Info/Hotline · Open

LTRC, VOAD

Congregational Christian Church of American Samoa (CCCAS) compound at Kanana Fou., Kanana Fou, AS

Phone	684–699–9809
Web	www.asvoad.org
Serves	American Samoa
Eligibility	Impacted by the AS Tsunami
Checks payable to	ASVOAD
Service	Temporary

In collaboration with other community agencies on the ground, ASVOAD volunteers have been engaged in disaster response and relief since the incident occurrence. The soon shift will give concentration to recovery.

For those persons needing assistance, or have any queries with references to the services that have been made available for our community, please CALL our ASVOAD office for more details ––– (684) 699–9809.

SOURCE: Samoanews.com

Press Release December 2009
What is ASVOAD and why is it important to know about them?

After a period of inactivity, the local American Samoa Voluntary Organizations Active in Disaster (ASVOAD) reconstituted immediately to foster necessary services to the people affected by the tsunami–earthquake disaster of 29 September. ASVOAD began to bring in new members and opened invitations to faith–based, voluntary, and non–profit organizations to spearhead relief and recovery efforts.

The Congregational Christian Church of American Samoa (CCCAS) has established and donated administrative support for ASVOAD, providing workspace and telephone lines. The CCCAS has made available the grounds, staff, and resources of the Church to accommodate the needs of the ASVOAD. The ASVOAD meetings are generally held at the CCCAS compound which also houses the multi–agency donation warehouse (MADW) and facilitates collection, sorting and distribution of in–kind donations.

Reverend Samuelu T. Tialavea, Jr., General Secretary of the CCCAS currently serves as ASVOAD's Chairman. The remaining executive officers are Vice Chair, Mr. Jim Mahoney, President, Rotary Club of Pago Pago, American Samoa; Secretary, Mrs. Faaalu Faletoese Iuli, Executive Director, American Samoa Coalition Against Domestic and Sexual Violence; and Treasurer, Dr. Falema'o "Phil" Pili, American Samoa Community College's Chief Financial Officer.

Other volunteer staffing supporting the executive board are: National VOAD (NVOAD) Point of Contact, Mrs. Evelyn Sa'o–Stevens from the Pualele Foundation; Public Information Officer, Pastor Vickie Haleck, Founder & Executive Director, Teen Challenge; the Territorial Voluntary Agency Liaison (TVAL) & Donations Coordination Team Chair, Mrs. Easter Asi–Bruce, Program Manager, American Samoa Disaster Relief and Recovery Program; and the FEMA VAL, Mr. Charles Craig.

The unique partnerships of ASVOAD and NVOAD enables the leveraging of resources providing the capability to implement the Long Term Recovery Plan (LTRP). The italicized text in the following paragraphs are snapshots from the recently published LTRP detailing ASVOAD activities that have already been accomplished.

The Mennonite Disaster Service (MDS) and the Christian Reformed World Relief Committee (CRWRC) established a strong working relationship with the CCCAS to begin the groundwork for long–term recovery efforts. The MDS has secured housing quarters at one of the CCCAS housing units.

The Church of Jesus Christ of Latter Day Saints (LDS) responded opening their church halls as shelters. LDS members transported evacuees to nearby shelters, delivered food and water, as well as securing durable medical equipment. The LDS brought in 15 wheelchairs, 20 crutches, and 2 walkers.

FEMA supported ASG by providing a short term housing kit consisting of a two–person tent (Yurt), with a liquid fuel two burner stove, fuel container and fuel lantern and flashlights. 1200 tents were distributed to 657 families. American Red Cross (ARC) also complemented this with a cooler that contained comfort kits, work gloves, hammer and flash lights along with cots. Off–island groups distributed lots of food and supplies.

World Vision, with the Alofa Tunoa Ministries has been in the villages with donations of food, water and personal care packages. The Southern Baptist Convention Disaster Relief provided purified water at the disaster sites to families with 5–gallon water bottles; they bought the islands entire stock.

The ARC, through the national organization, brought 87 volunteers in from their Disaster Services Human Resource (DSHR) system. ARC also had Americorps volunteers' plus 273 local volunteers. ARC distributed tuna, powdered milk, crackers, spam,

sugar, flour, potatoes, onions, rice, 446 cases of dry ramen noodles, 8,721 cases of water and 99,490 snacks. Additionally, ARC strategically distributed by implementing the “Hot Shot” approach, 2,205 blue tarps, 548 sleeping mats, 12,500 trash bags, 443 empty 50–quart coolers and 120 pallets of bulk supplies from Hawaii. ARC was able to serve 65, 288 persons through its bulk distribution efforts.

Catholic Charities USA (CCUSA) also brought in volunteers to support the on–island affiliate Catholic Social Services (CSS). CCUSA also gave $10,000 to CSS.

Save the Children (STC) also distributed 270 kits of school supplies in addition to setting up Child Friendly Spaces at several locations including the DRC.

Tzu Chi Foundation (TCF) distributed debit cards to families identified by ASG. TCF provided $89,400 to 481 families. In–kind donations to various local agencies and to ASG, including food and clothes have also been distributed.

Convoy of Hope and Hands On Disaster Relief groups were on the ground assisting in the relief efforts and bridging relations with ASVOAD to help with recovery initiatives.

Feed the Children one 40–foot container and one 20–foot container, containing 672 mid–weight sleeping bags, 504 duffle bags, 2,304 four–person Coleman dome tents w/carry bag and 5,760 flashlights w/o batteries.

Five Community Resource Sites (CRS) were established in the harder hit villages by ASVOAD through coordination by CCUSA and served as points of distribution for in–kind goods to all villages. The CRS were opened for five days when first launched.

To recap, what is ASVOAD? In a nutshell, ASVOAD is comprised of a diverse and talented mix of experienced, humanitarian, compassionate Samoans anxious to help our island heal by helping to rebuild homes and lives. Why is it important to know about them? The composition of their organization, partnership with American Samoa Disaster Relief & Recovery Program and the national resources at their fingertips gives them the most strategic advance in quality expedition of implementing recovery efforts as outlined in the recently published LTRP.

The Long Term Recovery Committee (LTRC) recently formed as well as sub–committees to begin rebuilding homes and lives for our disaster survivors. Look for follow on articles pertaining to the recent creation of the LTRC and sub–committees.

For more information please visit them online: http://www.asvoad.org or contact them at 699–9809.

AS VOAD looking for wheelchairs and crutches

The American Samoa Voluntary Organizations Active in Disaster is appealing to any families with wheelchairs, bedpans and crutches that are not being used, to please donate them for tsunami victims.

Pastor Vickie Haleck, the public relations Officer for VOAD says many individual who were injured in the tsunami are in need of these equipment.

She says the organization has been able to provide for some victims but there’s still a waiting list. Today the AS VOAD is receiving 15 wheelchairs and crutches donated from Samoa. Haleck says these were arranged by the Church of Jesus Christ of Latter day Saints.

Pasor Haleck thanked the LDS church and the people of Samoa who donated the equipment even though they were also affected by the tsunami.

