Logic School [online experiment for tech workers]

"Logic School is an online, experimental school for tech workers produced by Logic Foundation with support from Processing Foundation.
Our curriculum draws from the worlds of activism, design, and software engineering. Our program cultivates critical thinking about technology and its impact. We are a community built school.

Logic School has a grassroots theory of change. We believe the people who make the tech industry run—its workers—have the power to not only transform it, but to build and imagine new technologies.

At Logic School, we're guided by the idea of "underlying conditions" – what are the underlying conditions that have grown the world we live in now? What are the underlying conditions we need to create, to live in the world we want? We believe technology (from the distributed web to ancestral technologies) has a role to play in answering these questions."

"Indigenous Mutual Aid is an information and support network with an anti–colonial and anti–capitalist framework. We exist to inspire and empower autonomous Indigenous relief organizing in response to COVID–19.

We seek to grow the organizing of this effort into a collective hub of organizers from throughout what we recognize as Turtle Island.

As our communities have a deep history with organizing to support each other in times of crisis, we already have many existing Mutual Aid models to draw from. This looks like a small crew coordinating their relatives or friends to chop wood and distribute to elders. It looks like traditional medicine herbal clinics or sexual health supply distribution. It looks like community water hauling efforts or large scale supply runs to ensure elders have enough to make it through harsh winters. Basically any time individuals and groups in our communities have taken direct action (not through politicians or indirect means) and supported others, not for their own self–interests but out of love for their people, this is what we call “mutual aid.”
Our concept of mutual aid does not exclude our non–human relatives or the land. For more info on what Mutual Aid is (and isn’t) please see “Let’s Talk Mutual Aid” by Regan De Loggans. Check out our piece here and these too:
