FROM THE SITE:

Current Urgencies:

Since the earthquake in Port au Prince on January 12th, the main challenge for people not being reached by the big aid organizations continues to be gaining access to clean water, food and shelter. Even though multiple requests have been made, communicated in several ways, because of the size of the population impacted, there remains an incredible gap between the intention for aid to be delivered and the actual distribution of that aid.

We are working in select communities who fall into that gap, who are not being reach by the big aid organizations. With your trust and generosity, how we do that is by sending cash and having the leaders already accountable for previous programs make large purchases of what's available in the markets to fulfill immediate needs NOW...

For right now, we've refocused on food aid, including a special USAforHaiti program for the injured and malnourished.

Yes! We're a Real 501(c)(3) Organization!

It's good to question whether the organization you want to contribute through is who they say they are. Chances are, before the quake, you never heard of most of the small to medium sized nonprofits working with communities in Haiti, but we were out there!

Services offered: Demographic Served: Diaspora Populations; Demographic Served: Disabled, Persons With Disabilities; Demographic Served: Survivors, Natural Disaster Impacted Communities; Demographic Served: Vulnerable & Marginalized Populations; Donations, Disaster Fund; Food Distribution, Emergency/Disaster Food Distribution; Information Resource, Online Networking, Blog; Information Resource, Online Networking, Facebook Page/Group; Information Resource, Online Networking, Twitter Page/Twitter Feeds

From RELIEF WEB:

Pakistan: Situation Report, 11 August 2010
Source: Logistics Cluster
Date: 11 Aug 2010
Pakistan – Monsoon Flooding

Highlights

– The Logistics Cluster is in the process of establishing logistics hubs in Peshawar, KPK Province, Multan, Punjab Province and Sukkur Sindh Province. Cluster Officers are being deployed to each of these hubs to augment the response capacity.

– All Logistics Cluster participants will have access to temporary storage facilities; all interested organisations should submit a Temporary Storage Request form that is available on the Logistics Cluster website (http://www.logcluster.org/ops/pak09a/temporary–storage–request).

Situation Update

– Torrential monsoon rains have lashed Pakistan for two weeks, triggering catastrophic flooding that the UN states has affected 14 million people; of which almost 6 million are in need of assistance. Flood waters from the country's North West have now

moved south and reached upper parts of the Sindh province, where latest estimates from the Provincial Disaster Management Authority place the number of affected people at 1.3 million, with 700,000 evacuated. In eight affected districts of the Punjab Province, the estimated figure of over 1.6 million people is likely to rise. In Baluchistan and Pakistan administered Kashmir (AJK) number of the affected currently stand at 300,000 and 120,000, respectively. The flood wave is now passing through Guddu and Sukkur barrages with the potential threat of the Sukkur Barrage overflowing, meaning Sindh will face as much devastation as that seen in KPK and Punjab Provinces.

Logistics Coordination

– KPK Province: The Logistics Cluster is liaising with the Government of Pakistan to coordinate requests from participants for air–lift operations for the distribution of relief supplies. The Cargo Request Form has been updated and is available on the Logistics Cluster website: (http://www.logcluster.org/ops/pak09a/cargo–movement–request).

– The Logistics Cluster has Mobile Storage Units (MSUs) on hand with 25 additional expected by the end of the week, the plan is to erect these in Peshawar. The MSUs will serve as a hub for temporary storage of humanitarian cargo.

– An LRT trained Logistics Cluster Officer will be deployed in Peshawar to augment the logistics and coordination needs for KPK by the end of the week.

– Punjab Province: The Logistics Cluster is establishing a logistics hub in Multan and has identified a Logistics Cluster Officer to be deployed to initiate coordination activities. In addition storage facilities have been identified to augment capacity.

– Sukkur, Sindh Province: The Logistics Cluster is on the ground establishing a logistics hub and has deployed a dedicated Logistics Cluster Officer for this hub.

– An Information Management Officer has been identified and will be based in Islamabad.

– For security reasons, limited maps are being published on the Logistics Cluster website. For information on maps please contact us at Global.LogisticsCluster @WFP.org.

Air Operation

– KPK: Heli–lift operations based in Ghazi continue to deliver humanitarian supplies to Kalam in Upper Swat, having been resumed after several days of suspension due to the poor weather conditions. Two additional heli–lift operations have begun: 1) a Khwazakhela–based operation to support flood affected areas in Swat and 2) an Abbotobad–based operation to support flood affected areas in Kohistan.

Road Conditions

– Gilgit and Hunza remain inaccessible and access to Muzaffarabad is possible by road, but the Neelum and Jhelum valleys are inaccessible from Muzaffarabad. Punjab: Road from Mianwali to Multan has multiple bottlenecks where roads are damaged/ flooded. IOM has suggested taking the following route from Islamabad to Multan: Islamabad–Pindi Bhattian– Chiniot–Jhang–Shorkot–Multan.

Services offered: Directories, Cluster/EMA Contacts; Distribution * (ANY/ALL Types); Information Resource, Map; Information Resource, Online Networking, Facebook Page/Group; Information Resource, Online Networking, Twitter Page/Twitter Feeds; Information Resource, Road Closures/Conditions; Information Resource, Situation Reports & Status Reports; Services, Logistics Support; Storage, Storage Facility; Warehouse, Warehouse Space