She said they have already lined up people to receive the wheelchairs and crutches from Samoa and they still need more. If you’re able to help please call VOASD at 699–9809 and 254–0554

ACTS World Relief
February 9 at 8:58pm Report
A brief update as ACT World Relief as we continue to build and strengthen our presence here at Operation Hope for Haiti. Our 'head quarters' are officially across the street from the Hopitale Adventiste d'Haiti. The main base operates the ambulatory medical clinic, 4 mobile clinics that service thousands each days including numerous orphanages, volunteer area, food service area, and maintenance support that includes the hospital. We have formed some wonderful relationships with so many different relief groups and individuals that have joined the efforts here. May we continue to serve with joyful and humble hearts in God's glory each day.

Haiti Disaster Relief – ACTS World Relief
www.actswr.org
ACTS and Operation Hope, an NGO of Haiti, have united in serving together. Dr. Eddy is the brother of Dr. Archer, the hospital medical director, where we began. ACTS, a long–time partner has fed 20,000 hot meals for hospital patients and refugees to date. ...

Main record for ACTS Haiti at:
https://reliefdb.org/shelters/2767

Organizations:

The component organizations under this umbrella are:

Neg Konbit Intl
Civil League of Haitian–American Voters
Unity Force & Development for God's Children, Inc.
Florida Civil Rights Association
OIDE
Haitian–American Support Group of Central Florida, Inc.

GA

World Vision Storehouse – Albany, GA

Warehouse · Open

Non–Profit Faith–Based Community Outreach
930 W Gordon Ave, Albany, GA 31701

Phone 229 439 7101
Web www.worldvision.org/get_involved.nsf/child/us_albany?Open&lid=albany&lpos=crumbtrail
Serves Powder Springs, Lithia Springs, GA
Eligibility Impacted by the 9/09 GA Floods / Low Income Community
Service Temporary

9/30/09 GAVOAD ConCall Notes:

• While their Albany office is closing in Jan they are working with groups from Texas to come and assist in Powder Springs/Lithia Springs area in the near future. Jim will be on the ground in that area as well.

World Vision initially came to Albany, Georgia in 1994 to help flood victims, and stayed on to help address needs created by poverty throughout southwest Georgia. More than 16,000 people are helped each year through programs that focus on training leaders, promoting racial reconciliation, tutoring children, and delivering goods to fill basic needs.

The Storehouse: Offering life–changing basics such as clothing, toiletries, toys, and school supplies to local churches and organizations helping those in need

Tools for Transformation: Helping churches and local organizations in their efforts to serve and unite the community

Vision Youth: Partnering with schools and churches to provide educational support and mentoring relationships to at–risk children and youth

Incident Report Description
3/28/2010

IDP camp of 250 families in Pois Congo in Cite Soleil has not received any assistance. There is an urgent need for tents as people are living under cloth sheets and without protection from the rain. Also needed are food, potable water, toilets, and access to medicine. The community association responsible for this camp is APDPC, but have limited resources to service the camp. http://www.trekmedics.org/projects/projects_haiti_earthquake/haiti_day2_pap/

We work with people and serve families in the poorest communities in Africa and the Caribbean. We Make differences in lives of people by:

–Helping people re–build their lives
–Providing shelters with dignity
–Addressing the Public Health dilemmas in developing countries
–Acclimating new immigrants through cultural orientation and integration
–Bridging the gap by providing economic opportunity
–Delivering emergency Aid to survivors of wars and natural disasters

In Haiti, IEDA Relief is a camp management agency of 14 Internally Displaced Peoples (IDPs) sites in Port–au–Prince, Leogane, Grand and Petit Goave. In partnership with UNICEF HAITI, IEDA Relief is working with children affected by the Earth Quake providing psychosocial support and protection commonly called the Child Friendly Spaces in three sites of AUTOMECA, BOULOS and TERRAIN PERE SOLINO.The Cineas site with a total populationof over 18,000 in Delmas 33 by the Mayor's office is our next CFS site. Currently, we are assisting over 125,000 peoples in 14 sites and surrounding communities.

Clinic Eau De Vie: Imminent cancellation of Request For Assistance
Saturday, January 15, 2011 6:37 AM
From: "James Wilson"
To: "Michael Martin"
Cc: Capbham @ aol.com, mnstuffy @ yahoo.com, leslie @ citizenactionteam.org

Hi Mike,

I noticed Carol Stufflebeam is copied on your communique… she had submitted a Request For Assistance for Clinic Eau De Vie on 1/8 that did not contain enough information for us to be able to act on the request. Several requests for clarification have gone unanswered, and we will close out her request Monday COB if she does not respond.

Do you know anything about this site and whether there is a true need?

Cheers,
Jim

1/13/11 Email from Dr. Mike Martin
International Faith Missions, Love–A–Child, Christ pour Tous (Haitian Christian Mission), Foundation for Peace, and World Vision are working together to operate and fund the 1 COC / CTC in Fond Parisien on International Faith Missions property in the hospital known as Centre Hospitalier Eau de Vie.

1/13/11 Email from Carole Stufflebeam

Love A Child, in Collaboration with two other clinics, L'Eau De Vie and Chris Pour Tous are working in collaboration with World Vision in order to provide both a COC and CTC. We are in Fond Parisien but the CTC/COC is located at L'Eau De Vie in LaSous. Mike Martin Director of L'Eau De Vie would be the person to speak to as we are the distributors to see that it happens and Mike is the Director of al the functions of the CTC.

It is right off the main highway to the Dominican. It is open and staffed 24 X 7.
Staffing: MSPP Cholera Coordinator for Fond Parisien area (Generalist/ Pediatrician/ LAC Medical Director)
2 Doctors
24 nurses
4 house keeping
1 Laundry
4 Ambulance Driver
3 ORS attendees
2 Central Supply
1 Administrator
1 Health Management Officer
16 Health Agents
Supply needs are gowns and ORS
Community classes held by Health Agents through out the zone

Opened Nov 15th
Total received 2300

1/4/10 Email from Love A Child/Carole Stufflebeam to HEAS:

I am e–mailing on behalf of the CTC lactated in MalPasse at Clinic Eau De Vie. We are MSPP designated and have 3 local clinics in the zone working in coordination to make this happen. Our Love A Child organization is responsible for the supplies required and we have needs in order to keep it going. We are currently seeing approx 60 patients a day, of which approx 75% have to be admitted, and can not keep up with the need for ORS. We would like to register to be informed by your organization of the current situation and the contacts for getting the needs met for the CTC.

We have a very limited number of cots (30) and the plastic to put on the cots. We have had to put patients on the floor to make space for them.

Our biggest needs are as listed:

ORS
Cots
Plastic
Ango Caths 18G, 22 G and 24G
IV tubing
L/R
Hand Sanitizer
Laundry Soap
Gowns for the staff

Services offered: Medical, Facility, Capacity, Hospital Beds; Medical, Facility, Cholera, Cholera Treatment Center (CTC); Medical, Facility, Clinic, Outpatient Clinic; Medical, Services, Cholera Treatment

A Message From Brother Michael McCarthy, CFX
Written by Maison Fortune Admin
Monday, 08 March 2010 19:26

The following is from Br. Michael McCarthy, CFX (Xaverian Brothers) who is currently living in Haiti at Maison Fortune Orphanage. I felt it worth sharing with everyone.

…KNOCK AND THE DOOR SHALL BE OPENED…
Michael McCarthy, CFX

Jesus' words in Luke's Gospel resound with new meaning at Maison Fortuné since the disaster of January 12th in Port–au–Prince. Our doors have been swinging open making room for sixty new young folks who lost their homes, and some their families, in the earthquake. With the rental of the four story 'apartment' building next to the girls' dorm, we are able to house the nearly 40 boys who now call our campus their home.

Before the first boy arrived, many of the present residents spent the day washing the windows and floors, painting the doors and the living quarters, all in anticipation of the newcomers. Professional painters completed the job and brought the building to life. There is plenty of room to put the newly–purchased mattresses on the floor and provide safe sleeping for the newcomers. The newly–ordered beds are arriving a few at a time, and the older boys are claiming them for their own!

The twenty new older girls now occupy the third floor of their building, and love the view from their balcony as they watch all the happenings on the boys' campus. The new wall on the street side of the boys' building is completed; the gate is ready to be hung. Yes, Jesus' words take on a new meaning as Jean–Louis and Pettris interviewed kids and aunts and uncles during the acceptance process. Many who knocked found the door open.

With the addition of sixty new students here, Jean–Louis has hired ten new people to assist with the increased demand in the kitchen, for nighttime security and to accommodate the additional kids in school. Yes, the doors of employment are opening as well.

The US Army team of humanitarian relief came to Hinche to assess needs and assist with the coordination of assistance to victims from PAP. They knocked at our door and met with the adults here on campus and saw our additional kids and increased needs. The next day a team of doctors arrived with bags of meds and TLC for many of the kids here. They knocked and we opened and received. Twice since then, the orphanage has served as a distribution center for World Vision to give food to neighborhood residents who qualify. Our door was opening again to assist with some of the victims.

Each week a new group of Midwives for Haiti comes from the States to Hinche to work in the hospital. They choose Maison Fortuné to live and enjoy the hospitality and the outstanding food. They enjoy the comfort and cool breezes of the second–floor porch and love visiting the little girls and painting their nails between their tasks of delivering babies and teaching pre–natal classes. Yes, the doors have been opening to many nurses and doctors, some from as far away as Oregon. They come with ample meds and experience to further their mission of empowering Haitian midwives to help reduce the infant mortality here in our country.

In early March Francklin Louima, one of the older boys here, completed his second year of apprenticeship in welding. He proudly carries his laminated certificate looking for employment. Recently he knocked on the door of the Haitian Endowment across the river from us, and began a temporary job, earning money and rejoicing in a new level of independence and maturity.

Thank you, Jesus, for opening many doors to us; help us to continue to open our doors to those who seek and knock. Thank you, Jesus, for all the people who have opened their hearts to us and assist us in the growing mission here at Maison Fortuné.

Orphanage Continues Efforts To Assist Quake Victims
Written by Maison Fortune Admin
Wednesday, 27 January 2010 20:39

We have leased the building next to the girls campus so that we may begin accepting some of the many children that are arriving in Hinche from Port–Au–Prince. While it is certainly not possible to care for all of them, Jean–Louis and the staff are determined to do what they can to help those most in need. The building has sat empty for some time and is currently in "very bad condition". Work will need to be done to get it ready starting with a good cleaning and some paint. Like any supplies at this point, it was not easy to find paint and some time this week a trip will be made to Cap–Haitien to buy paint and some beds.

The population in Hinche has swelled and is now over–flowing with people. Some of them are people originally from Hinche who had been living in PAP, but many others are people who just came to Hinche because they have no where else to go. At night the park is packed with people who have no where else to go.

Jean–Louis is trying to work with Caritas to identify those children most in need, but has not heard back from them as yet. Another problem at this point is that many of the children from Port–Au–Prince are afraid to stay in big concrete buildings. After all they have been through, It will take a while before they will be comfortable staying in them again. Because of this there is an urgent need for some tents. This will provide them some shelter until they can be coaxed back indoors. Problem is there are no tents to be found at this point. If any one knows of an organization that is giving tents please contact us or have or have them contact us.

FROM THE WEBSITE:

Many Seeking Refuge Arriving In Hinche
Written by Maison Fortune Admin
Monday, 18 January 2010 17:44

Many people that decided to just leave the capitol city in search of help and safety have begun arriving in Hinche. It is estimated that the population of Hinche has nearly doubled since the quake and more continue to arrive. Most are homeless and hungry and many are children. With supplies already low and the main port in Port–AU–Prince now in ruins, replacement supplies will be slow to come and no doubt costly.

Some good news to report is that Fonkoze (the local bank) has now reopened in Hinche. This means that it will now be possible to receive donated funds. These funds will be needed so that Jean–Louis may purchase replacement supplies for the orphanage and also help with caring for as many new arrivals as possible.

Preparing For Tougher Times After Earthquake
Written by Maison Fortune Admin

Sunday, 17 January 2010 18:40

It has been five days since a major 7.0 earthquake shook Haiti destroying most of Port–Au_Prince. Current reports state 50,000 dead and that number could reach as high as 200,000. While rescue efforts continue, each passing moment lessens the chances of survivors being found. One thing is certain in that it will be quite some time before any sort of normalcy returns not only to Port–AU–Prince, but Haiti itself.

While the village of Hinche and Maison Fortune Orphanage received no real damage from the earthquake, they will certainly be effected. Tough times will no doubt get tougher. All banks are now closed. The stores have also all closed now and are waiting to reopen for what is referred to as 'Black Market'. Not having any cash due to all banks being closed, Jean–Louis was able to acquire some supplies (rice, beans, cooking oil etc) on credit before all of the stores closed. With the current number of children already living at the orphanage, Jean–Louis estimates he now has enough supplies for approximately two weeks.

It is inevitable that many more children will begin arriving looking for a place to stay and food to eat. It is also expected that when stores reopen demand will certainly be far greater than available supply driving prices even higher. These are only a few of the problems the orphanage now faces. Quoting Jean–Louis "I would love for Maison Fortune to be able to take more kids especially with all those kids that will be on the street added to the ones that were already on the street. However money is the major factor. If we can find people who want to help we will be more than happy to welcome more kids, especially the street kids."

La Gonave Wesleyan Hospital – 2010 Haiti Earthquake

Medical Facility · Open

Commune confirmed. Lpar 2/18/11, La Gonave
Web wesmedhaiti.blogspot.com/2008/09/purpose–of–lagonave–wes–hospital.html
Service Temporary

Re: La Gonave Hospital Filled to Capacity
Saturday, November 13, 2010 6:01 PM
From: "Jim Wilson, MD" <iceaxe5 @ gmail.com>
To: "Haiti Epidemic Advisory System" <haiti–epidemic–advisory–system @ googlegroups.com>

This is the ground truth from Wesleyan Hospital:

"They had two patients in total who they suspected for cholera. They
treated them with antibiotics and sent them home. Wesleyen has no
other patients at the hospital who are symptomatic
thus there is no 'situation'.

At this point, we are standing down our concern for La Gonave, which
is unfortunate because all it takes is one false alarm for an area to
potentially desensitize people to verify and then provide response
support.

Jim

11/12/10FROM Leslie Teltoe – Leslie @ citizenactionteam.org:

I am wondering if this is the same facility. Dr. Serrano are you speaking about the Wesleyan Hospital? WorldShares provided a much different picture. However, their post regarding the conditions described below disappeared when I checked again tonight.

Sounds like everything is under control there then.

Thanks for responding.

Thank you Estrella,

The central question we are interested in is the overall status of the hospital and whether it is overwhelmed with patients. Are you able to provide clarity on this?

Thanks,
Jim

On Nov 12, 2010, at 6:41 PM, Estrella Serrano wrote:

Thank you Jim,

I have inquired from our Regional Team who are currently La Gonave and they have informed us that they had 4 cases of Diarrhea who were admitted in the hospital yesterday. 2 have been discharged as improved and only 2 are currently in the hospital under medications.

World Vision has done the messaging on Cholera Prevention including Proper hand washing. to ADP Areas and have conducted Training to all Health Service Providers in La Gonave.. . We have also sent ORS and Fluids as support to the Hospital. We will be sending some Aquatabs for their water purification.

World Vision is coordinating with the Ministry of Health regarding World Vision Plan of setting up Stabilization Center in La Gonave. We will keep you updated.

Thanks

Re: La Gonave Hospital Filled to Capacity

Thank you Dr. Guillaume. I have copied Estrella Serrano, our POC for WV.
Estrella is a member of the HEAS.

Estrella, are you able to comment on the situation in La Gonave and whether the hospital has enough personnel / materiel to respond?

Jim

WorldShare reports from Twitter:

Cholera now hits the island of La Gonave, Haiti. The only functioning hospital on the island is filled to capacity. There is insuffiicient medical staff to treat those affected. Newborn babies and their mothers are dying. The Hurricane has destroyed some of the flimsy homes built after the earthquake.

Published: January 25, 2010

http://www.freechristianpress.com/relief/wesleyan-hospital-refuge-for-earthquake-victims/

PORT-AU-PRINCE, Haiti /Christian News Wire/ — Caribe Atlantic Area director Dan Irvine reported by e-mail to The Wesleyan Church World Headquarters department of Global Partners, "Within minutes of the earthquake, the Wesleyan Hospital began to receive and treat injured individuals." Operated by The Wesleyan Church, the tiny hospital on La Gonave with a staff of 60 medical personnel, missionaries and volunteers, has been on the 37-mile long island for over 50 years. With comparatively few resources, it has been a place of refuge for the citizens of Haiti, treating hundreds of patients, training Haitian medical personnel, offering HIV/AIDS prevention and care, and sharing the hope of the gospel message. But it was a special place of refuge on January 12. Anse-a-Galets, the adjoining city, was one of the lesser publicized towns but suffered major damage by the 7.0-magnitude earthquake.

As we look to long-term relief efforts, construction teams and translators will be an integral part of the process.

Currently we are looking for structural engineers and other highly skilled construction workers. We are also in need of French and Kreyol speaking persons to assist teams in Haiti.

If you are interested in volunteering for 3 months or less:

Volunteer with NCM Caribbean: http://www.caribnaz.org/haitirelief/Volunteers_view.php

If you are interested in volunteering for more than 3 months: http://www.missioncorps.org/?page=ministry.html

Dr. Bill Dawson – Haiti Nazarene Mission
January 14th, 2010 on 11:53 pm

The Nazarene Mission in Haiti suffered only loss of several hundred feet of security wall. No other structural damage. No injuries on our campus.
Nazarene Compassionat Ministries is working to assess how we may best bring teams of medical personnel and our overall response. We have over 520 churches spread across the entire country and can serve as distribution sites for other groups needing assistance in distributing relief supplies. We do have some space on our campus to store suppiles as well. If we can be of assistance please do not hesitate to contact me at bdawson @caribnaz.org

Nazarene Compassionate Ministries

The Church of the Nazarene is exploring all avenues to assist in relief including plans to provide medical attention, food, and shelter as well as other material support. Nazarene Compassionate Ministries in the Caribbean is working with several groups who specialize in medicine and disaster response to provide immediate relief.

Currently, we are seeking to provide people with food, water, and shelter. For a complete list of items that you, or your group or church can send, click here. You can find directions on how and where to ship these items here.

Please contact ncm @nazarene.org with inquiries. www.ncm.org/haitiearthquake

http://www.ncnnews.com/nphweb/html/ncn/article.jsp?id=10008830

The Church of the Nazarene in Haiti had been holding district assemblies for its 11 districts this week. General Superintendent J.K. Warrick flew into Haiti Tuesday afternoon for those assemblies. Communication with personnel in Haiti has been difficult due to phone lines being down, but Warrick was able to get a text message out from the Nazarene Seminary campus in Petion–ville, outside of Port–au–Prince, on Tuesday to say he and other church leaders on campus were safe. (Related: On–site in Haiti, Warrick calls on Nazarenes to pray and act)

What is not known is the full extent of loss of life or property damage beyond the campus walls. Bill Dawson, the region's French Field Strategy coordinator who had also flown in for the meetings, Emailed the Caribbean Communications Office to say the situation "is grave and urgent."

"There are many injured all over the city," Dawson said Tuesday. "Major buildings, three and four stories, are down. ... Neighbors who work for the United Nations report many injured ... people carrying wounded through the streets."

"We have no news yet of our Nazarene families off campus," Dawson said. "The earthquake was centered in the mid portion of the Central District. Dr. Lucien Jean Baptiste is the D.S. (district superintendent) and is on the road for an assembly in the South Central portion of Haiti. We do not know his whereabouts or information on him and the driver yet." (Update: Lucien Jean Baptiste and his driver are reported safe.)

The population in the capital area is approximately two million people, living in dense urban communities, and they continue to experience significant aftershocks. Catastrophic casualties and damage are expected, as Haiti's weak infrastructure is not prepared for this kind of disaster.

"Our prayers and thoughts are with our Haitian family of more than 115,000 Nazarenes who have suffered such loss today," Caribbean Regional Director John Smee said on Tuesday evening.

Please be in prayer for the Haitian people and the Nazarene churches in Haiti. Pray for those injured in the debris and those involved in relief efforts.

Update: January 13

Warrick, Dawson, and three staff members visited two churches close to their location. Both churches are secure and show no signs of damage.

Dawson reports:

There are literally thousands of people milling the streets. Bodies are covered with sheets on the sidewalks. Cars are crushed by falling buildings and walls. The Children's Hospital in Petion–Ville has collapsed completely. Many large buildings have collapsed. The hillside huts are piles of rubble in many places. Traffic jams abound. People are still in shock and openly grieving in the streets. We comforted people at several sites this morning as they anxiously and tearfully wait while citizen rescuers attempt to remove their loved ones from the rubble.

[We] slept on mattresses in the grass [last night] along with 40–50 staff, neighbors and families. There are still tremors off and on all night and this morning. Hundreds of thousands of people in Port–au–Prince area slept outside last night. Communications are still very sporadic.

We will keep you posted on the situation, which is even more grave this morning than we had anticipated. We truly feel your prayers.

Update: January 14

The Caribbean Region reports five members of the Tabarre Church of the Nazarene were killed in the earthquake. The Bible college in Petion–ville is relatively intact, but efforts are already underway to ration water, food, and diesel. These essentials are quickly diminishing.

Nazarene church buildings in and around Petion–ville, at least initially, seem to have held up to the main earthquake and following aftershocks. Independent news outlets are reporting that the main Catholic cathedral in downtown Port–au–Prince has been heavily damaged. The Bel–Aire Church of the Nazarene is a few blocks from this Catholic church and the status of Bel–Aire church and its members is still unknown.

Warrick, who earlier was safely moved to Florida, remains with Caribbean Region Office personnel in order to help facilitate response initiatives on behalf of the denomination. NCM–Caribbean reports relief efforts are well underway and local churches in Haiti have been offering immediate care, comfort, shelter, and supplies where able. (story)

January 15

National NCM Coordinator for Haiti Walliere Pierre gives a firsthand account of the earthquake and its aftermath. (story)

Update: January 18

Two Church of the Nazarene U.S. Navy chaplains have been alerted and are on their way to Haiti. Chaplain Jeff Mason will be aboard the USNS Comfort (the hospital ship) and Chaplain Richard Bonnette will be sailing out of North Carolina. Chaplain Bonnette just returned from a six–month deployment in December and he and his service members are being asked to deploy again for at least two months. Please keep both in your prayers.

Additional news concerning the earthquake and how it's affecting Nazarenes around the world:

Nampa, Idaho, locals among the Haiti earthquake survivors

A Nampa family of four is among the seven missionary families with Nampa–based Mission Aviation Fellowship in Haiti who survived the country's deadly earthquake, according to a spokeswoman for the organization. For more on the Edgertons, who worked with the Mexico/Central America Region for several years, click here.

NNU graduate rescued

Katie Zook, a 2009 Northwest Nazarene graduate, was pulled from the basement of the collapsed Friends of Haiti Organization building in the Port–au–Prince area. She suffered a bruised lung and bruises on her legs. For more on Katie's story, click here or here.

HAITI HEALTH CLUSTER BULLETIN #14 - PAGE 4 – 1/14/11

World Vision is operating 22 ORPs, and one CTU. Five more CTUs and one CTC are being established, while three ORPs are closing. World Vision continues to collect information on needs according to department, municipality, municipal section, city and village. World Vision is also supporting 12 hospitals in Port–au–Prince, the Central Plateau and Gonaive, through the provision of supplies, such as medicines, and the training of staff on cholera prevention.

HAITI HEALTH CLUSTER BULLETIN #14 - PAGE 9 – 1/14/11:

Last week, World Vision trained 70 Health Promoters in cholera prevention and treatment. They also trained 1,475 individuals in proper sanitation and hygiene as a cholera prevention tactic.

FROM RELIEF WEB:

Haiti: World Vision prepares for potential severe weather admidst ongoing cholera, quake response work

Source: World Vision
Date: 30 Oct 2010

FOR IMMEDIATE RELEASE

World Vision prepares for potential severe weather amidst ongoing cholera, quake response work

· Forecasters predict Tropical Storm Tomas may grow into a hurricane over the weekend

· Aid agency says severe weather, cholera outbreak and ongoing quake response "testing Haiti's limits"

PORT–AU–PRINCE, 29 October 2010 – As forecasters watch Tropical Storm Tomas in the Caribbean, World Vision's relief team is preparing for the possibility of severe weather this weekend in Haiti.

"Our rapid response team is mobilizing right now to do everything it can in the next 24 to 48 hours to help mitigate the effects of this storm," said Sabrina Pourmand–Nolen, World Vision's emergency program director in Haiti. "First the earthquake, then the cholera outbreak, and now the possibility of severe weather here; all of it is testing the limits of Haiti."

The Christian relief agency is carrying out a number of activities in the next several days to help prepare the children and families in its camps in Port–au–Prince for the storm. Activities include: · Distributing hurricane preparedness messages (identify a safe place, listen for radio updates, have phones charged, keep important documents in plastic bags, stock essential items if possible, and secure your tents) in both French and Creole.

· Temporarily dismantling the Child Friendly Spaces tents.

· Ensuring all water tanks are full and latrines are desludged and secured.

· Mobilizing a post–storm rapid assessment team.

· Securing contents of the health tents but continue to keep open (as much as possible) to provide preventative measures for cholera.

In addition, World Vision is working with other agencies, including the American Refugee Committee and Oxfam at Corail, to protect the families in those camps, including establishing the warehouse at Corail as an emergency shelter.

"The effect of these natural disasters and the outbreak highlight the ongoing vulnerability here," said Pourmand–Nolen. "It is a reminder to the international community that one of the most critical things that must happen for Haiti to recover from the multiple tragedies this year is a commitment to build its infrastructure. Access to clean water, sanitation facilities, health care and education will create a stronger Haiti in the future."

HAITI EARTHQUAKE 3 MONTH UPDATE

Protecting children
Providing shelter
Renewing opportunity
Restoring health

Preventing illness –
World Vision will continue working to improve the sanitary conditions in displacement camps throughout Port–au–Prince. We'll partner with displaced communities to clear the camps of garbage, dig garbage pits, lay proper drainage systems, and more.

Our priority is to help families stay healthy now and during the coming rainy season.

Haiti: Concern for children grows
16 Jan 2010 – By World Vision staff

World Vision relief workers, in a race against time to save lives in Haiti, got a boost as relief goods began arriving in Haiti's quake–ravaged capital city yesterday. Meanwhile, World Vision staff's concern for Haiti's children continues to grow as they find more and more children separated from their parents.

Broken infrastructure a key challenge

Difficulties with broken infrastructure, limited airport capacity and concerns about potential security threats in Haiti slowed the delivery of humanitarian supplies to hard–hit areas in the first days after the quake. Even ambulances are in short supply, reported World Vision staff.

“The basics are the hardest,” said Dave Toycen, president of World Vision Canada. “There was a mile–long line for gasoline. It's a logistical maze out here.”

The security situation could change rapidly if shortages of food, water and other basic supplies reach a critical level, the agency warned.

With thousands in Port–au–Prince left homeless by destroyed or badly damaged houses, many are sleeping in the streets or at spontaneous settlements in public parks and other spaces. World Vision staff have seen people living in very unsanitary and hazardous conditions.

Supplies running low; resupply begins

World Vision, which has worked in Haiti more than 30 years, today reached an additional 1,000 families with relief items already stored in the country, but many urgent items such as clean water, medical supplies and emergency shelter resources were running low.

Toycen reported via Twitter: “Distributions are in full force – trying to reach as many people as possible. Still a steep curve to reach all those affected.”

World Vision’s supply chain is ramping up to bring in badly needed supplies. The first of a series of flights bringing emergency supplies for World Vision relief efforts in Haiti touched down in Port–au–Prince on Friday evening.

A Hercules C130 brought items such as hygiene kits, blankets, water containers, and shelter materials from World Vision’s warehouse in Denver. The aid group is planning more flights this weekend from Panama City, Toronto, and an additional flight from Denver, bringing more supplies, including medicines, tents, and shovels to remove debris.

World Vision staff are finding alternatives to the congested Port–au–Prince airport, including bringing supplies overland from airports and ports in the Dominican Republic, where the agency has a sizable presence.
Provide first aid

World Vision teams have distributed first–aid supplies to more than ten hospitals in the Port–au–Prince area. “Some volunteer teachers have been performing first aid for the past day or two to those who have been injured,” reported Toycen. However, he fears many will die of their injuries if not tended to soon. “We are racing against the clock.”

Many of the injured have started to develop gangrene because they did not receive timely and adequate medical care. Family members of patients are taking measures into their own hands since the hospital system is completely overwhelmed and suffering serious structural damages; one World Vision volunteer saw an amputation performed in the hallways of the general hospital using unhygienic tools. World Vision volunteers also have seen a severed foot become an amputated leg because the wounds were not sterilised.

Amputation tools and supplies to sterilise wounds are in short supply; World Vision anticipates a need for significant amounts of crutches and braces for earthquake amputees.

Children alone and at risk

World Vision has started to identify children who have become separated from their parents. The organisation has expressed concern about the number of children who are leaving Port–au–Prince and walking into towns outside the city to find help. World Vision’s Dominican Republic staff in the border town of Jimani are helping provide food, water, and medical care to hundreds of unaccompanied children who fled Port–au–Prince for the border, either alone or who became separated from parents along the way.

There were a significant number of children in orphanages prior to the disaster, and World Vision staff acknowledge that the earthquake certainly has created more orphans. Because the quake struck during school hours, there are hundreds of children who simply have not found their parents.

SOURCE: http://www.lifegivingforce.com/2010/10/22/cholera-outbreak-in-haiti/

An outbreak of cholera has exploded in the Artibonite region of Haiti. We have received reports that as of this morning, Friday Oct 22nd, there have been more than 2000 cases of acute watery diarrhea and already 160 deaths and mounting, at the facilities in St. Marc, Petite Riviere d'Artibonite, Mirebalais and Lascahobas; the death-rate of patients since Tuesday night has spiked to around 10 percent. This extremely virulent disease has also spread to the capital Port-au-Prince. In emergency mode, and as officials were just confirming the deadly outbreak, the LifeGivingForce team was on the ground in the seaside town of St Marc, to begin providing families there with desperately needed clean, safe water to stem the tide of the disease.

In its response to the crisis, the co-ordinating body of the WASH cluster in the St Marc area, known as ACTED, requested that LGF assist in immediate efforts to bring clean drinking water to the affected area. This morning we sent our Haiti team to the region, about 45 miles north of the Port-au-Prince capital.

The news we have on the ground is that the St Marc hospital is a horror scene. According to our sources, the inside of the courtyard is lined with patients hooked up to IV drips. Children are screaming and writhing in agony, while others are motionless. The hospital is completely overwhelmed by one of the fastest killers there is: Cholera.

While representatives of all major NGOs attended the urgent WASH cluster meeting at St Marc this morning, approximately 250 local residents gathered outside angrily demanding clean water. The situation there is dire. LGF will set up an LGF mobile response water purification system capable of purifying 10,000 liters per day, providing clean drinking water to thousands of desperate villagers. Our systems rid the water of 99.999% of all known bacteria, viruses and cysts, through best-in-class UF barrier technology.

Matt Walters, Program Director for LGF in Haiti stepped out of the WASH cluster meeting to take a call from the UN MINUSTAH CVR unit in Port au Prince, and received more unsettling news. Cholera has spread to the capital. The UN representative requested that LGF set up a number of our units there as well to try and stem the spread of this deadly disease.

LifeGivingForce is responding quickly to this grave situation. We already have one of our LGF RR 1Ok units providing clean drinking water to 4,000 people per day in the Mirebalais community. We are working on getting as many of our units on the ground in the affected areas as we can in the shortest amount of time to save as many lives as possible.

Please donate and help us get more life saving units on the ground in Haiti!

HAITI PROJECT –
http://www.lifegivingforce.org/projects/h20-haiti

Nine months after its devastating earthquake, Haiti's water infrastructure is still broken. Every municipality on the island remains challenged to provide safe water to its people. Sanitation has improved little, and water-borne disease is rampant. Now with over 2 million people staying in overpopulated and often makeshift temporary settlements, access to safe water or sanitation facilities remains a pressing need. We are still on the ground in Haiti addressing this need. With your help, LGF and its local partners are delivering water purification units directly to where they can make the most difference, and continue to do so for years to come.

Help save a Life by Giving today:
We met Haiti Partners' co-Director John Engle in Port-au-Prince not long after the quake, and learnt about the amazing work that they have been doing in the region for some years now.

Their mission statement is simple- 'Helping Haitians change Haiti', and they have been succeeding through many initiatives, including the support of some seven schools in various locations around the country.

We made the decision to support their efforts by providing a water purification system for one of their schools, the IMN Community School, which was located at the very epicenter of the earthquake.

The direct cost of this project is only $8000, which will provide the entire school with safe water for over a decade. Haiti Partners have raised US $5,000 already, please help us raise the remaining US $3,000.

Japan: World Vision responds to quake and tsunami
12 Mar 2011

As the impact of the most powerful 8.9 magnitude earthquake and tsunami begins to be understood, World Vision is responding.

“We are now facing the most tragic disaster in our country’s history. We will have so many challenges as we plan to conduct a relief operation to help respond to the needs of the affected children who are most vulnerable during this time,” said Kenjiro Ban, World Vision’s humanitarian and emergency affairs manager in Japan.

Death tolls and the numbers of those missing continue to climb. Entire villages were washed away. Hundreds of thousands are displaced. Hardest hit are coastal areas of north-eastern part of the country.

Ban said, “World Vision will be deploying three staff to the quake zone to assess the impact and identify immediate needs of the survivors. We are responding with an initial budget of US$400,000 for an initial one month period and appreciate the assistance from the partnership to mount our operation.”

World Vision plans to distribute daily necessities after the assessment has been done. Child Friendly Spaces will also be considered as a psycho-social response to the children who faced such a traumatic situation.

Meanwhile, all World Vision staff are accounted for and the World Vision building was not affected.

“Our prayers and that of the partnership are for the survivors as well as everyone impacted by the calamity,” said Ban.

In the immediate wake of the quake and tsunami yesterday, all the major transportation means like trains and highways were stopped in major affected cities. Electricity was cut off for about 7,000,000 households while telecommunications was down.

FROM RELIEF WEB:

Pacific nations brace for tsunami following 8.9 quake in Japan
Source: World Vision
Date: 11 Mar 2011

World Vision staff on high alert across region, preparing for response

SINGAPORE, March 11, 2011 – Asian, North American and South American countries on the Pacific Rim are facing tsunami alerts following a 8.9 magnitude earthquake, which occurred near Japan's east coast today.

"Our offices in Indonesia, the Philippines, Papua New Guinea and the Solomon Islands are on alert and staff in coastal areas have been advised, said Geoff Shepherd, World Vision's Humanitarian and Emergency Affairs Director for the Asia-Pacific region. "We've also alerted our Global Rapid Response Team and have put team members on standby for possible deployment to affected areas. This could be a very serious disaster in multiple countries and our staff are prepared to respond."

World Vision

• World Vision is particularly concerned about those who would be most vulnerable in the island nations facing tsunami warnings.

• World Vision currently has operations in the following countries that may be affected:

o Japan, Taiwan, Philippines, Indonesia, Papua New Guinea, Australia, the Solomon Is., Vanuatu, Mexico, New Zealand, Guatemala, El Salvador, Costa Rica, Nicaragua, Honduras, Chile, Ecuador, Colombia, Peru

o World Vision also has responded to disasters in American Samoa in recent years.

• World Vision responded in the immediate aftermath of the 2004 Indian Ocean tsunami, as well as earthquakes last year in Haiti and Chile.

• Staff are on standby to respond in Japan and in many of the potentially–affected countries.

• Community development staff in the Philippines are working with local governments to coordinate a possible response in coastal areas.

• World Vision will be able to offer interviews from emergency response and communications staff in Japan, the Philippines and possibly Indonesia as connectivity allows.

Japan:

• The quake, which occurred at 1:46 p.m. local near the east coast of Honshu, Japan

• In Tokyo, reports have already been issued predicting waves as high as 10 meters.

Philippines:

• According to communications staff Jay Mijares, based in the Philippines, "In the coastal town of Palanan, where World Vision has an ongoing relief operation, World Vision staff were the first to notify the local government of the impending tsunami. Local government officials have now identified evacuation sites for community members."

• World Vision staff in the Philippines are monitoring and have pre–positioned supplies prepared for a response if necessary.

Indonesia:

• Staff in Papua New Guinea have pre–positioned supplies for 1,000 to 2,000 people. Staff are on alert for a potential response.

General Information

• Some media reports indicate that this is the most powerful quake on record in Japan and may be the fifth largest earthquake reported in the world since 1900.

• The Pacific Tsunami Warning Centre has issued tsunami warnings for more than 50 locations, some as far away as the western coasts of Chile and Peru.

Asia/Pacific: Countries brace for tsunami following 8.9 quake in Japan
11 Mar 2011

By World Vision staff

Asian, North American and South American countries on the Pacific Rim are facing tsunami alerts following an 8.9 magnitude earthquake, which occurred near Japan's east coast Thursday.

“Our offices in Indonesia, the Philippines, Papua New Guinea and the Solomon Islands are on alert and staff in coastal areas have been advised,” said Geoff Shepherd, World Vision’s Humanitarian and Emergency Affairs Director for the Asia–Pacific region.

“We’ve also alerted our Global Rapid Response Team and have put team members on standby for possible deployment to affected areas. This could be a very serious disaster in multiple countries and our staff are prepared to respond.”

World Vision is particularly concerned about those who would be most vulnerable in the island nations facing tsunami warnings.

World Vision currently has operations in the following countries that may also be affected: Taiwan, Philippines, Indonesia, Papua New Guinea, Australia, the Solomon Islands, Vanuatu, Mexico, New Zealand, Guatemala, El Salvador, Costa Rica, Nicaragua, Honduras, Chile, Ecuador, Colombia and Peru.

Staff are on standby to respond in Japan and in many of the potentially–affected countries.

The quake occurred at 2:46 p.m. local near the east coast of Honshu, Japan, and triggered a tsunami. This is the most powerful quake on record in Japan and may be the fifth largest earthquake reported in the world since 1900.

World Vision responded in the immediate aftermath of the 2004 Indian Ocean tsunami, as well as last year’s earthquakes in Haiti and Chile.

U.S. Gulf Coast — September 12, 2008 — As Hurricane Ike bears down on the Gulf Coast, IRD is preparing to provide case management and other assistance to those in its path. Staff from IRD's Gulfport–based Gulf Coast Community Service Center is already in Baton Rouge to assist with Gustav response. drawing on the experience from providing case management services to victims of Hurricane Katrina for the past three years.

Your donation will help us bring emergency relief to the victims of this disaster.

The IRD Gulf Coast Community Service Center (GCCSC) has been rebuilding the lives of the citizens of the Mississippi Gulf Coast since October 2005, opening its doors a little more than one month following the devastation of Hurricane Katrina. The goal of the Center is to reach out to the community and assist in the organization and facilitation of an often–difficult recovery process. Located in West Gulfport, the Center serves the entire Mississippi Gulf Coast, representing most of the Coastal cities as well as the three Coastal counties.

The GCCSC began it work on the Gulf Coast by administering emergency relief, but has transitioned its services to focus on sustainable, long–term recovery. The Center was one of the first agencies in the area administering needs assessments and mapping the most affected areas. The goal of the multi–faceted needs assessment and community mapping process conducted by the Center was to identify potential applicants for assistance following the hurricane. As the recovery cycle progressed from assessing needs to managing needs on an individual basis, the GCCSC has changed its focus to assisting citizens in need through case management. Case managers facilitate the recovery process for survivors by identifying ways to maximize their access to community resources.

The Center hosts a walk–in center for assessments administered by the Harrison County Long Term Recovery Coalition (LTRC), and has developed a resource guide printed by Federal Emergency Management Agency (FEMA) to provide to other relief agencies as a reference.

The Center also provides financial counseling to hurricane victims and MDA Phase II grant recipients seeking to purchase or rebuild homes through funding from the Enterprise Corporation of the Delta. This counseling not only prepares beneficiaries for homeownership, but gives them tools for long–term financial security. And in partnership with the Mennonite Economic Development Association (MEDA), the Center will create and manage a micro–enterprise capital fund which will finance start–up businesses along the Mississippi Gulf Coast. Additionally, the GCCSC will support the development of an open–air market in its Gulfport neighborhood.

IRD also participates in YouthBuild, a program that provides comprehensive programs for vocational development, workforce training and career counseling with Gulf Coast youth. YouthBuild teaches local at–risk high school students how to assist in rebuilding homes while helping them get their GED.

Helping people rebuild their lives, their relationships, and their sense of self–sufficiency, is equally as important to their long–term recovery and that of their communities as their physical needs. It is the human side of recovery that the GCCSC addresses, for thousands of Katrina survivors.

Services:

1)Case management for Katrina survivors. Eligibility: affected by the hurricane and still have unmet needs

2) Fincancial Counseling. Eligibility: Open to everyone

3) Housing Counseling. Eligibility: Open to everyone

4) Youth Build Program will start in January. Eligibility: youth ages 16 to 24 who do not have a high school diploma/GED

Applications are still being accepted for Katrina survivors and programs. To obtain an application: Monday – Thursday 9:00 – 3:00

Do Your Part – 2012 HURRICANE SANDY

Info/Hotline · Open

HQ: 15835 Bahama Street, North Hills, CA 91343, Various, NJ

Phone	818-326-5037
Web	doyourpart.org/DYP3
Serves	New Jersey & New York
Eligibility	Impacted by Hurricane Sandy
Checks payable to	Do Your Part
Service	Temporary

Hurricane Sandy hit the east coast days before Halloween, and it hit with a vengeance. Sandy turned into an extra-tropical cyclone, known as a "Superstorm," bringing back memories of Hurricane Katrina and the destruction it left behind. Both hurricanes brought a surge of water, with Katrina the surge was higher, and the path was 300 miles wide, whereas the shape of Sandy extended its surge 900 miles with its rotation. The volunteers of Do Your Part were there for the people of Katrina and many disasters since, and will be there for the people that have been affected by Sandy.

The aftermath of Sandy left massive devastation, and with the large population of the states and land involved, recovery is long term. Do Your Part is working along with its partners to aid in the recovery process by holding donation drives and securing large in-kind donations from corporate donors. If you would like to help please contact:

Schlene Boundy: Schlene@doyourpart.org – 818-326-5037
Leslie Teltoe: Leslie@doyourpart.org – 818-634-6522
Lisa Campbell: Lisa@doyourpart.org – 757-208-4944

Facebook page administered by DYP Volunteer Leslie Teltoe:

https://www.facebook.com/HurricaneSandyRecovery?fref=ts

Operation Sandy Gifts of Love

Hurricane Sandy left thousands of people homeless and many more without food, water, heat, power, or any of the other necessities we all take for granted. To help restore their lives to a sense of normalcy, Do Your Part has established the Operation Sandy Gifts of Love Registry. These online Amazon gift registries allow donors to browse through a list of basic relief supplies, household items, and Christmas gifts for children, and purchase items on behalf of the most vulnerable families in the hardest hit areas. The items you supply will make an immediate and positive impact on the lives of the people who need them the most. As you browse the registry, you also can learn about the families and distribution sites you will be helping, and they will know that they are not alone in facing this tragedy.

