struggling in the aftermath of an earthquake and devastating tsunami.

The full scale of the disaster is now starting to emerge, following a devastating tsunami which swept the north–east of Japan after a massive earthquake struck just off the coast. The tidal waters swept away homes, livelihoods and infrastructure, and a nuclear emergency has been declared with explosions at least one power station. More than 200,000 people were evacuated from the area, and 300,000 people had to flee their homes across the country. Immediate humanitarian needs are water, food, and blankets.

Since the earthquake on 11 March, the current confirmed death–toll has risen to 9,000. More than 12,500 people are still missing. With damage to road networks and transport infrastructure, movement around the country is still severely restricted. Japanese people also face the threat of further earthquakes and fears over radiation released by damaged nuclear–power stations.

Islamic Relief is now working with a Japanese NGO to get vital aid and humanitarian assistance to vulnerable people. The charity, which is called JEN, has worked with Islamic Relief in Pakistan and Iran and has extensive experience in emergency response. JEN has distributed cooked food, hygeine kits, food staples and water tanks to 12,000 people at Takasago school – currently used as an evacuation centre – and is also identifying the needs of evacuees in the districts of Aoba, Wakabayashi, and Miyagino.

Please support our efforts to help the people of Japan: Donate to our emergency appeal today.
