Service Permanent

12/15/10:

Per Holli Griffiths, Logistics Coord. for J/P HRO enough supplies were sent to Cayes–Jacmel (in the hands of MSPP) to set up two CTC's. The Marigot supplies are supposed to come in today. Patrice Tallyrand, Dr. Jorge and Holli are now coordinating the logistics of these deliveries and Patrice will make certain the sites get the supplies they need to operate.

LTel

12/13/10 Email from Patrice Talleyrand

Another contact that can be used for Marigot is also cuban Doctor Jorge or miss Andrenèse Juste from the Marigot Health center).

As mentioned in previous message, the Marigot population has provided the land for the CTC.

Cubans and Miss Juste have approved it. Water has been installed as well as electricity.

Mabouya has rented a small house right accross the street for the 9 cuban doctors who will manage the center and to keep supplies.

Supplies can be kept at Mabouya or at CDI Cayes jacmel while the 9 cubans are being installed in Marigot which should be today at most.

The Marigot comittee has split the area into 45 parts, each with one person in charge of informing the population about the disease and proper preventive measures. Each should also carry a minimal amount of ORS specially in the section communales further away.

The list of needs sent last week by the Cuban doctors is as follows and the same list can be used for Marigot.

– GUANTES DE LATEX MEDIDA 7 y 8,
5 CAJAS POR 100 UNIDADES,
– SALES DE REHIDRATACION ORAL, 9000 sobres,
– RINGER'S LACTATE 2500
– DOXICICLINA DE 100 MG,7000 TABLETAS,
– TETRACICLINA DE 250 MG, 7000 TABLETAS,
– PARACETAMOL DE 500 MG, 7000 TABLETAS,
– HIPOCLORITO EN TABLETAS 7000,ESTAS ULTIMAS PARA CLORAR EL AGUA DE BEBER

ENGLISH TRANSLATION:

Latex gloves, Medium, 7/8: 5 cases of 100
ORS, 9000 doses
Doxicycline, 7000 tablets of 100 mg
Tetracyclyne, 7000 tablets of 250 mg
Paracetamol (Known as Acetaminophen in the U.S.), 7000 tablets of 500mg
Aquatabs 7000 tablets
Ringer's Lactate 2500

12/12/10 Email from Patrice Talleyrand to Lionel Pierre Dated 12/6/10
The situation has worsen since yesterday. At the meeting today in Marigot, they spoke of about 40 to 50 cases. The corpses are not properly disposed of.

Doctor Montout and Misses Juste have activated a network of community health agents throughout the commune which they call "point d'approvisionement" where they provide ORS to the sections communales. They are under supplied but the will is there and if they find some support, it will make a world of difference.

We still did not get all the info from the for Cayes–Jacmel cuban doctors, they seemed overwhelmed all day but tomorrow we will meet with the mayor to obtain a location for the Cayes Jacmel CTC.

We are ready at the Mabouya Foundation to act as a hub for the reception and the distribution of supplies but we are doing our best to connect you with all the communes directly so that the supplies reach the localities faster.

Michino (Location – Not Facility Name) ~ "CTU NEEDED" (MSF Spain/Foundation Mabayou)

Medical Facility · Open

(PER DENNIS SHERROD) This is within 1/8 to 1/4 mile. These coordinates are actually the helo landing Zone, but the trail and village is very close by.; 18 15 10.63N, 72 22 30.66W, Michino

Service Temporary

Update Re: Sud Est Mountainous Region, with specific mention of Michino
Thursday, January 27, 2011 3:00 PM
From: "James Wilson"
To: haiti–epidemic–advisory–system@googlegroups.com

Dear HEAS,

With tremendous thanks to MSF–Holland, MSF–Spain, and PAHO, we have been told MSF has performed several recon missions in these areas and have not found foci with significant case loads. MSF–Spain indicated they are specifically monitoring Michino and intend to deploy there via UN helo.

We have also been informed that MSF–Holland of the following:

"… We are training next week in Kenscoff (non–medical staff from 5 sections around that area; nouvelle pourraine, Bon Gars, Belfontaine, 4e Grand Fonds and Sourcailles) in order to sensitize them about cholera and provide ORS."

Specific thanks to Sylvain, Ellen, and Pablo for your rapid response, as always!

Cheers,
Jim

Just talked to MSF spain (marc) who will:
Send local personel on recon mission tomorrow to also do sensibilisation in the area.

He also promised to send ORS

Thank you

Re: Critical Situation in Michino

I have spoken with Patrice.

I was able to locate a good landing zone near Michino. The problem is that the workers going there have no GPS and are not familiar with their use.
Patrice feels it would be best for whomever brings the needed supplies to contact him and the people will meet them in Cayes Jacmel and take them by Rhino.

Please contact me or Patrice off board and we will give you the number to work out times and further details.

There is no specific medical facility in Michino.

A "clinic" was opened with a nurse some time ago by the population. The nurse goes that every week end. So I believe there is a small house.

Coordinates is difficult cause I am not there physically and my guys up there have no clue about GPS.

No I have not checked with MSF, I will call them now to ask if they can help.
I had just contacted Jorge (cubans who can not help because they are in macary now)

Patrice

HEAS Post/Cholera Alert 1/27/11:

Quoting James Wilson:

Thanks Patrice,

I am copying the HEAS in the hopes MSF will see this report. As you and Lionel have pointed out, cholera has penetrated the mountains north of the paved coasted road corridor between Jacmel and Marigot, with devastating outcomes due to lack of medical capacity that existed before the cholera epidemic. A comprehensive recon and assessment of this mountainous region is urgently needed.

Cheers,
Jim

On Jan 27, 2011, at 10:33 AM, Patrice Talleyrand wrote:

Critical Situation in Michino Cayes Jacmel:

• 6 cases this morning
• Population has called for vehicle to come pick up cases
• Access to Michino is very difficult and takes a long time
• MINUSTAH has tried during election but FAILED to identified Helicopter landing area
• Michino is on top of water table
• No disinfection was done

Actions taken:

• We have created a comity through local Grass root orgs and split the area into 3 zones:
• We are providing CLOROX to the 3 zones for disinfection

Needs:

• ORS packages to distribute to the people responsible so Cases do not have to expire while waiting for vehicle from Jacmel.
• It would probably be better if UTC was installed

Zone 1:

Localities of (Malvoisin, La forgue, La guerre, Delande, Georges)
person in charge called Pierre Louissaint • 3732 4682

Zone 2:

Localities of (Nan Galette, Jazon, Kay selle, Kako)
Person in Charge called Pierro Lanane • 3637 8332

Zone 3:

Localities of (Reserve, Doco Dilik, Belotte)
Person in Charge called Lormand slanel • 3836 3280