With such widespread and complete devastation, it will take years for the East Coast to recover. Do Your Part recognizes that no government agency, charity or local community can provide all of the things these families need to put their lives back together. But each of us can "do our part" to fill the gaps and make a difference right away. That's why, with the help of communities, churches, partnered organizations, and volunteers, we've identified and stringently verified critical needs of families, individuals and relief sites for whom your donation will do the most good: children, elderly, disabled, unemployed, uninsured, alone. Many have lost everything except their faith in family, friends, neighbors, communities and volunteers who have reminded us that we are all in this together. Your kindness will reach them directly to their doorstep, with zero overhead or delays.

Please share these registries with your friends, family and co-workers. Thank you for your generosity.

WVUS Responds to Texas Wildfires and Hurricane Irene Aftermath:
http://www.worldvisionusprograms.org/hurricane_irene_2011.html
...
In Texas, World Vision is distributing personal hygiene and cleanup kits to children and their families who have been evacuated in the hard–hit Bastrop County area. Wildfires have destroyed more than 1,300 homes, a figure that Texas officials expect will rise.
...

World Vision
found at:
http://www.bgct.org/texasbaptists/Page.aspx?pid=4187

The World Vision Dallas Warehouse has the following opportunities available:

all sizes of baby diapers and baby wipes
volunteers to help put supplies on pallets to be shipped to the coast

They have supplies such as shovels, brooms, mops, buckets, Lysol products, latex gloves, and other cleaning supplies that are available to churches who are going to the Coast to help with Ike relief. The main thing is for a church to identify the needs in that particular area so duplicated efforts and aid are avoided.

Texas: Deadly Floods Displace Thousands of Families; World Vision Responds With Desperately Needed Aid

Heavy, unrelenting rainfall batters the state; displaced residents supplied with basic necessities, including hygiene products and clothing.

July 10, 2007
http://news.worldvision.org/W6RH028A9F884EBFB391D3173229E0

Neighbors helping neighbors

People in urban Dallas are suffocating under the stress of daily needs and lack of hope. World Vision comes alongside faithful church and community partners in the Dallas area already hard at work trying to lift their neighbors out of poverty.

* The Storehouse: Providing clothing, shoes, household supplies, personal care items, and school supplies to families and local churches and organizations assisting families

Filling Education Gaps for Kids in Need
Teachers who work in schools that serve low–income neighborhoods can get free school supplies and learning tools for their impoverished students at The Storehouse.

The Storehouse provides free school supplies to teachers in schools that serve low–income families. Teachers can obtain teaching aids and books, binders, backpacks, pencils, art supplies, and posters. They may also find educational toys and games that can be used as incentives for stellar schoolwork or good behavior. Many sites also provide such staples as blankets for school nursing offices and clothes for children in desperate need. Thanks to The Storehouse, teachers in participating schools don?t have to dig into their own wallets or watch their students go without educational supplies.

Schools in which 70 percent or more students qualify for subsidized meals qualify to use the center. In Dallas, nearly 33 percent of all schools fall into that category.

Building Self–Esteem for Families
Every World Vision Storehouse across the country offers a varying supply of necessities needed to live everyday life with dignity. These range from clothes, shoes, and toys to building supplies and personal care and household items.

VOAD – Dallas County Texas

Info/Hotline · Open

VOAD
TX

Web dallascountyvoad.org
Service Temporary

The role of the Dallas County VOAD is to coordinate planning and preparedness efforts in advance of a disaster. The Dallas County VOAD is not designed for operational management, and is not itself a service delivery organization. Instead, its members operate independently to provide disaster relief and recovery services, and do so cooperatively through the Dallas County VOAD. The Dallas County VOAD is committed to the idea that the best time to prepare, train, and become acquainted with one another is prior to the actual disaster response.

HOW YOU CAN HELP >> + REGISTER + Donate to a cause + Donate to a region + List a new charity/need + Donate Goods + Volunteer + Volunteer Talent

CAUSES –
» RAISE YOUR HAND » CHILDREN » ELDERLY » ENVIRONMENT
» ANIMAL » HEALTH & DISEASE » EDUCATION » POVERTY
» HUNGER » DISABILITY » DISASTER RELIEF » PEACE & PEOPLE

Once long ago, we all were children, simple, loving and caring. We chose to care about our world, our families and everyone around us. Somewhere along the way, we became mad; we lost our way as humanity. We began destroying and consuming our world and our hearts. We chose events and things as more important – than each others lives. The Raise Your Hand and Open Your Heart Foundation chooses to change that, to get people to help one another, no matter the crisis, the problem, or the effort. A world united for ONE single common goal. HOPE. HOPE for each other, for our children, for our animals and for our environment.

You can be a part of this organization, by registering through the website, donating cash, time, your talents, volunteer or participate directly with the charities, people and organizations listed there. You can load new charities and even load your own problems. This way, we intend helping each other, as ONE family. Participate today by searching and navigating through the various regions and causes and taking a few hours each day to help heal the world through the website by using your talents, things and time. Thank You for being a part of the change.

REGIONS

Asia
Europe
The Middle East
North America
Oceania
South America

HOW ARE WE KEPT ACCOUNTABLE?

The donor is notified, thanked and praised for making a donation, immediately upon payment. They are also automatically provided with a tax certificate. They remain anonymous on the system, but are progressed to the regional list of real donors.

They are explained that their funds are kept in trust, either for direct release for urgent need, or until a project comes up that is needed for and will NOT be used for anything else.

Once the payment is, the donor is informed that the payment is made to the charity, or cause. With a proof of payment attached in the system and a track able reference to verify that this has been done.

100% of the donation will be done, unless under extreme circumstance a charge or fee is incurred. In this instance, they will also be provided with proof of these charges.

Now, most organizations end here, but where Raise Your Hand will be different is that we will not only 'pay' the 100% donation over to the organization, we will require them to provide us with faxes or scanned emails of the use of this money and exactly what every cent is used for.

They will only receive an immediate 20% of the donation and until they prove that they can provide the proof that it is used what it is used for, we will not release the money.

If it is an ambassador or representative of the charity, and the entire donation is needed now, they will immediately be paid over, once they provide letters from where they will be purchasing goods, or provide direct invoices for us to pay on their behalf.

Let us say, as an example, The Red Cross needs $850000 (yes, they asked me for this), for fuel and the means to get aid across Pakistan. Now, what would be best is to find a Shell Petrol Depot there and pay them directly, with this proof of invoice and payment, our donors will feel that their money has gone to the right place.

If, we can, we will also provide them with photos of the delivery of their aid.

All of this allows our donors to know their money goes to the correct place at any given time, with proof and contactable verification of delivery of the aid money.

Service Temporary

Based in New York, this group looks to be a single coordinating agency for all of the country's faith–based recovery groups. It has an online database for social/disaster relief resources.

Note on the left side:

1. To register your org, it's easy. Click "Submit Directory"

2. To see an incredible library of resources for disaster planning/management, choose "resources". Scroll down to see a bunch of links to "tip sheets":

TIPS SHEETS:
01 – Disaster Basics for Faith Communities
02 – The Disaster Lifecycle: Where Do Religious Leaders Fit In?
03 – The Role of Faith Communities in Disasters
